Director, Guam Waterworks Authority
Attn: General Manager

FROM: Director, Bureau of Statistics and Plans

SUBJECT: Federal Consistency Determination for Modification of the NPDES 2017 Construction General Permit (CGP) Stormwater Discharges (FC2019-0006)

Hafa Adai! The Bureau of Statistics and Plans is reviewing the enclosed Federal Consistency Certification submitted by the United States Environmental Protection Agency (USEPA) for a National Pollutant Discharge Elimination System (NPDES) 2017 Construction General Permit (CGP) for Stormwater Discharges in accordance with The CZMA 1972 (as amended) § 307(c)(1), (2), 15 Code of Federal Regulations (CFR) Part 930, Subpart C.

The proposed modifications listed above (and discussed in more detail in the fact sheet) are relatively minor and the modified permit will continue to be effective in controlling pollutants in construction site runoff.

We respectfully request for your agency's review of the proposed project pursuant to Executive Order 78-37, Guam Land Use Policies and Authorities.

For detailed information on the above enforceable policies, please visit our website <http://bsp.guam.gov> under the Guam Coastal Management Program, *Procedures Guide for Achieving Federal Consistency with the Guam Coastal Management Program*.

Your immediate response with comments or concerns is essential in concluding a Federal Consistency determination for the proposed project. Please note that if there is no response from you on or before **Thursday January 31, 2019**, we will assume that you have no objections or concerns over the proposed project.

Should you need additional information, please contact Mr. Francis Damian, Planner at 300-9665 or Mr. Edwin Reyes, Guam Coastal Management Administrator at 475-9672 or email francis.damian@bsp.guam.gov or edwin.reyes@bsp.guam.gov, respectively. Si Yu'os Ma'åse'.

TYRONE J. TAITANO
Acting
