Deputy Director

Message from the Director

Buenas yan Hafa Adai!

On behalf of the Bureau of Statistics and Plans, I am pleased to announce the availability of the *2015 Guam Statistical Yearbook*.

Major highlights from this report include a decrease in the unemployment rate, an increase in consumer spending supported by a growth in compensation and decreases in consumer prices, and finally, record breaking tourist visitor arrivals.

Here at the Bureau, we understand the importance of reliable data. It is our primary mission to ensure that you receive dependable information for use in your research, policy making, grant funding opportunities, project and business development, program monitoring and improvements, and creation of new programs and services that will benefit our island community.

This report would not have been possible without the partnership and contribution of many government of Guam agencies and organizations. A heartfelt thanks to the staff of the Bureau of Statistics and Plans for their dedication and diligence in preparing this resource tool.

We are confident that this report will serve your continued efforts to address or improve our neighborhoods, infrastructure, and ultimately, the quality of life for the people of Guam.

Dangkulu Na Si Yu'os Ma'ase',

WILLIAM M. CASTRO
Director

2015 Guam Statistical Yearbook

Chapter Titles

	Page
Chapter 1. Climate and Environment	9
Chapter 2. Agriculture and Fisheries	17
Chapter 3. Chamorros in the United States	33
Chapter 4. Compact Impact	43
Chapter 5. Consumer Price Index	57

GUAM ECONOMIC OUTLOOK

Economic Outlook

Economic Outlook for Guam

Governor's Executive Budget 2017
Submitted to the 33rd Guam Legislature

SUMMARY

Guam's steady expansionary economic trend is forecast to advance in FY 2017 at a moderate and very possibly increasing pace. The continuing expansion is expected to be driven primarily by growth in the visitor industry with both increasing numbers of visitors as well as increasing revenue as hotel rates increase and expenditures rise. Increasing diversity and growth in Asian tourist outbound traffic to Guam is expected to continue, boosting the record 1.37 million visitors who came to Guam last year. Capacity expansion to accommodate increased numbers of visitors is underway with increased air transportation, hotel accommodations, retail, entertainment and other commercial investments. Major private commercial investment, as well as public investment in utility infrastructure, is also planned.

The Department of Defense continues building Guam's defense infrastructure capacity and that pace is expected to accelerate with preparation for the Marine Corps relocation from Okinawa underway. During the last decade the Department of Defense construction contracts have totaled over \$2 billion and have averaged nearly \$240 million annually for the most recent six years. In 2016 multiple major projects are scheduled to commence in support of the planned relocation of Marine Corps personnel from Okinawa.

The continued economic expansion on Guam will be bolstered by simultaneous growth in tourist, resident and military populations; continued moderation of energy costs; and America's rebalancing of its strategic focus and defense posture toward the Pacific.

TOURISM

2015 was Guam's best year in tourism history with more tourists arriving than in any other year. December 2015 also made history as the top December with a record 132,418 visitors, a 10.5 percent increase over December 2014. The Guam Visitors Bureau reports visitor arrivals of 1,372,531 for FY 2015, and projects a two percent increase each year, for the next two years, with arrivals projected at 1,400,000 in FY 2016 and 1,430,000 in FY 2017.

Airline and hotel capacity increases will help support and promote the increase in projected arrivals. Eastar Jet Co. Ltd. is planning to start regular scheduled flights on the Seoul-Guam route in summer 2016. The airline plans to use Boeing 737-800 aircraft with a capacity of 186 passengers. The Department of Transportation granted the company a foreign air carrier permit. This increase should help offset the capacity loss due to United Airlines suspension of services on the route. Air Busan will offer services on a new route directly from Busan, Korea to Guam in July 2016 with four flights weekly. In 2015 T'Way Air and Air Busan launched services between Seoul and Guam. This will bring the number of Korean Air carriers serving Guam to a total of five. An estimated 2,500 potential visitors per month are anticipated. Cebu Pacific Air announced four times weekly service between Manila and Guam starting March 2016. As a low-cost carrier, it plans to expand the market and add 1,444 weekly seats to this route using new Airbus A320 aircraft.

Economic Outlook

Hotel capacity on Guam expanded in 2015 with the long awaited opening of the Dusit Thani Hotel and additional hotel construction is scheduled in the near future. The Guam Economic Development Authority board approved two applications for its special hotel Qualifying Certificate (QC) authorized under Public Law 32-233. A 500-room Citta di Mare Hotel with a construction cost of \$130 million is planned for a location behind the Acanta Mall in Tumon. P.H.R. Micronesia is constructing a 340 room hotel adjacent to the Hotel Nikko Guam with a total investment of approximately \$168 million. LGI Polaris – Ladera Towers Condominiums will be converted to Ladera Towers Hotel. The total room count is 218 with a total investment of approximately \$137 million including purchase of the condominium. All three of these hotels are scheduled to start construction in 2016. GEDA's goal with the special hotel QC program is to add 1,600 rooms for Guam supporting the Guam Visitors Bureau's Tourism 2020 goal of bringing in more tourists. The Guam Hotel and Restaurant Association statistical report shows that, in addition to increased number of visitor arrivals, visitor expenditures on hotels have also increased. In 2015 weighted average hotel rates increased from \$136 per night to \$148 or seven percent. The increase is on top of the 11 percent increase in 2013 and 9 percent increase in 2012. Hotel occupancy rates of 76 percent indicate there is still existing room capacity to permit additional arrivals.

Macy's plans substantial retail space additions with a two-story 45,000-square-foot expansion in late summer 2016. The addition is currently under construction. Another development, the Tumon Bay Mall will offer about 200,000 square-feet of floor space on two levels. The mall structure is already constructed as an unfinished shopping center.

2015 was a banner year for tourism from several markets. Korea arrivals increased 39 percent to 429,900 visitors and arrivals from the People's Republic of China increased 46 percent to 23,698 visitors. Japan's numbers declined by 4.7 percent. This drop is in line with the Japan National Tourist Organization's forecasted overall decline of 4.5% for outbound travel in 2015. The outbound downturn is a result of a weakened Japanese yen and Japanese travelers choosing domestic travel.

Four factors support the trend and projections for continued strong arrival growth from China. These include an economy with a high, albeit slowing, growth rate; direct United Airlines service from Shanghai to Guam with Boeing 737-700/800 aircraft since October 2014; less restrictive visa requirements for Chinese travelers which increased business and tourist visa validity from one to ten years, student and exchange visa validity to five years and added consular support to expedite visa processing to support the U.S. policy of increasing tourism from China to the U.S.

ENERGY PRICES

The dramatic drop in prices of petroleum products that occurred in 2015 has largely already been incorporated into the economic performance of Guam's economy last year. However, some additional relief is in sight with the Public Utilities Commission authorizing a 9.2 percent drop in the average ratepayers bill which will become effective February, 2016. Additional price reductions may still be possible but far less so than the magnitude realized in 2015.

Economic Outlook

The U.S. Energy Information Administration forecasts crude oil prices to remain relatively low through 2016 and 2017. Last year's forecast was for oil prices to rebound somewhat in 2016. The lower oil prices are expected to continue as supply continues to outpace demand and more crude oil is placed into storage. The lifting of sanctions against Iran will add additional supply to the market. Lower energy prices translate to lower business and consumer costs not only for energy directly but also for goods and services which use energy. Fuel cost reductions are particularly important for aviation and price sensitive tourists. Consumer prices on Guam in the 4th quarter of 2015 declined by 2.1 percent over the year primarily due to reduced energy costs.

FEDERAL GOVERNMENT EXPENDITURES

Federal expenditures constitute one of the major flows of funds to Guam along with tourism and capital investment in construction. Federal expenditures are comprised of defense and non-defense categories. The defense category is likely to increase due to expansion of defense capacities on Guam, with substantial military construction projects in preparation for the relocation of marines from Okinawa along with substantial unrelated military construction projects. The FY 2017 federal budget to be released in 2016 will provide a clearer picture of the intensity of such activities. Slight increases in federal workers pay have been implemented. The budget agreement provides for an average 1.3 percent raise for federal employees starting January 10, 2016. Military pay has been increased, also by 1.3%, effective January 1, 2016. Retirees will not receive a Cost-of-Living adjustment (COLA) in 2016 and Social Security Cost-of-Living Adjustments will similarly not occur due to low consumer price increases over the past year.

The budget uncertainty in recent years due to the continuing possibility of a federal government shutdown and budgetary sequestration has been avoided for 2016. Congressional leaders reached a deal on a \$1.1 trillion spending bill that would end the threat of a year-end government shutdown and fund federal agencies through most of 2016. The Congressional Budget Office (CBO) confirmed that as a result of the omnibus Bipartisan Budget Act signed on December 17, 2015, automatic cuts through sequestration have been avoided.

CONSTRUCTION

Construction accounts for about 10 percent of Guam's economy in terms of civilian employment. It is the most volatile sector. To forecast future construction activity, Building Permits provide an excellent leading indicator of future activity for the civilian sector and U.S. military construction contracts for the defense sector. The combined total of permits and contracts is a strong indicator of construction activity levels in the following year or two. The total has been running somewhat above \$500 million for a five year period each calendar year since 2010. However, the total plunged from \$614.2 million in 2014 to \$385.6 in 2015, a 37 percent drop. Construction activity as measured by gross receipts tax collections dropped by ten percent in FY 2015. This was due to a combination of the completion of a number of major multi-year construction projects and the reduction in permitting and contracting of new projects.

Economic Outlook

Major projects that were completed during 2015 include the Dusit Thani Hotel, the Guam Regional Medical City Hospital, the Port Authority of Guam's \$50 million Commercial Port Improvement Program and the A.B. Won Pat Guam International Airport Authority \$70 million runway extension project. While a temporary dip is expected due to the reduction in 2015 permits and contracts, the dip in construction will be much less than that of the permits and contracts as prior year multi-year projects will continue to fill the gap and new projects will come online soon.

Chart 1 BUILDING PERMITS & CONSTRUCTION CONTRACTS (in thousands)						
Calendar Year:	2010	2011	2012	2013	2014	2015
Building Permits	184,837	211,097	364,504	449,147	308,451	221,285
U.S. Military Construction Contracts	370,413	334,597	152,095	88,001	261,234	164,377
Japan Funded Military Contracts		<u>89,720</u>			<u>44,500</u>	
TOTAL:	555,250	635,414	516,599	537,148	614,185	385,622

Building permits and construction contract data provide the most immediate leading indicator of construction projects ready to proceed and construction activity in the following years. Projects not yet contracted, but which are likely to be awarded by the Department of Defense in FY 2016 with continuing construction work in FY 2017 are as shown in the following tables published in the Marianas Business Journal December 28, 2015. These projects total \$277 million.

Chart 2

Projected military construction awards for fiscal 2016			
Project	Location	Projected amount	Projected RFP
Utilities and site improvements, Phase 1	Finegayan	>\$10 million	Q1 FY2016
Apr – Dispersed maintenance spares and SE storage facility	AAFB	\$19 million	Q1 FY2016

Economic Outlook

In addition to these projects listed above, the sum of a number of projected Request for Proposals (RFP's) for military facility sustainment restoration and modernization in fiscal year 2016 range from \$46.0 to \$92.8 million.

Often, the procurement process for construction projects can add considerable delay in the project's commencement. The Department of Defense already has a number of contracting awards in place from which specific construction project task orders can be awarded. Substantial additional contracting authority is planned in 2016 according to the following schedule. The multiple award contracts are not primarily for specific projects but provide contracting authority under which task orders can be later issued for specific projects. Having the contracting authority in place should expedite future project awards.

Chart 3

New construction Multiple-Award Construction Contracts and Indefinite Delivery/ Indefinite Quantity Contracts for fiscal 2016			
Contract vehicle	Type	Capacity	Projected RFP
NAVFAC Pacific Guam DBMACC (unrestricted)	MACC	\$990 million	Q1 FY2016
SDVOSB MACC (minor construction)	MACC	\$30 million	Q1 FY2016
SBMACC (non-DPRI)	MACC	\$240 million	Q1 FY2016
SB construction management services IDIQ	Construction IDIQ	\$40 million	Q1 FY2016
DPRI SBMACC (DPRI WFHL & MM)	MACC	\$240 million	Q1 FY2017
<i>Source: NAVFAC Marianas</i>			

Another leading indicator of future construction activity, although not as immediate as the permits and contracts, is appropriations or other funding sources.

Appropriations for U.S. DOD Military and Civilian Infrastructure, both U.S. and Japan government funded are shown in the table below. While the U.S. appropriations levels have dropped in the latest two years, there is well in excess \$1 billion in Japanese appropriations available for contracting. The prior hold on their use has been released in budget authorization legislation, now public law.

Combined:	1,237,654	758,030	176,600	101,904	614,007	133,680	292,268

Economic Outlook

PUBLIC FINANCING AND INFRASTRUCTURE

A leading indicator of Federal construction is contained in the appropriations. For the Government of Guam, since most of the major construction projects are bond or grant funded, a leading indicator of future construction is the availability of funds realized from bonds and other sources. Major Government of Guam projects for which funding has been obtained are underway and for those for which funding is planned are listed in the following table.

Chart 5 – Government of Guam

LIST OF PLANNED MAJOR CONSTRUCTION PROJECTS AND FUNDING SOURCES

Planned/Ongoing Projects – Funds Available	Amount
Guam Waterworks Authority (GWA)	139,280,961
Guam Int'l Airport Authority (GIAA) – Airport B	96,710,000

Data are based on a sample and are subject to sampling variability (one year estimate).

Chamorros = Guamanian or Chamorro alone

NOTE 1: "Other States" -- data can not be displayed because the number of sample cases is too small.

NOTE 2: Total number including part-Chamorros (Guamanian or Chamorro alone or in any combination) was 107,573 persons in 2011.

NOTE 3: Total number including part-Chamorros (Guamanian or Chamorro alone or in any combination) was 130,223 persons in 2012.

NOTE 4: Total number including part-Chamorros (Guamanian or Chamorro alone or in any combination) was 120,706 persons in 2013.

NOTE 5: Total number including part-Chamorros (Guamanian or Chamorro alone or in any combination) was 133,569 persons in 2014.

NOTE 6: Total number including part-Chamorros (Guamanian or Chamorro alone or in any combination) was 145,956 persons in 2015.

COMPACT IMPACT

Table 4-01.1 . Compact Impact Assistance Grant Projects (P.L. 108-188), Guam: FY 2010 to FY 2015

Grant Year	Agency	Project	Total Grant
FY 2015	DPW / DOE	School Leaseback Program - School Construction and Collateral Equipment	7,100,000
	GMHA	Operations Offset (Inclusive of \$2M for Financing)	3,000,000
	DOE / DPW	Operations Offset (Bus Shelters)	606,671
	DPHSS	Operations Offset (Foster Home / Medicaid Match / Operations)	4,200,000
		Subtotal	14,906,671
FY 2014	DPW / DOE	School Leaseback Program - School Construction and Collateral Equipment	7,100,000
	GMHA	Operations Offset (Inclusive of \$2M for Financing)	3,000,000
	DOC	Operations Offset (Corrections Officers and Overtime)	950,000
	DPW	Vehicle Procurement and Road Repairs	1,500,000
	UOG	Operations Offset - Facilities Maintenance & Repair	1,000,000
	GPD	Operations Offset (20 Police Recruits)	800,000
	DPHSS	Operations Offset (Pharmaceuticals & Medical Match)	800,000
	DOE	Operations Offset (Computer Equipment)	417,026
	GFD	Operations Offset (Ambulance Procurement)	60,000
	DPR	Paseo Park & Recreation Area Repairs	500,000
	GBHWC	Operations Offset	290,000
	MCOG	Emergency Road Repairs & Flooding	410,000
		Subtotal	16,827,026
FY 2013	DPW / DOE	Governor's Municipal Leasing Plan (Schools)	6,100,000
	DPW / DOE	School Leasing Plan - Collateral Equipment	1,000,000
	GMHA	Operations Offset - Pharmaceutical and Equipment [2]	8,500,000
	GPD	Operations Offset (Police vehicles)	377,026
	DPW	Bus Satellite Facility Repairs	350,000
	BSP	Centralized Data Center Project	300,000
	DISID	Individualized Budget Program (IBP) Project	200,000
		Subtotal	16,827,026
FY 2012	DPW	Governor's Municipal Leasing Plan (Schools)	6,100,000
	DPW	School Leasing Plan - Collateral Equipment	1,000,000
	GMHA	Operations Offset	4,142,026
	DOC	Operations Offset	3,525,000
	MCOG	Facility Renovations & Repairs	500,000
	GFD	Operations Offset	1,560,000
		Subtotal	16,827,026
FY 2011	DPW	Governor's Municipal Leasing Plan (Schools)	6,100,000
	DPW	School Leasing Plan - Collateral Equipment	1,000,000
	UOG	A/E School of Engineering and Student Center	1,400,000
	GMHA	Medical Equipment	2,500,000
	DPHSS	Medical and Pharmaceutical Supplies	750,000
	DOC	Electronic Cell Locking System Upgrade	300,000
	DYA	Facilities Improvement	250,000
	Judiciary	Case Management System	3,777,026
	DOC	Emergency Generators	500,000
	DISID	Permanent Injunction Projects	250,000
		Subtotal	16,827,026
FY 2010	DPW	Governor's Municipal Leasing Plan (Schools)	6,100,000
	DPW	School Leasing Plan - Collateral Equipment	1,000,000
	GMHA	CIP and Equipment Procurement	3,500,000
	GMHA	Pharmaceutical Supplies and Equipment	1,000,000
	DPR/GHURA	Northern Sports Recreation Complex	2,700,000
	GFD	Equipment Procurement (Fire Pumper Trucks)	750,000
	GPD	Equipment Procurement (Patrol Vehicles)	527,026
	DPHSS	Pharmaceutical Supplies	500,000
	DMHSA	Permanent Injunction Projects	500,000

Source: Catholic Education Office; Department of Defense Education Activity (DoDEA); Other Private Schools and Guam Department of Education, Government of Guam

1/ Pacific Christian Academy closed SY2010-SY2011.

2/ Catholic Schools includes Dominican Child Development School; Infant of Prague Nursery & Kindergarten; Maria Artero; Mercy Heights; Bishop Baumgartner; Dominican Catholic School; Our Lady of Mount Carmel; Saint Anthony; Santa Barbara; Saint Francis; San Vicente; Academy of Our Lady; Father Duenas; Notre Dame; and Saint Thomas Aquinas.

3/ Department of Defense Education Activity

4/ Other Private Schools includes Asmuyao Community School, Evangelical Christian Academy, Guam Adventist Academy, Guam International Christian Academy, Harvest Christian Academy, Pacific Christian Academy, Saint Paul Christian School, Southern Christian Academy, St. John's School, Tamuning Christian Academy, Temple Baptist Christian School, and Trinity Christian School.

5/ Cohort Graduation Rate: Based on the capability of tracking the high school experience of each member of the ninth grade cohort. After four years of high school, each member of the ninth grade cohort is identified as either a) a graduate; b) still in school; c) a transfer d) a dropout; or e) a withdrawal due to illness or death. A four year cohort graduation rate may then be calculated by dividing the number of cohort graduates after four years of high school by the total 9th grade cohort less the number of transfers and the number of students that withdrew during the four years due to illness or death.

6/ Private School Graduates includes Catholic Schools, DoDEA, and Other Private Schools Graduates.

LEA= Local Education Agency

1/ School years 2010-2011 thru 2013-2014 includes Substitute teachers, as well as Guidance Counselors and Librarians who are categorized as Teachers.

2/ Includes Licensed Practical Nurses (LPNs)

3/ Includes School Aides, Head Start Aides and other special program aides.

4/ Employee Code not specified due to exiting the department during the school year.

The symbol "-" does not necessarily depict 0 for the ethnic group; the information was grouped as Asian or Pacific Islander and placed under the category Other.

5/ SY 2014-2015, Cafeteria employees were combined with Custodial/Maintenance.

6/Includes Instructional Coordinators and Supervisors, School Program Consultants, and Program Coordinators

7/Includes Attendance Officers, Social Workers, Speech Language Pathologists/Clinicians, Therapists, Community Program Aides, etc.

8/Includes GDOE Board Members

*Beginning SY14-15, the employee categorization follows the EDFacts categories as defined in NCES N501 File Specification.

This is to ensure that local and federal reports align.

Source: Guam Bankers Association

1/ Excludes Credit Union Banking Institutions.

2/ Consumer Loans include Credit cards, personal loans, automobile loans etc.

3/ Commercial Loans include both commercial real estate loans, e., commercial mortgages, other business loans and loans to the government, which are not accounted for elsewhere. Commercial loans also include loans sold to third parties (in whole or in part).
Commercial mortgage loans are for dwellings with four or more housing units, e.g., quad-plexes or larger.

4/ Real Estate Loans includes both loans retained on the institution's books and loans that are sold to third parties.

Note: "Other" loans, which are primarily the temporary loans provided to good customers when they accidentally and infrequently overdraw their depository accounts, and are not reported to the Bankers Association; that data would be available in reports provided to the FDIC (for the seven insured banks) and to the Guam Banking Commission at the Department of Revenue and Taxation.

Includes mortgage loans sold to the Federal Home Loan Mortgage Corporation "Freddie Mac" or the Federal National Mortgage Association "Fannie Mae", as well as commercial loans that have been sold, in whole or in part to other banks, but are still serviced by Guam banks.

Aggregated data are provided by the following banks: Allied Banking Corp., ANZ Bank, Bank of Guam, Bank of Hawaii, BankPacifi, CitiBank, First Commercial Bank, First Hawaiian Bank, Citizens Security Bank, Metro Bank & Trust Co., and Oceanic Bank.

Note: Allied Bank was taken over by Philippine National Bank during fourth quarter 2013. Citizens Security Bank was taken over by ANZ during the first quarter 2010. Metro Bank closed operations on June 30, 2012. Oceanic Bank closed operations during third quarter 2013. Citibank, NA, closed operations during the second quarter of 2014.

Note: Inpatient is a person who is admitted to hospital for medical, surgical or obstetric treatment, observation or care and stays at least one night. Includes persons if formally admitted by the hospital as "boarders", and patients who die in hospital or are transferred to another hospital on the day of admission. Day patient is a person who is admitted and discharged on the same day. Day patients do not include those patients who died in the hospital or transferred to another hospital.

1/ Includes licensed military physicians working part-time at Guam Memorial Hospital.

2/ Data is only from October 2013 to February 2014 due to GMHA switched to a new information system and have been working on fixing issues.

Data for 2015 is an average of 3 months due to a new information system.

Table 12-03 . Number of Inpatients by Type of Treatment at Guam Memorial Hospital, Guam: Fiscal Years 2010 to 2015

Type of Treatment	2015	2014	2013	2012	2011	2010

Source: Guam Memorial Hospital Authority, Government of Guam

Note: The disparity in the data trend from previous FYs compared to FY 2014 is due to the old GMHA Patient Information System extracting duplicated accounts (i.e. interim accounts, more than 1 bill number for same inpatient visit, etc.). The new system has addressed this issue as reflected in the FY 2014 data.

Local Inmates are prisoners convicted locally (Superior Court of Guam) and are serving their sentence within the Department of Corrections (DOC).

Local detainees are prisoners being held in the Department of Corrections custody while they await the completion of their trial. This also includes those committed to DOC for probation and parole violations.

Federal holds are prisoners being held at the Department of Corrections at the contracted request of Immigration and the Marshals Service. They are immigrant holds, federal prisoners, and federal detainees.

1/ Days away from work include those that result in days away from work with or without job transfer or restriction.

Excludes farms with fewer than 11 employees.

Dashes indicate data not available.

2/ Median days away from work is the measure used to summarize the varying lengths of absences from work among the cases with days away from work. Half the cases involved more days and half involved less days than a specified median.

Median days away from work are represented in actual values.

Note: Because of rounding, components may not add to totals. Dashes indicate data not available.

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$90.00 per hour or \$187,199 per year.

8/ Estimates not released.

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$90.00 per hour or \$187,199 per year.

8/ Estimates not released.

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data.

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$90.00 per hour or \$187,199 per year.

8/ Estimates not released.

/a China includes the People's Republic of China, Hong Kong, and Macau

/b Remove from the program in January 2001

/c Data prior to FY 2005 included admissions from People's Republic of China, which was not in the Guam Visa Waiver program

/d Removed from eligibility effective June 1, 2009 (extended to November 28, 2009)

/e Excludes Hong Kong

Symbol "-" indicates disclosure standards not met

* New visa waiver regulations in effect for Guam and CNMI effective June 1, 2009 (extended to November 28, 2009)

Note: Admissions represents counts of events (i.e. arrivals, not unique individuals)

Admission totals exceed the number of nonimmigrants admitted

GLOSSARY

_ A _

Age_Sex Structure	The age-sex structure is the composition of a population as determined by the number or proportion of males and females in each age category. The age_sex structure of a population is the cumulative result of past trends in fertility, mortality, and migration. Information on age_sex composition is essential for the description and analysis of many other types of demographic data. See also <i>Population Pyramid</i> .
Average	The average is the amount obtained by dividing the aggregate or total of a particular variable in the statistical universe by the number of units in that universe.

_ B _

Bankruptcy	A legal procedure for dealing with debt problems of individuals and businesses. These procedures are covered under Title 11 of the United States Code (Bankruptcy Code). Bankruptcy laws help people who can no longer pay their creditors get a fresh start by liquidating their assets to pay their debts, or be creating a repayment plan. Bankruptcy laws also protect troubled businesses and provide for orderly distributions to business creditors through reorganization or liquidation.
Birth	A birth (live birth) is the complete expulsion or extraction from is mother of a product of human conception, irrespective of the duration of the pregnancy, which, after such expulsion or extraction, breathes or shows any other evidence of life such as beating of the heart, pulsation of the umbilical cord or definite movement of the voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached.
Birth Rate	The birth rate is the number of live births per 1,000 population in a given year. It should not be confused with the growth rate. See also <i>Growth Rate</i> .

_ C _

Census	A census is the canvassing of a given area, resulting in an enumeration of the entire population and often the compilation of other demographic, social, and economic information pertaining to that population at a specific time. See also <i>Survey</i> .
Census Designated Place	Census designated places (CDP) are delineated for each decennial census to provide census data for concentrations of population, housing, and commercial structures that are identifiable by name but are not within an incorporated place. CDP boundaries usually are defined in cooperation with state, local, and tribal officials. CDP boundaries may change from one decennial census to the next with changes in the settlement pattern; a CDP with the same name as in an earlier census does not necessarily have the same boundary. All places in Guam are CDPs.

Child Abuse and Neglect	Child abuse and neglect is at a minimum any recent act or failure on the part of a parent or caretaker which results in death, serious physical or emotional harm, sexual abuse or exploitation; or an act or failure to act which presents an imminent risk of serious harm.
Childbearing Years	Childbearing years is the reproductive age span of women, assumed for statistical purposes to be 15_44 or 15_49 years of age.
Civilian	A civilian is a person who is not in the armed forces, including dependent members of the armed forces.
Civilian Labor Force	The civilian labor force is all persons 16 years and older employed for pay or profit plus those who are unemployed but seeking work. See also <i>Employed</i> , <i>Unemployed</i> , and <i>Not in Labor Force</i> .
Cohort	A group of people sharing a common temporal demographic experience who are observed through time. For example, the birth cohort of 1900 is the people born in that year.
Consumer Price Index	The Consumer Price Index (CPI) measures the rate at which the prices of consumer goods and services are changing over time. In practice, most CPIs are calculated as weighted averages of the percentage price changes for a specified set, or “basket”, of consumer products, the weights reflecting their relative importance in household consumption in some period. A monthly or quarterly price index compiled and published by an official statistical agency that measures changes in the prices of consumption goods and services acquired or used by households.
Crude Birth Rate	See <i>Birth Rate</i> .
Crude Death Rate	See <i>Death Rate</i> .
Crude Divorce Rate	See <i>Divorce Rate</i> .

_ D _

Death	Death is the permanent loss of all evidence of life after a live birth has occurred.
Death Rate	The death rate is the number of deaths per 1,000 population in a given year.
Defined Benefit Plan	The Defined Benefit Plan provides for retirement, disability, and survivor benefits to members of the plan prior to October 1, 1995 (all government employees are required to participate in the Defined Contribution Plan after October 1, 1995). Under the Defined Benefit Plan, retirement benefits are based on age and/or years of credited service and an average of the three (3) highest annual salaries received by a member during the years of credited service, or six thousand (\$6,000), whichever is greater.

Defined Contribution Plan	Created by Public Law 23-42:3, this plan provides an individual account retirement system for any person who is employed by the Government of Guam. This plan is a single-employer pension and is the only plan for all new employees whose employment commences on or after October 1, 1995.
Density	Population density and housing unit density are computed by dividing the total population or number of housing units within a geographic entity by the land area of that entity measured in square kilometers or square miles. Density is expressed as both “people (or housing units) per square kilometer” and “people (or housing units) per square mile” of land area.
Dependency Ratio	The ratio of the economically dependent part of the population to the productive part; arbitrarily defined as the ratio of the elderly (ages 65 and older) plus the young (under age 15) to the population in the working ages (ages 15_64).
Disability Status	Disability status was derived from answers to two Census questionnaire items. The first asked about the existence of the following long_lasting conditions: (a) blindness, deafness, or a severe vision or hearing impairment (sensory disability) and (b) a condition that substantially limits one or more basic physical activities, such as walking, climbing stairs, reaching, lifting, or carrying (physical disability) for the population 5 years old and over. Disability status was also determined by asking if the individual had a physical, mental, or emotional condition lasting 6 months or more that made it difficult to perform activities in four categories: (a) learning, remembering, or concentrating (mental disability); (b) dressing, bathing, or getting around inside the home (self_care disability); (c) going outside the home alone to shop or visit a doctor’s office (going outside the home disability); and (d) working at a job or business (employment disability). Individuals were classified as having a disability if any of the following three conditions were true: (1) they were 5 years old and over and had a response of “yes” to a sensory, physical, mental or self_care disability; (2) they were 16 years old and over and had a response of “yes” to going outside the home disability; or (3) they were 16 to 64 years old and had a response of “yes” to employment disability.
Divorce	A divorce is the legal termination of a marriage.
Divorce Rate	The divorce rate is the number of divorces per 1,000 population in a given year.

_ E _

Educational Attainment	The classification of people according to the level of education attained (the highest level of school completed or the highest degree received).
Election District	An election district is the official term for what is commonly called a “village”; there are the nineteen (19) election districts or villages on Guam.
Emotional Abuse	Patterns of behavior that attacks a person’s emotional development and sense of self worth (name calling, blaming, belittling, terrorizing, isolation, humiliation, and rejection).
Emotional Neglect	Purposely not providing for a person’s emotional needs (marked inattention to the person’s need for affection, refusal or failure to provide needed psychological care)
Employed	All civilians 16 years old and over were classified as employed if they were “at work” or “with a job but not at work” during the reference week, including temporarily absent. See also <i>Unemployed</i> and <i>Not in Labor Force</i> .
Ethnic Origin	Ethnic origin refers to an individual’s origin or descent, “roots,” heritage, or place where the individual or his/her parents or ancestors were born. Respondents reported their ethnic group regardless of the number of generations removed from their place or origin. Responses to the ethnic origin or race question reflected the groups with which respondents identified and not necessarily the degree of attachment or association the individual had with the particular group(s). See also <i>Race</i> .
Ethnicity	The cultural practices, language, cuisine, and traditions — not biological or physical differences — used to distinguish groups of people.

_ F _

Family	A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householder’s family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.
Family Income	In compiling statistics on family income, the incomes of all members 15 years old and over related to the householder are summed and treated as a single amount.

Fertility	The data on fertility (also referred to as “children ever born”) were derived from the answers to the Census question which asked women 15 years old and over—regardless of their marital status—how many babies they have ever had. Stillbirths, stepchildren, and adopted children were excluded from the number of children ever born. Data are most frequently presented in terms of the aggregate number of children ever born to women in specified population groups and in terms of the rate per 1,000 women.
Fetal Death	A fetal death is a death prior to the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of the pregnancy; the death is indicated the fact that after such expulsion or extraction the fetus does not breathe or show any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.
Freely Associated States	The Freely Associated States (FAS) consists of the Federated States of Micronesia (FSM), Republic of the Marshall Islands (RMI), and the Republic of Palau. Formerly a part of the Trust Territory of the Pacific Islands (TTPI), they became independent nations in free association with the United States.

_ G _

General Fertility Rate	The general fertility rate (GFR) is the number of live births per 1,000 women ages 15_44 or 15_49 years in a given year.
Gross Domestic Product	The gross domestic product (GDP) is the total market value of all the goods and services produced within a country in a given period of time.
Gross Reproduction Rate	The gross reproductive rate (GRR) is the average number of daughters that would be born alive to a woman (or group of women) during her lifetime if she passed through her childbearing years conforming to the age_specific fertility rates of a given year. See also <i>Net Reproduction Rate</i> and <i>Total Fertility Rate</i> .
Group Quarters	Group quarters is used to describe places in which people reside that are not considered “housing units,” such as prisons, long-term care hospitals, military barracks, and dormitories. The group quarters population includes all people not living in households. Two general categories of people in group quarters are recognized: (1) the institutionalized population which includes people under formally authorized, supervised care or custody in institutions at the time of enumeration. Such people are classified as “patients or inmates” of an institution regardless of the availability of nursing or medical care, the length of stay, or the number of people in the institution. Generally, the institutionalized population is restricted to the institutional buildings and grounds (or must have passes or escorts to leave) and thus have limited interaction with the surrounding community. Also, they are

generally under the care of trained staff who have responsibility for their safekeeping and supervision, and

- (2) the noninstitutionalized population which includes people who live in group quarters other than institutions. It also includes staff residing in military and nonmilitary group quarters on institutional grounds who provide formally authorized, supervised care or custody for the institutionalized population.

Growth Rate The growth rate is a general expression of the number of people added to (or subtracted from) a population in a year due to natural increase and net migration expressed as a percentage of the population at the beginning of the time period.

_ H _

Homeless According to the Stewart B. McKinney Act, 42 U.S.C. § 11301, et seq. (1994), a person is considered homeless who "lacks a fixed, regular, and adequate night_time residence and; and... has a primary night time residency that is: (A) a supervised publicly or privately operated shelter designed to provide temporary living accommodations... (B) an institution that provides a temporary residence for individuals intended to be institutionalized, or (C) a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings." 42 U.S.C. § 11302(a) The term "'homeless individual' does not include any individual imprisoned or otherwise detained pursuant to an Act of Congress or a state law." 42 U.S.C. § 11302(c).

Household A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) Separate living quarters are those in which the occupants live separately from any other people in the building and that have direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

Household Income Household income is the sum of all incomes of all members 15 years old and over of a household which are treated as a single amount.

Housing Unit A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. See also *Tenure*.

HTSUSA Acronym for *Harmonized Tariff Schedule for the United States Annotated*. The HTSUSA provides the applicable tariff rates and statistical categories for all merchandise imported into the United States. It is based on the international Harmonized System, the global system of nomenclature that is used to describe most world trade in goods.

_ I _

Income	Income is the wages or revenue accruing from labor, business enterprise, or investments. See also <i>Household Income</i> , <i>Family Income</i> , <i>Individual Income</i> , <i>Mean Income</i> , <i>Median Income</i> , and <i>Per Capital Income</i> .
Individual Income	Income for individuals is obtained by summing the total income for each person.
Immigration	Immigration is the process of entering one country from another to take up permanent or semi-permanent residence.
Industry	Industry relates to the kind of business conducted by a person's employing organization described by its economic product or activity.
Infant Death	An infant death is a death occurring to an individual of less than one year of age
Infant Mortality Rate	The infant mortality rate is the number of deaths of infants under one year of age per 1,000 live births in a given year.

_ L _

Labor Force	The labor force is all persons employed for pay or profit plus those who are unemployed but seeking work. See also <i>Employed</i> , <i>Unemployed</i> , and <i>Not in Labor Force</i> .
Life Expectancy	Life expectancy is the average number of additional years a person could expect to live if current mortality trends were to continue for the rest of that person's life. It is most commonly cited as life expectancy at birth.

_ M _

Marriage	A marriage is a social institution involving legal or religious sanction whereby a man and a woman are joined together for the purpose of founding a family unit (traditional).
Maternal Death	A maternal death is a death wherein the physician has designated a maternal condition as the underlying cause of death.
Mean	This measure represents an arithmetic average of a set of values. It is derived by dividing the sum (or aggregate) of a group of numerical items by the total number of items in that group.
Mean Age	The mathematical average age of all the members of a population.
Mean Income	Mean income is the amount obtained by dividing the aggregate income of a particular statistical universe by the number of units in that universe. Thus, mean household income is obtained by dividing total household income by the total number of households.

Median	The median divides a distribution into two equal parts: one_half of the cases falling below the median income and one_half above the median. This measure represents the middle value (if n is odd) or the average of the two middle values (if n is even) in an ordered list of n data values. The median divides the total frequency distribution into two equal parts: one_half of the cases falling below the median and one_half above the median.
Median Age	The age that divides a population into two numerically equal groups; that is, half the people are younger than this age and half are older.
Median Income	The median divides the income distribution into two equal parts: one_half of the cases falling below the median income and one_half above the median. For households and families, the median income is based on the distribution of the total number of households and families including those with no income.
Migration	The movement of people across a specified boundary for the purpose of establishing a new or semi-permanent residence. Divided into international migration (migration between countries) and internal migration (migration within a country).
Minor Civil Division	Minor Civil Divisions (MCD) are the primary governmental or administrative divisions of a first_order subdivision. On Guam, they are Guam's election districts (villages). The MCDs in Guam are geographic subdivisions of the first_order subdivision(s) and are not governmental units.
Mortality	Mortality is a general term for deaths as a component of population change.
_ N _	
Natality	Natality is a general term for births as a component of population change.
Natural Increase (Decrease)	The surplus (or deficit) of births over deaths in a population in a given time period.
Neonatal Death	A neonatal death is death occurring to an individual of less than 28 days of age.
Neonatal Mortality Rate	The neonatal mortality rate is the number of deaths of infants under 28 days of age in a given year per 1,000 live births in that year.
Net Migration	The net effect of immigration and emigration on an area's population in a given time period, expressed as an increase or decrease.

Net Migration Rate	The net effect of immigration and emigration on an area's population, expressed as an increase or decrease per 1,000 population of the area in a given year.
Net Reproduction Rate	The net reproduction rate (NRR) is the average number of daughters that would be born to a woman (or a group of women) if she passed through her lifetime conforming to the age_specific fertility and mortality rates of a given year. This rate is similar to the gross reproduction rate but takes into account that some women will die before completing their childbearing years. An NRR of one means that each generation of mothers is having exactly enough daughters to replace itself in the population. See also <i>Total Fertility Rate</i> .
Not in Labor Force	All people 16 years old and over who are not classified as members of the labor force. This category consists mainly of students, individuals taking care of home or family, retired workers, seasonal workers enumerated in an off_season who were not looking for work, institutionalized people (all institutionalized people are placed in this category regardless of any work activities they may have done in the reference week), and people doing only incidental unpaid family work (fewer than 15 hours during the reference week). See also <i>Employed</i> and <i>Unemployed</i> .
Nuptiality	Nuptiality is the general term for the frequency, characteristics, and dissolution of marriages in a population.
_ O _	
Occupation	Occupation describes the kind of work a person does on the job or a position in the labor force..
_ P _	
Part I Offense	Part I Offenses is the first of two main groupings of Uniform Crime Reporting Program (UCR) crime classifications consisting of eight offenses reported whether or not they involve arrests: 1. Criminal Homicide, 2. Forcible Rape 3. Robbery 4. Aggravated Assault 5. Burglary 6. Larceny_theft (except motor vehicle theft) 7. Motor Vehicle Theft 8. Arson See also <i>Part II Offenses</i> and <i>Uniform Crime Report</i>.
Part II Offense	Part II Offenses is the second of the two main Uniform Crime Reporting Program (UCR) groupings of crime classifications not already designated in Part I. Agencies are limited to reporting arrest information only for Part I offenses with the exception of simple assault.

Law enforcement agencies report to the FBI only arrest data involving the Part II crimes:

9. Other Assaults
10. Forgery and Counterfeiting
11. Fraud
12. Embezzlement
13. Stolen Property: Buying, Receiving, Possessing
14. Vandalism
15. Weapons: Carrying, Possessing, etc.
16. Prostitution and Commercialized Vice
17. Sex Offenses
18. Drug Abuse Violations
19. Gambling
20. Offenses Against the Family and Children
21. Driving Under the Influence
22. Liquor Laws
23. Drunkenness
24. Disorderly Conduct
25. Vagrancy
26. All Other Offenses
27. Suspicion
28. Curfew and Loitering Laws—(Persons under 18)
29. Runaways—(Persons under 18)

See also *Part II Offenses* and *Uniform Crime Report*.

Per Capita Income	The per capita income is the amount obtained by dividing the aggregate income of all individuals, including those without incomes, by the total number of individuals.
Percentage	This measure is calculated by taking the number of items in a group possessing a characteristic of interest and dividing by the total number of items in that group, and then multiplying by 100.
Permanent Resident	A permanent resident is any person not a citizen of the United States who is residing in the U.S. under legally recognized and lawfully recorded permanent residence as an immigrant (also known as "Permanent Resident Alien", "Lawful Permanent Resident," "Resident Alien Permit Holder," and "Green Card Holder"). See also <i>Temporary Resident</i> .
Physical Abuse	Non-accidental injury of a person (punching, beating, kicking, biting, burning, shaking, otherwise harming a person).
Physical Neglect	Purposely failure to act on behalf or to provide adequately for the person (refusal of or delay in seeking health care, abandonment, expulsion from home).
Place	Places, for the reporting of decennial census data for the Pacific Island Areas, include census designated places (CDP) and incorporated places.

Population	The total population of a country may comprise either all usual residents of the country (de jure population) or all persons present in the country (de facto population) at the time of the census. For purposes of international comparisons, the de facto definition is recommended.
Population Estimate	Population estimates are approximations of current or past population of an area at a given time, or its distribution or composition in absence of complete enumeration.
Population Density	The population density is the population per unit of land area; for example, people per square mile or people per square kilometer of arable land.
Population Projection	Population projections are the computations of future changes in population numbers, given certain assumptions about future trends in the rates of fertility, mortality, and migration. Demographers often issue low, medium, and high projections of the same population, based on different assumptions of how these rates will change in the future.
Population Pyramid	A bar chart, arranged vertically, that shows the distribution of a population by age and sex. By convention, the younger ages are at the bottom, with males on the left and females on the right.
Poverty	Poverty is an economic and social condition for an individual, family, or household whose level of living in terms of food, housing, clothing, medical needs, and so on are determined to be below the community standard. Following the Office of Management and Budget's (OMB) Statistical Policy Directive 14 (1978), the Census Bureau uses a set of money income thresholds designed in the 1960s that vary by family size and composition to determine who is poor. If a family's total income is less than that family's threshold, then that family, and every individual in it, is considered poor. The poverty thresholds do not vary geographically, but they are updated annually for inflation using the Consumer Price Index (CPI_U). The official poverty definition counts money income before taxes and does not include capital gains and noncash benefits (such as public housing, medicaid, and food stamps). Poverty is not defined for people in military barracks or institutional group quarters or for unrelated individuals under age 15 (such as foster children). They are excluded from the poverty universe — that is, they are considered neither as “poor” nor as “nonpoor.”
Poverty Status	For the 2000 Census, the poverty status of families and unrelated individuals in 1999 was determined using 48 thresholds (income cutoffs) arranged in a two dimensional matrix. The matrix consists of family size (from 1 person to 9 or more people) cross_classified by presence and number of family members under 18 years old (from no children present to 8 or more children present). Unrelated individuals and 2_person families were further differentiated by the age of the reference person (RP) (under 65 years old and 65 years old and over).

To determine a person's poverty status, one compares the person's total family income with the poverty threshold appropriate for that person's family size and composition. If the total income of that person's family is less than the threshold appropriate for that family, then the person is considered poor, together with every member of his or her family. If a person is not living with anyone related by birth, marriage, or adoption, then the person's own income is compared with his or her poverty threshold.

_ Q _

Quartile Quartile is a measure that divides a distribution into four equal parts. The first quartile (or lower quartile) is the value that defines the upper limit of the lowest one-quarter of the cases. The second quartile is the median. The third quartile (or upper quartile) is defined as the upper limit of the lowest three quarters of cases in the distribution. Quartiles are presented for certain financial characteristics, such as housing value and contract rent. The distribution used to compute quartiles is the same as that used to compute medians for that variable.

Quintile Quintile is a measure that divides a distribution into five equal parts on the basis of the ranked total incomes. Hence, the lowest quintile is the bottom 20 percent of the population or households; the highest quintile is the highest 20 percent on the same basis.

_ R _

Race The racial classification used by the Census Bureau adheres to the October 30, 1997, Federal Register Notice entitled "Revisions to the Standards for the Classification of Federal Data on Race and Ethnicity" issued by the Office of Management and Budget (OMB). These standards govern the categorization of race in census data products. The OMB identified five minimum race categories (White, Black or African American, American Indian or Alaska Native, Asian, and Native Hawaiian or Other Pacific Islander). In addition to the five race groups, the OMB also states that respondents should be offered the option of selecting one or more races. See also *Ethnic Origin*.

Rate A rate is a measure of occurrences in a given period of time divided by the possible number of occurrences during that period. Rates are sometimes presented as percentages.

**Rate of Natural Increase
(or Decrease)** The rate of natural increase (or decrease) measures the population increase (or decrease) in a given year due to a surplus (or deficit) of births over deaths, expressed as a percentage of the base population.

Ratio A ratio is a measure of the relative size of one number to a second number expressed as the quotient of the first number divided by the second. For example, the sex ratio is calculated by dividing the total number of males by the total number of females, and then multiplying by 100.

Rural See *Urban and Rural*.

_ S _

Sex Ratio The sex ratio is a measure derived by dividing the total number of males by the total number of females, and then multiplying by 100.

Survey A survey is a canvass of selected persons or households in a population usually used to infer demographic characteristics or trends for a larger segment or all of the population. See also *Census*.

_ T _

Temporary Resident A temporary resident is a nonimmigrant alien who seeks temporary entry to the United States for a specific purpose. The alien must have a permanent residence abroad (for most classes of admission) and qualify for the nonimmigrant classification sought. The nonimmigrant classifications include: foreign government officials, visitors for business and for pleasure, aliens in transit through the United States, treaty traders and investors, students, international representatives, temporary workers and trainees, representatives of foreign information media, exchange visitors, fiancé(e)s of U.S. citizens, intracompany transferees, NATO officials, religious workers, and some others. Most nonimmigrants can be accompanied or joined by spouses and unmarried minor (or dependent) children. See also *Permanent Resident*.

Tenure Tenure represents the condition or nature by which occupancy of a housing unit is held. All occupied housing units are classified as either owner occupied or renter occupied. A housing unit is owner occupied if the owner or co_owner lives in the unit even if it is mortgaged or not fully paid for. All occupied housing units that are not owner occupied, whether they are rented for cash rent or occupied without payment of cash rent, are classified as renter occupied.

Total Fertility Rate (TFR) The total fertility rate is the average number of children that would be born alive to a woman (or group of women) during her lifetime if she were to pass through her childbearing years conforming to the age_specific fertility rates of a given year. This rate is sometimes stated as the number of children women are having today. See also *Gross Reproduction Rate* and *Net Reproduction Rate*.

_ U _

Unemployed All civilians 16 years old and over were classified as unemployed if they were neither “at work” nor “with a job but not at work” during the

reference week, were looking for work during the last 4 weeks, and were available to start a job. Also included as unemployed were civilians 16 years old and over who: did not work at all during the reference week, were on temporary layoff from a job, had been informed that they would be recalled to work within the next 6 months or had been given a date to return to work, and were available to return to work during the reference week, except for temporary illness. See also *Employed* and *Not in Labor Force*.

Uniform Crime Report (UCR) Uniform crime reporting is a collective effort on the part of city, county, state, tribal, and federal law enforcement agencies to present a nationwide view of crime. Agencies throughout the country participating in the Uniform Crime Reporting (UCR) Program provide summarized reports on eight Part I offenses known to law enforcement and reports on persons arrested. They also provide information about law enforcement officers killed and assaulted and on hate crime.

The UCR Program divides offenses into two groups—Part I and Part II. The Program collects data on all Part I offenses that become known to law enforcement whether or not they involve arrests. These crime totals are essential to measuring the level and scope of crimes occurring across the country. Part II offenses are all crime classifications other than those defined as Part I. The UCR Program collects arrest data for both Part I and Part II offenses. See also *Part I Offenses* and *Part II Offenses*.

Urban and Rural The U.S. Census Bureau classifies as urban all territory, population, and housing units located within urbanized areas (UAs) and urban clusters (UCs). It delineates UA and UC boundaries to encompass densely settled territory, which generally consists of:

- A cluster of one or more block groups or census blocks each of which has a population density of at least 1,000 people per square mile at the time, and
- Surrounding block groups and census blocks each of which has a population density of at least 500 people per square mile at the time, and
- Less densely settled blocks that form enclaves or indentations, or are used to connect discontinuous areas with qualifying densities.

Rural consists of all territory, population, and housing units located outside of UAs and UCs. Geographic entities such as first_order subdivisions, minor civil divisions, and places often contain both urban and rural territory, population, and housing units.

The urban and rural classification applies to the 50 states, the District of Columbia, Puerto Rico, American Samoa, Guam, the Northern Mariana Islands, and the Virgin Islands of the United States.

There are UCs in all the Pacific Island Areas, but only the Northern Mariana Islands has a UA (Saipan).

Urban Cluster (UC)	An urban cluster (UC) consists of densely settled territory that has at least 2,500 people but fewer than 50,000 people, except in Guam. By agreement with the Government of Guam, the U.S. Census Bureau recognizes Hagåtña as a UC rather than an urbanized area.
Urbanized Area (UA)	An urbanized area (UA) consists of densely settled territory that contains 50,000 or more people, except in Guam (see below). The U.S. Census Bureau delineates UAs to provide a better separation of urban and rural territory, population, and housing in the vicinity of large places.

_ V _

Veterans Status	For Census data products, a civilian veteran is a person 18 years old and over who, at the time of the enumeration, had served on active duty in the U.S. Army, Navy, Air Force, Marine Corps, or Coast Guard in the past (even for a short time), but was not then on active duty, or who had served in the Merchant Marine during World War II. People who had served in the National Guard or Military Reserves were classified as veterans only if they had ever been called or ordered to active duty, not counting the 4 to 6 months for initial training or yearly summer camps. All other civilians 18 years old and over were classified as nonveterans.
Vital Statistics	Vital statistics is the collection of Demographic data on births, deaths, fetal deaths, marriages, divorces, and related events usually compiled through a registration system or other administrative record system.
