### ABOUT THE BUREAU

BSP is a staff agency to the Office of the Governor. Other public laws and Governor’s Executive Orders granted additional roles to BSP such as providing administrative support to the Guam Developmental Disabilities Council and providing a preliminary Business Sector Disaster Damage report to the Governor in the aftermath of a Typhoon.

The Bureau employed approximately 35 employees that supported five program divisions: Administration, Business & Economic Statistics, Socio-Economic & Coral Reef Initiative, Planning Information Program, and the Guam Coastal Management Program.

The Bureau is dedicated to providing expediency in all of our endeavors and promoting the welfare of the community. Each individual is professional in their field of work and everyone is dedicated to ensure the Bureau’s mission is carried out for the overall benefit of the island.

In FY 2017, the Bureau showcased its professionalism and dedication to public service by winning 15 MagPro Awards of Excellence under the Governor’s Employee Recognition Program. The awards include the following:

- **Planners**: 10, 11, 13
- **Statisticians**: 7, 5, 6
- **Support Staff**: 10, 15, 16
- **Total**: 27, 31, 35

### MISSION STATEMENT

The mission of the Bureau of Statistics and Plans is to ensure Guam’s resources are effectively used for the benefit of present and future generations by appraising, coordinating, preparing, and assisting in the development of a wide range of plans, policies, studies and statistics that further economic, social, land use, environmental and infrastructural goals, priorities and planning activities.

The cost for Guam to provide educational, public safety, health and welfare services to Freely Associated State citizens was $147.3 million and $85.6 million in federal assistance. Since 2004, a total of $1.2 billion (unaudited) assistance has been provided to citizens of the FAS.

In support of fisheries management and sustainability, the Fish Import and Export Data Collection and Monitoring System reported a total of 148,301 or $2 million in air cargo imports and 127,379 or $6.1 million in maritime imports for a variety of aquatic fisheries in 2017.

For 2017, exports have averaged $8.2 million per quarter with FSM at 36% followed by Japan at 20% of that total.

The graph depicts how prices, on average, have changed over time. While prices on all items have gradually increased, food prices show more volatility and have outpaced energy price changes over this time period.
The Bureau of Statistics and Plans applied and received seven (7) grant awards totaling $2.3 million. BSP manages approximately $7.9 million in both new and active grants. USDOJ and NOAA grants are awarded for a 2 to 3 year grant period with approximately 90% passed to subrecipients to implement criminal justice projects, coastal and environmental initiatives. Approximately $906,752 was retained for personnel expenses.

### EXPENDITURES

BSP’s expenditures primarily consisted of salaries and benefits. Operational expenditures from the General Fund included contractual, telephone and supplies, mileage reimbursement and subsidized rent for the Guam Developmental Disabilities Council (GDDC). Of the 35 employees of the Bureau in FY 2017, 21 were locally funded and 14 were 100 percent federally funded. Of the 21 locally funded employees, 3 were temporary appointments. A total $906,752 in federal funds was used to cover personnel expenses.

### FY 2017 Personnel Expenditures by Funding Source

- **Guam Coastal Mgmt Program**: $538,297
- **Business & Eco Statistics**: $429,375
- **Coral Reef Conservation**: $109,750
- **Socio-Economic**: $156,779
- **Planning Information**: $264,144
- **Administration**: $296,835

**General**: $95,786
**Federal**: $44,889

**Total General Fund**: $1,192,565

### Collaborative partnerships with natural resource managers and local scientists help restore a reef at Jade Shoals that was damaged by a vessel grounding in 2017. (Photo: W. Hoot/BSP)
The BSP will continue moving forward in 2018 with the following and more:

- Publish quarterly publications for Import and Export Trade Data and Consumer Price Index reports.
- Develop and publish the 2018 Statistical Yearbook, the 2017 Guam Facts & Figures At-A-Glance brochure and other statistical indices to make sound decisions to improve the island’s economic viability and resource sustainability.
- Provide technical support to GovGuam entities when needed in order that they meet their missions.
- Continue collaboration with U.S. Census Bureau officials and stakeholders on Guam in the planning of the 2020 Guam Decennial Census.
- Prepare the 2018 Annual Compact Impact Report to identify and assess the costs incurred for services to Freely Associated States migrants on Guam.
- Conduct the 2018 Guam Compacts of Free Association Enumeration to determine USDOI reimbursement in 2019.
- Conduct the 2018 Guam Compacts of Free Association Enumeration to determine USDOI reimbursement in 2019.
- Continue securing federal dollars from USDOJ to further improve and advocate criminal justice initiatives on Island.
- Provide technical assistance to GEDA on the development of the 2018-2023 Comprehensive Economic Development Strategy (CEDS).
- Continue securing federal dollars from NOAA and DOI to compile commercial fishery data; spearhead best management practices for coral reef, coastal, and environmental conservation initiatives.
- BSP involvement in the Safe Housing Task Force, the Imagine Guam 2065 and other Community Action Programs.
- Coordinate and develop Guam’s new FY 2018-2021 Drug Control, Violent Crime and Criminal Justice Systems Improvement Grant Program.
- Serve as the catalyst for planned and balanced economic, social, environmental and physical growth through Guam State Clearinghouse, legislative review of bills, and the mandated review process of elements via Comprehensive Development Plans.
- Continue ARC/GLUC, GIS Mapping and Federal Consistency reviews to ensure sustainable, well planned development efforts are central to protecting Guam’s natural resources.
- Sustain or promote employee development, recognition and satisfaction.
- Coordinate the 3rd Planners Symposium, 24th GICC, the 8th Kika Summer Camp and publication of the Man, Land and Sea Newsletters.
- Coordinate the kick-off of Guam’s year-long participation in the International Year of the Reef (GYOR), 4th Coral Reef Symposium, and other coral partnerships.
- Continue to conduct outreach programs such as the Guardians of the Reef, Eyes on the Reef, the Pig Hunting Derby and Pork in the Park Cook-Off to promote and advocate best management practices in protecting the island’s coastal environment and balance of sustainable uses of resources and capabilities.
- Continue with watershed restoration and reforestation efforts in the south; and the promotion of green infrastructure technology.
- Coordinate the 3rd Planners Symposium, 24th GICC, the 8th Kika Summer Camp and publication of the Man, Land and Sea Newsletters.
- Coordinate the kick-off of Guam’s year-long participation in the International Year of the Reef (GYOR), 4th Coral Reef Symposium, and other coral partnerships.

Marked success at the Manell-Geus (Merizo) watershed for forest restoration, replanting of native species and firebreak maintenance at the Quinene Hill (Merizo) reforestation site. Ridge-to-Reef efforts help minimize negative impacts on ecosystems, infrastructure and reefs.

Flood study completed on Manell-Geus watershed. As a result, outreach materials for flood mitigation developed on a residential, governmental and community scale. Site: Flood and bamboo impact on Barcinas culvert (Merizo).
