Deputy Director

Message from the Director

Buenas yan Hafa Adai!

It is with great pleasure to announce the availability of the **2018 Guam Statistical Yearbook**. We are confident that this yearbook will provide important historical and economic, social and physical data that policy makers and leaders, researchers, planners, developers, investors and other interested parties will find useful to assess the needs of our community and to work towards improving the social and economic conditions of our island.

The Bureau of Statistics and Plans is committed to providing our community, stakeholders and outside interests with valuable, timely and statistical indices to make sound decisions and to improve Guam's economic viability and quality of life for our people of Guam.

I thank all the local and federal government agencies and private organizations who collect, maintain, and produce data reports for the Bureau's use in making this yearbook possible year after year. I am truly grateful to and proud of the management and staff of the Bureau who compile and review the submitted data reports for input into the yearbook which comprises of twenty-three chapters and over five hundred tables.

Please feel free to contact my office at the Bureau if you have any questions about the yearbook or need additional information about the work that we do. For information about other statistical reports produced by the Bureau, please visit our website at bsp.guam.gov.

Sincerely,

Tyrone J. Taitano
Director

2018 Guam Statistical Yearbook

GUAM ECONOMIC OUTLOOK

ECONOMIC OUTLOOK

Economic Outlook for Guam Fiscal Year 2019

SUMMARY

The Outlook for Guam's economy in Fiscal Year 2019 is a continuation of a general trend of modest growth and stability in an economic environment characterized by growth both in the U.S. and internationally. The outlook is tempered by possible downside risks.

The forecast is for continued economic expansion as measured by growth in Gross Domestic Product, which has occurred every year since 2006 but has been slowing in recent years. Expansion is expected to be driven by near-record tourist arrivals, increased visitor expenditures and a rebound in construction. The likelihood of increased construction activity is supported by high dollar amounts of building permits and DOD construction contracts associated with preparation for the Marine Corps relocation from Okinawa; a backlog of funded projects in all sectors; and eased restrictions on foreign worker importation which should reduce labor capacity constraints.

Downside risks to the favorable outlook are present. Long-standing international tensions with North Korea and others in the region may flare, impacting tourism and the overall economy. Recent airline capacity reductions constrain short-term growth prospects. Further delays to a myriad of construction projects could materially alter the forecast. Recent U.S. Federal income tax changes will have both positive and negative effects on Guam's economy.

GLOBAL ECONOMIC OUTLOOK

According to a January 2018 International Monetary Fund report, "The cyclical upswing underway since mid-2016 has continued to strengthen. Some 120 economies, accounting for three quarters of world GDP, have seen a pickup in growth in year-on-year terms in 2017, the broadest synchronized global growth upsurge since 2010. Among advanced economies, growth in the third quarter of 2017 was higher than projected in the fall, notably in Germany, Japan, Korea, and the United States...The stronger momentum experienced in 2017 is expected to carry into 2018 and 2019, with global growth revised up to 3.9 percent for both years".

Goldman Sachs Research's Chief Economist expects global growth will reach 4% next year. Chief Asia Pacific Economist Andrew Tilton sees another year of strong growth ahead for the region. South Korea and Japan, which are Guam's primary source market of tourists, expect growth ahead. South Korea's economy is set to expand 3% in 2018 according to the finance ministry in its annual outlook. "South Korea's annual per capita income will reach \$32,000 by the end of 2018 should its currency continue to trade at around the level of 1,083 won against the U.S. dollar...", the finance ministry said in a Bloomberg report. "That would put the country above the \$30,000 threshold regarded as marking the ascension to a developed economy". The Government of Japan projects 1.8% Real GDP in fiscal 2018 and the growth through March 2019 will be led by domestic demand such as capital investment and personal spending. The World Bank maintained its forecast for China's GDP growth in 2018 and 2019 at 6.4 percent and 6.3 percent, respectively.

ECONOMIC OUTLOOK

TOURISM

Visitor arrivals in 2017 set new all-time highs exceeding the record levels according to Guam Visitors Bureau (GVB) figures. For Calendar Year 2017 visitor arrivals increased from 1,532,015 to 1,540,723 a 0.6 percent increase. On a Fiscal Year basis, visitor arrivals increased from 1,492,249 to 1,559,395, a 3.5 percent increase. As the number of visitor arrivals has increased, so have hotel occupancy and room rates. Annual average hotel occupancy rates increased to 84.2 percent in CY 2017, up from 83.4 in 2016 and 76.3 in 2015. In 2017 every month had an occupancy rate above 80 percent except for October. Average daily room rates for 2017 reached \$206.07, showing increases each year from 2013, when they were \$164.29 as detailed in GVB reports.

While the annual numbers are up, the latest quarter and month are down somewhat. Arrivals for first quarter of FY 2018 are down 3.9 percent from first quarter FY 2017 arrivals. December 2017 arrivals are down 2.3 percent from December 2016.

Despite these recent decreases, the high level of annual visitor arrivals is remarkable, particularly given the drastic reduction in Japan arrivals due to the nuclear standoff between the U.S. and North Korea. Japanese visitors were historically the overwhelming share of the market. Japanese arrivals had been on a generally downward trend but the several missile threats from North Korea in 2017 caused arrivals to plummet from that market. North Korea has made similar threats for decades but President Trump added to the tensions by threatening to “totally destroy” and unleash “fire and fury like the world has never seen” on North Korea. The Guam Visitors Bureau confirmed that there have been thousands of visitor cancellations, mostly from key Japanese package tours and that new bookings have slowed. The CNMI has experienced similar market changes with Korean arrivals increasing and Japan arrivals declining, although their decline in Japanese travelers was much less severe than Guam’s. While the tourism prospects for 2018 and beyond remains strong, the situation has heightened uncertainty and dampened growth expectations.

The increasing diversification in origin of visitors by country has more than offset the decrease of the Japan sector. For 2017 Japan arrivals declined 16.9 percent while Korea arrivals increased 25.6 percent. For the first full year, Korea arrivals of 684,465 exceeded the 619,605 arrivals from Japan. Japan arrivals in 2017 were just 40 percent of total visitor arrivals. The Japan sector has experienced a number of events which have reduced arrival numbers. This includes a reduction in the number of flights to Guam which the Visitor’s Bureau hopes to increase by promoting an increased number of charter flights and expanded marketing initiatives including social media to capture more independent travelers, as the market has shifted to more FIT’s and fewer package tours.

Since a China visa waiver program to Guam does not look likely in the near future, GVB is pursuing Chinese visitors who already have U.S. visas. Two million U.S. visas, now valid for ten years, have been issued to Chinese citizens.

In the latest year Russian visitor arrivals have rebounded somewhat, increasing 52.5% to 659 in 2017. For Russian oil producers, the price of the benchmark crude in rubles is close to a record thanks to a weaker currency. Oil exports are a significant source of Russia’s foreign exchange.

Guam remains ninth in a ranking of U.S. ports of entry of non-resident arrivals in preliminary July 2017 U.S. Department of Commerce, ITA, National Travel and Tourism Office figures. The department’s forecast for Asia-Pacific provides a context for growth for Guam’s tourist market

ECONOMIC OUTLOOK

potential, “This world region is expected to produce a 47 percent increase in visitors by 2021. Japan, the largest Asian market and second-largest overseas market, is forecast to have a small increase in visitor volume in 2021 compared to 2015, but its path includes a decline in 2016 and no growth in 2017. Conversely, high growth rates and large growth volumes are expected in 2016 for China, India, South Korea and Taiwan. Similarly, these four countries are expected to have among the largest total visitor volume growth of any country from 2015 to 2021. More importantly, China should become the top overseas origin market and third overall behind Mexico or Canada by the end of 2021. India is expected to produce 847,000 additional visitors (+72%), and South Korea should produce an additional 758,000 visitors (+43%).

CONSTRUCTION

Construction currently accounts for about nine percent of Guam’s economy in terms of civilian employment. It is also a strong leading indicator of the economic activities to come including employment. As the industry is subject to large cyclical variation, activity changes can have a measurable effect on the economy.

To forecast future construction activity the dollar amount of building permits issued provide an excellent leading indicator for the civilian sector and U.S. military construction contracts awarded for the defense sector. The combined total of permits and military contracts is a strong indicator of construction activity levels in the following year or two.

Construction employment declined somewhat in 2015 from roughly seven to six thousand workers due to several factors. These include completion of major projects, reductions due to lower military construction appropriations in 2015, delays in contracting due to a procurement protest and environmental site work and reductions due to the non-renewal and repatriation of the majority of foreign workers employed under H-2b visas. Construction declined further through 2017 due to workforce constraints.

Nevertheless, there are several compelling reasons why construction activity and employment is likely to increase in 2018 and 2019. These include a backlog of projects with appropriations or other financing to be contracted and a large number of projects already contracted with a great deal of work remaining. NavFac Pacific Current Contract amounts adjusted by percent completed are estimated at \$481 million as of August 2017 on DOD multiyear projects.

Most of Guam’s H-2b foreign workers in construction, which accounted for about 17 percent of the industry’s labor force, were repatriated in 2016 and 2017. Their temporary visas were not renewed due to more stringent application of the approval policy. Efforts to exempt non-buildup projects from this tightened policy in the U.S. Congress in the National Defense Authorization Act (NDAA) were not successful for FY 2018. DOD projects received an exemption to the temporary criteria which will permit H-2 workers to again be recruited for buildup and related projects. The litigation by contractors recently provided some relief to the non-military projects when a District Court of Guam preliminary injunction prohibited the Federal government from continuing its current practice of denying nearly every request for temporary workers until the merits of the case can be decided. The order also nullified the earlier visa denials. The order does not grant class status to the lawsuit. The motion for class certification is pending. As nearly all H-2b visa workers have left the island, it

ECONOMIC OUTLOOK

will take at least three months for the administrative process to start bringing additional workers to the island. The litigation is ongoing. The NDAA also provides the U.S. Citizenship and Immigration Services with flexibility in applying the H-2b visa program on Guam for military and civilian projects directly related to or associated with the Marine relocation. This provision provides confidence that construction employment will increase measurably for FY 2019.

For the civilian sector, a number of major projects are ongoing. These include;

- Tsubaki Hotel is being constructed by P.H.R. Micronesia, Ken Corp. It is to be a 26-story 340 room five star hotel offering luxury accommodations. The site is adjacent to the Hotel Nikko Guam with a total investment of approximately \$180 million. The ground breaking was March 2016 and completion was originally scheduled for October 2018. The completion date has been delayed and a 2019 completion is now projected. It is expected to employ 290 people.
- Low-income housing, financed by tax credits through Guam Housing and Urban Renewal Authority for Summer Town Estates Phase III, with 66 low-income units located at the old Lada Estates. The ground breaking ceremony was held March 15, 2017 and the units are scheduled for completion in early 2019. Villa Del Mar LLC plans 50 units off the Kanada - Toto Loop in Mongmong for low income families and homeless veterans. A groundbreaking ceremony for the project was held November 21, 2017. The program is under the jurisdiction of the IRS; GHURA awards credits to developers. The estimated cost for both projects is about \$50 million.
- Summer Towers formerly known as Emerald Oceanview Park, a \$100 million four-tower development with plans for 260 luxury condominium units on the cliff line next to Guam Memorial Hospital. The project was previously planned for completion in 2010 but encountered delays. The mortgage was taken over by CoreTech which has recently completed the most Southern tower and held an open house May 18, 2017. In January 2018, The Summer Towers' website indicates that the tower is completely occupied. Work on the other towers are being performed but is constrained by construction workforce availability; plans are for the remaining towers to be completed in late 2018.
- Tumon Bay Mall has 200,000 square-feet of floor space on two levels. Phase I work on the mall's exterior structure is completed. Phase II for interior finishing is yet to be completed.
- Fishermen's Co-Op project includes a 220-foot sea wall which will be a docking area for larger vessels, to include fishing, charter and dolphin watch vessels as well as 6,000 – 7,000 square feet for the operational facility, now at an estimated cost of \$6 million. In 2014 the Fishermen's Co-Op and GEDA signed a memorandum of understanding for the construction, repair and improvements of the new facility. The project groundbreaking was January 28, 2017.

ECONOMIC OUTLOOK

A number of major projects are in the planning phase for development. These include:

- Northgate MarketPlace, a shopping and restaurant complex to be located directly across from Guam Regional Medical City in Dededo aims to create nearly 300 retail and food service jobs upon completion. It is funded in part by federal grants through the Guam Housing and Urban Renewal Authority with a total project cost estimated at \$12 million.
- JMSH 11, LLC is expected to begin construction of their Citta di Mare Hotel by year 2020 at the latest. Citta di Mare means “city by the sea”. The hotel will feature 500 guest rooms of which 450 will be boutique rooms of approximately 330 square feet and 50 deluxe boutique rooms of 450 square feet. The rooms will be housed in 4 towers ranging from 13 to 18 stories. It is to be located across from the vacant property of the Department of Public Works down to the lot behind the Acanta Mall. Citta di Mare Hotel is expected to create 413 new jobs. Total projected investment is \$133,165,000.

2018	APR - BULK FUEL STORAGE TANKS	N61755 -- NAVBASE GUAM	\$76,000,000	1/21/2019	6/18/2019

The total in Chart 2 above scheduled for MilCon solicitation and award is \$284.8 million so far for 2017 through 2019.

Another leading indicator of future construction activity, although not as immediate as the permits and contracts, is appropriations or other funding sources.

Appropriations for U.S. DOD Military and Civilian Infrastructure, both U.S. and Japan government funded are shown in the table below. While U.S. appropriations levels have dropped well below the peak level of 2010, there was a substantial increase for 2018 and a large proportion of the Japanese appropriations of well in excess of \$1 billion remain available for contracting.

ECONOMIC OUTLOOK

Chart 3

MARINE CORPS RELOCATION

The first wave of Marines relocating from Okinawa to Guam has been delayed. They are now expected to begin arriving in Guam by around 2025. According to Major Timothy Patrick, Public Affairs Officer for U.S. Marine Corps Activity, Guam “It’s a graduated increase in Marines so it won’t be 5,000 Marines all at once, but they will be graduated slowly but surely, ...We expect to get up to the full complement within two years after we begin.”

Work in preparation for the relocation is well under way. The progress is documented in *The Interagency Coordination Group of Inspectors General for Guam Realignment* in its *Annual Report* dated February 1, 2017. The estimated total costs for DOD Projects and Programs through 2016 are \$1.165 billion, with \$517 million incurred. For Marine Corps projects, \$1.208 billion with \$543 million incurred. For other Federal Agency Projects and Programs, \$165 million with \$84 million incurred. Two of the largest projects so far are \$309 million for utilities and site improvements at the new Marine Corps base at Finegayan and \$126 million to construct a live-firing range complex at Northwest Field.

The continued development work is not without concerns which could alter the course or timing of the planned projects and activities. The Guam Legislature adopted a resolution calling for the construction of a new military live-firing range complex to be delayed. The initial version was to prohibit the firing range development, but it was changed to instead call for a delay in the construction and pre-construction until all legal concerns surrounding the development and activities have been resolved. The CNMI lawsuit is also cited. A lawsuit was filed in the Northern Mariana Islands District Court July 27, 2016 by Tinian Women’s Association; Guardians of Gani; Paganwatch and Center for Biological Diversity, vs. United States Department of the Navy; Ray Maybus, Secretary of the Navy; United States Department of Defense; and Ashton Carter, Secretary of Defense. The Plaintiffs request that the court vacate and set aside the 2010 and 2015 Records of Decision regarding the relocation of Marines from Okinawa to the Mariana Islands, and issue any appropriate injunctive and other relief.

ECONOMIC OUTLOOK

The Department of Justice asked the U.S. District Court for the NMI to dismiss the plaintiffs' complaint with prejudice. CNMI District Court Chief Judge Ramona Manglona dismissed most of the arguments in October. The case now hinges on the issue of whether or not the Navy failed to evaluate, in a single Environmental Impact Statement, the impacts of stationing U.S. Marines on Guam and the full range of training in the CNMI required by those Marines. The next hearing on the lawsuit is scheduled for February 15, 2018.

On an unrelated issue – in response to the almost complete denial of labor certifications for foreign workers under the H-2b visa category - the Governor of Guam issued a statement April 6, 2017, which stated: "I will no longer support the buildup; and will not support further progress on the military re-alignment to Guam, so long as the federal government continues to choke our economy."

Absent any court order the buildup activities are scheduled to proceed. If the Court does not dismiss the case and determines there is merit to the claims, relief could be granted short of setting aside the 2010 and 2015 Records of Decision in a manner that may not affect the Guam relocation activity.

PUBLIC FINANCING AND INFRASTRUCTURE

A leading indicator of Federal construction is contained in the appropriations. For the Government of Guam, since most of the major construction projects are bond or grant-funded, a leading indicator of future construction is the availability of funds realized from bonds and other sources. Major Government of Guam projects for which funding has been obtained and those for which funding is planned are listed in the following table.

Chart 4 – Government of Guam

LIST OF PLANNED MAJOR CONSTRUCTION PROJECTS AND FUNDING SOURCES

Planned Projects –Bond/Loan Financing Proposed	Amount
Department of Education	100,000,000
Port Authority of Guam (PAG)	72,600,000
Department of Public Works	20,000,000
Guam Memorial Hospital Authority (GMHA)	9,200,000
TOTAL:	\$201,800,000

ECONOMIC OUTLOOK

FEDERAL GOVERNMENT FISCAL POLICY

President Trump's FY 2018 budget proposal cuts expenditures for civilian programs and increases defense funding for the nation and Guam as well. Compact-Impact reimbursement is proposed for cuts, while spending for Marine Corps relocation projects is increased. Cuts are proposed for Education, Labor, Department of Interior, Housing and Urban Development and the Supplemental Nutrition Assistance Program and Earned Income Tax Credits. The Defense increases have been passed into law whereas the remainder of the budget has not been passed and remains subject to revisions. It is too early to tell exactly what the final impact of the cuts may be, but it is possible that the increase in defense expenditures will be larger than the civilian cuts resulting in a net increase in federal expenditures in Guam.

A sweeping overhaul of the U.S. income tax system enacted in the *Tax Cuts and Jobs Act of 2017* will have significant effects on Guam. The Joint Committee on Taxation found that all income groups will, on average, see an eight percent tax cut in 2019. Corporate income tax rates drop from 35% to 21%.

The Department of Revenue and Taxation estimated a Government of Guam general fund revenue loss for FY 2018 of \$47.9 million in FY 2018 and a \$66.1 million loss for FY 2019.

The tax cuts do not directly change the flows of funds to Guam except for Section 30 funds, which will decline with the tax cuts. Section 30 funds are based on the income taxes paid by military personnel in Guam which are passed on to Guam. The cuts are likely to increase pressure to reduce federal expenditures from which Guam benefits. In the short term, projections are that the tax cuts will be larger than the expenditure cuts and will increase the federal deficit. The savings to individuals and corporations on Guam will provide stimulus to the economy to the extent they are spent or reinvested in the economy. To the extent that cuts to the Government of Guam revenues result in expenditure cuts this will cause an off-setting contractionary effect on the economy.

Federal Retirement Cost-of Living Adjustments (COLAs) are effective each December 1st. Social Security Recipients and Federal retirees will receive a two percent COLA increase in 2018.

Energy prices are forecast by the U.S. Energy Information Administration to be essentially stable in 2018 and 2019. If so, energy prices may not be a material factor affecting economic and revenue changes as they have been in prior years.

Source: National Oceanic and Atmospheric Administration (NOAA) National Weather Service and the Pacific El Niño-Southern Oscillation (ENSO) Applications Climate (PEAC) Center

Symbol "-" indicates data was not recorded for that timeframe.

Guam Intl Airport = Guam International Airport

WFO = Weather Forecast Office

AAFB = Andersen Air Force Base

*AAFB: This forecast for this time period is now very uncertain, and depends upon the developmental pathway of El Niño: If El Niño develops in 2017 so that it peaks in December 2017 or January 2018, then it could be dry early in 2018. If El Niño is delayed until 2018, then conditions are likely to be wet in the first half of that year.

*Southern Mountains: Problems with rain gauge: used nearby Umatac-Merizo Treatment Plant.

Data are based on a sample and are subject to sampling variability (one year estimate).

Chamorros = Guamanian or Chamorro alone

NOTE 1: "Other States" -- data can not be displayed because the number of sample cases is too small.

NOTE 2: Total number including part-Chamorros (Guamanian or Chamorro alone or in any combination) was 130,223 persons in 2012.

NOTE 3: Total number including part-Chamorros (Guamanian or Chamorro alone or in any combination) was 120,706 persons in 2013.

NOTE 4: Total number including part-Chamorros (Guamanian or Chamorro alone or in any combination) was 133,569 persons in 2014.

NOTE 5: Total number including part-Chamorros (Guamanian or Chamorro alone or in any combination) was 145,956 persons in 2015.

Source: Catholic Education Office; Department of Defense Education Activity (DoDEA); Other Private Schools and Guam Department of Education, Government of Guam

1/ Our Lady of Mount Carmel enrollment numbers were not available at the time of publishing. Catholic Schools includes Dominican Child Development School; Infant of Prague Nursery & Kindergarten; Maria Artero; Mercy Heights; Bishop Baumgartner; Dominican Catholic School; Our Lady of Mount Carmel; Saint Anthony; Santa Barbara; Saint Francis; San Vicente; Academy of Our Lady; Father Duenas; and Notre Dame.

2/ Department of Defense Education Activity

3/ Evangelical Christian Academy and Southern Christian Academy enrollment data was not available. Other Private Schools includes Asmuyao Community School, Evangelical Christian Academy, Guam Adventist Academy, Harvest Christian Academy, Majesty Christian Academy, Saint Paul Christian School, Southern Christian Academy, St. John's School, Temple Baptist Christian School, Guahan Charter Academy, and iLearn Academy Charter School.

4/ Cohort Graduation Rate: Based on the capability of tracking the high school experience of each member of the ninth grade cohort. After four years of high school, each member of the ninth grade cohort is identified as either a) a graduate; b) still in school; c) a transfer d) a dropout; or e) a withdrawal due to illness or death. A four year cohort graduation rate may then be calculated by dividing the number of cohort graduates after four years of high school by the total 9th grade cohort less the number of transfers and the number of students that withdrew during the four years due to illness or death.

5/ DODEA number of graduates was not available. Private School Graduates includes Catholic Schools, DoDEA, and Other Private School Graduates.

6/ SY16-17 Public High School graduates includes summer graduates.

Source: Office of Associate Superintendent, Business Affairs, Department of Education, Government of Guam

LEA= Local Education Agency

1/ Includes Substitute teachers, as well as Guidance Counselors and Librarians who are categorized as Teachers.

2/ Includes Licensed Practical Nurses (LPN's)

3/ Includes School Aides, Head Start Aides and other special program aides.

4/ Employee Code not specified due to exiting the department during the school year.

The symbol "-" does not necessarily depict 0 for the ethnic group; the information was grouped as Asian or Pacific Islander and placed under the category Other.

5/ SY 2014-2015, Cafeteria employees were combined with Custodial/Maintenance.

6/Includes Instructional Coordinators and Supervisors, School Program Consultants, and Program Coordinators

7/Includes Attendance Officers, Social Workers, Speech Language Pathologists/Clinicians, Therapists, Community Program Aides, etc.

8/Includes GDOE Board Members

*Beginning SY14-15, the employee categorization follows the EDFacts categories as defined in NCES N501 File Specification.

This is to ensure that local and federal reports align.

Source: Guam Bankers Association

1/ Excludes Credit Union Banking Institutions.

2/ Consumer Loans include Credit cards, personal loans, automobile loans etc.

3/ Commercial Loans include both commercial real estate loans, e., commercial mortgages, other business loans and loans to the government, which are not accounted for elsewhere. Commercial loans also include loans sold to third parties (in whole or in part).

Commercial mortgage loans are for dwellings with four or more housing units, e.g., quad-plexes or larger.

4/ Real Estate Loans includes both loans retained on the institution's books and loans that are sold to third parties.

Note: "Other" loans, which are primarily the temporary loans provided to good customers when they accidentally and infrequently overdraw their depository accounts, and are not reported to the Bankers Association; that data would be available in reports provided to the FDIC (for the seven insured banks) and to the Guam Banking Commission at the Department of Revenue and Taxation.

Includes mortgage loans sold to the Federal Home Loan Mortgage Corporation "Freddie Mac" or the Federal National Mortgage Association "Fannie Mae", as well as commercial loans that have been sold, in whole or in part to other banks, but are still serviced by Guam banks.

Aggregated data are provided by the following banks: Allied Banking Corp., ANZ Bank, Bank of Guam, Bank of Hawaii, BankPacific, CitiBank, First Commercial Bank, First Hawaiian Bank, Citizens Security Bank, Metro Bank & Trust Co., and Oceanic Bank.

Note: Allied Bank was taken over by Philippine National Bank during fourth quarter 2013. Citizens Security Bank was taken over by ANZ during the first quarter 2010. Metro Bank closed operations on June 30, 2012. Oceanic Bank closed operations during third quarter 2013. Citibank, NA, closed operations during the second quarter of 2014.

Source: Guam Memorial Hospital Authority and Department of Public Health and Social Services, Government of Guam

Note: Inpatient is a person who is admitted to hospital for medical, surgical or obstetric treatment, observation or care and stays at least one night. Includes persons if formally admitted by the hospital as "boarders", and patients who die in hospital or are transferred to another hospital on the day of admission. Day patient is a person who is admitted and discharged on the same day. Day patients do not include those patients who died in the hospital or transferred to another hospital.

1/ Includes licensed military physicians working part-time at Guam Memorial Hospital and Guam Regional Medical City (GRMC).

GRMC opened in 2015.

2/ Data is only from October 2013 to February 2014 due to GMHA switched to a new information system and have been working on fixing issues.

Data for 2015 is an average of 3 months due to a new information system.

Table 12-03 . Number of Inpatients by Type of Treatment at Guam Memorial Hospital, Guam: Fiscal Years 2013 to 2018

Type of Treatment	2018	2017	2016	2015	2014	2013

Other not specified	4,204	4,550	5,539	6,009	5,340	2,973

Source: Guam Memorial Hospital Authority, Government of Guam

Note: The disparity in the data trend from previous FYs compared to FY 2014 is due to the old GMHA Patient Information System extracting duplicated accounts (i.e. interim accounts, more than 1 bill number for same inpatient visit, etc.). The new system has addressed this issue as reflected in the FY 2014 data.

1/ Days away from work include those that result in days away from work with or without job transfer or restriction.

Excludes farms with fewer than 11 employees.

Dashes indicate data not available.

2/ Median days away from work is the measure used to summarize the varying lengths of absences from work among the cases with days away from work. Half the cases involved more days and half involved less days than a specified median.

Median days away from work are represented in actual values.

Note: Because of rounding, components may not add to totals. Dashes indicate data not available.

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours;

for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$90.00 per hour or \$187,199 per year.

8/ Estimates not released.

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$90.00 per hour or \$187,199 per year.

8/ Estimates not released.

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$90.00 per hour or \$187,199 per year.

8/ Estimates not released.

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$90.00 per hour or \$187,199 per year.

8/ Estimates not released.

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$90.00 per hour or \$187,199 per year.

6/ Estimates not released.

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.

Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

5/ This wage is equal to greater than \$90.00 per hour or \$187,199 per year.

6/ Estimates not released.

Table 18-07 . National School Lunch Program, Guam: Fiscal Years 2007 to 2012

Description	FY2012	FY2011 R	FY2010	FY2009	FY2008	FY2007
Total Children participation	17,364	17,131	17,611	18,449	17,938	19,052
Total lunches served (000)	2,854	2,727	3,015	3,039	3,005	3,162
Cash payments (\$000)	6,846	6,163	6,306	5,612	5,507	5,500

Source: Food and Nutrition Service, USDA. All data are subject to revision.

Notes: Payments to State agencies are based on per meal rates which are adjusted annually to offset changes in food prices. Administrative costs not included. Cash payments includes the costs of snacks served.

Table 18-08 . School Breakfast Program, Guam: Fiscal Years 2013 to 2018

Description	FY2018	FY2017	FY2016	FY2015	FY2014	FY2013
Total Children participation	9,540	9,397	9,738	10,338	8,893	8,301
Total breakfasts served (000)	1,620	1,612	1,525	1,647	1,537	1,435
Cash payments (\$000)	3,258	3,044	2,769	2,964	2,750	2,544

Source: Food and Nutrition Service, USDA. All data are subject to revision.

Payments to State agencies are based on per meal rates which are adjusted annually to offset changes in food prices.

Administrative costs not included.

Table 18-09 . Child and Adult Care Food Program, Guam: Fiscal Years 2013 to 2018

Description	FY2018	FY2017	FY2016	FY2015	FY2014	FY2013
Average Daily Attendance	436	290	558	835	688	719
Total meals served (000)	396	365	364	358	347	351
Cash payments (\$000)	458	414	416	392	380	383

Source: Food and Nutrition Service, USDA. All data are subject to revision.

Payments to State agencies are based on per meal rates which are adjusted annually to offset changes in food prices. Administrative costs not included.

Average daily attendance data are reported on a quarterly basis only (March, June, September, and December). The average daily attendance is not adjusted for absenteeism, unlike the participation data in the National School Lunch and School Breakfast Programs.

GLOSSARY

A

Age_Sex Structure	The age-sex structure is the composition of a population as determined by the number or proportion of males and females in each age category. The age_sex structure of a population is the cumulative result of past trends in fertility, mortality, and migration. Information on age_sex composition is essential for the description and analysis of many other types of demographic data. See also <i>Population Pyramid</i> .
Average	The average is the amount obtained by dividing the aggregate or total of a particular variable in the statistical universe by the number of units in that universe.

B

Bankruptcy	A legal procedure for dealing with debt problems of individuals and businesses. These procedures are covered under Title 11 of the United States Code (Bankruptcy Code). Bankruptcy laws help people who can no longer pay their creditors get a fresh start by liquidating their assets to pay their debts, or be creating a repayment plan. Bankruptcy laws also protect troubled businesses and provide for orderly distributions to business creditors through reorganization or liquidation.
Birth	A birth (live birth) is the complete expulsion or extraction from is mother of a product of human conception, irrespective of the duration of the pregnancy, which, after such expulsion or extraction, breathes or shows any other evidence of life such as beating of the heart, pulsation of the umbilical cord or definite movement of the voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached.
Birth Rate	The birth rate is the number of live births per 1,000 population in a given year. It should not be confused with the growth rate. See also <i>Growth Rate</i> .

C

Census	A census is the canvassing of a given area, resulting in an enumeration of the entire population and often the compilation of other demographic, social, and economic information pertaining to that population at a specific time. See also <i>Survey</i> .
Census Designated Place	Census designated places (CDP) are delineated for each decennial census to provide census data for concentrations of population, housing, and commercial structures that are identifiable by name but are not within an incorporated place. CDP boundaries usually are defined in cooperation with state, local, and tribal officials. CDP boundaries may change from one decennial census to the next with changes in the settlement pattern; a CDP with the same name as in an earlier census does not necessarily have the same boundary. All places in Guam are CDPs.

Child Abuse and Neglect	Child abuse and neglect is at a minimum any recent act or failure on the part of a parent or caretaker which results in death, serious physical or emotional harm, sexual abuse or exploitation; or an act or failure to act which presents an imminent risk of serious harm.
Childbearing Years	Childbearing years is the reproductive age span of women, assumed for statistical purposes to be 15_44 or 15_49 years of age.
Civilian	A civilian is a person who is not in the armed forces, including dependent members of the armed forces.
Civilian Labor Force	The civilian labor force is all persons 16 years and older employed for pay or profit plus those who are unemployed but seeking work. See also <i>Employed</i> , <i>Unemployed</i> , and <i>Not in Labor Force</i> .
Cohort	A group of people sharing a common temporal demographic experience who are observed through time. For example, the birth cohort of 1900 is the people born in that year.
Consumer Price Index	The Consumer Price Index (CPI) measures the rate at which the prices of consumer goods and services are changing over time. In practice, most CPIs are calculated as weighted averages of the percentage price changes for a specified set, or “basket”, of consumer products, the weights reflecting their relative importance in household consumption in some period. A monthly or quarterly price index compiled and published by an official statistical agency that measures changes in the prices of consumption goods and services acquired or used by households.
Crude Birth Rate	See <i>Birth Rate</i> .
Crude Death Rate	See <i>Death Rate</i> .
Crude Divorce Rate	See <i>Divorce Rate</i> .

_ D _

Death	Death is the permanent loss of all evidence of life after a live birth has occurred.
Death Rate	The death rate is the number of deaths per 1,000 population in a given year.
Defined Benefit Plan	The Defined Benefit Plan provides for retirement, disability, and survivor benefits to members of the plan prior to October 1, 1995 (all government employees are required to participate in the Defined Contribution Plan after October 1, 1995). Under the Defined Benefit Plan, retirement benefits are based on age and/or years of credited service and an average of the three (3) highest annual salaries received by a member during the years of credited service, or six thousand (\$6,000), whichever is greater.

Defined Contribution Plan	Created by Public Law 23-42:3, this plan provides an individual account retirement system for any person who is employed by the Government of Guam. This plan is a single-employer pension and is the only plan for all new employees whose employment commences on or after October 1, 1995.
Density	Population density and housing unit density are computed by dividing the total population or number of housing units within a geographic entity by the land area of that entity measured in square kilometers or square miles. Density is expressed as both “people (or housing units) per square kilometer” and “people (or housing units) per square mile” of land area.
Dependency Ratio	The ratio of the economically dependent part of the population to the productive part; arbitrarily defined as the ratio of the elderly (ages 65 and older) plus the young (under age 15) to the population in the working ages (ages 15_64).
Disability Status	Disability status was derived from answers to two Census questionnaire items. The first asked about the existence of the following long-lasting conditions: (a) blindness, deafness, or a severe vision or hearing impairment (sensory disability) and (b) a condition that substantially limits one or more basic physical activities, such as walking, climbing stairs, reaching, lifting, or carrying (physical disability) for the population 5 years old and over. Disability status was also determined by asking if the individual had a physical, mental, or emotional condition lasting 6 months or more that made it difficult to perform activities in four categories: (a) learning, remembering, or concentrating (mental disability); (b) dressing, bathing, or getting around inside the home (self_care disability); (c) going outside the home alone to shop or visit a doctor’s office (going outside the home disability); and (d) working at a job or business (employment disability). Individuals were classified as having a disability if any of the following three conditions were true: (1) they were 5 years old and over and had a response of “yes” to a sensory, physical, mental or self_care disability; (2) they were 16 years old and over and had a response of “yes” to going outside the home disability; or (3) they were 16 to 64 years old and had a response of “yes” to employment disability.
Divorce	A divorce is the legal termination of a marriage.
Divorce Rate	The divorce rate is the number of divorces per 1,000 population in a given year.

_ E _

Educational Attainment	The classification of people according to the level of education attained (the highest level of school completed or the highest degree received).
Election District	An election district is the official term for what is commonly called a “village”; there are the nineteen (19) election districts or villages on Guam.
Emotional Abuse	Patterns of behavior that attacks a person’s emotional development and sense of self worth (name calling, blaming, belittling, terrorizing, isolation, humiliation, and rejection).
Emotional Neglect	Purposely not providing for a person’s emotional needs (marked inattention to the person’s need for affection, refusal or failure to provide needed psychological care)
Employed	All civilians 16 years old and over were classified as employed if they were “at work” or “with a job but not at work” during the reference week, including temporarily absent. See also <i>Unemployed</i> and <i>Not in Labor Force</i> .
Ethnic Origin	Ethnic origin refers to an individual’s origin or descent, “roots,” heritage, or place where the individual or his/her parents or ancestors were born. Respondents reported their ethnic group regardless of the number of generations removed from their place or origin. Responses to the ethnic origin or race question reflected the groups with which respondents identified and not necessarily the degree of attachment or association the individual had with the particular group(s). See also <i>Race</i> .
Ethnicity	The cultural practices, language, cuisine, and traditions — not biological or physical differences — used to distinguish groups of people.

_ F _

Family	A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householder’s family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.
Family Income	In compiling statistics on family income, the incomes of all members 15 years old and over related to the householder are summed and treated as a single amount.

Fertility	The data on fertility (also referred to as “children ever born”) were derived from the answers to the Census question which asked women 15 years old and over—regardless of their marital status—how many babies they have ever had. Stillbirths, stepchildren, and adopted children were excluded from the number of children ever born. Data are most frequently presented in terms of the aggregate number of children ever born to women in specified population groups and in terms of the rate per 1,000 women.
Fetal Death	A fetal death is a death prior to the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of the pregnancy; the death is indicated the fact that after such expulsion or extraction the fetus does not breathe or show any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.
Freely Associated States	The Freely Associated States (FAS) consists of the Federated States of Micronesia (FSM), Republic of the Marshall Islands (RMI), and the Republic of Palau. Formerly a part of the Trust Territory of the Pacific Islands (TTPI), they became independent nations in free association with the United States.

_ G _

General Fertility Rate	The general fertility rate (GFR) is the number of live births per 1,000 women ages 15_44 or 15_49 years in a given year.
Gross Domestic Product	The gross domestic product (GDP) is the total market value of all the goods and services produced within a country in a given period of time.
Gross Reproduction Rate	The gross reproductive rate (GRR) is the average number of daughters that would be born alive to a woman (or group of women) during her lifetime if she passed through her childbearing years conforming to the age_specific fertility rates of a given year. See also <i>Net Reproduction Rate</i> and <i>Total Fertility Rate</i> .
Group Quarters	Group quarters is used to describe places in which people reside that are not considered “housing units,” such as prisons, long-term care hospitals, military barracks, and dormitories. The group quarters population includes all people not living in households. Two general categories of people in group quarters are recognized: (1) the institutionalized population which includes people under formally authorized, supervised care or custody in institutions at the time of enumeration. Such people are classified as “patients or inmates” of an institution regardless of the availability of nursing or medical care, the length of stay, or the number of people in the institution. Generally, the institutionalized population is restricted to the institutional buildings and grounds (or must have passes or escorts to leave) and thus have limited interaction with the surrounding community. Also, they are

generally under the care of trained staff who have responsibility for their safekeeping and supervision, and

- (2) the noninstitutionalized population which includes people who live in group quarters other than institutions. It also includes staff residing in military and nonmilitary group quarters on institutional grounds who provide formally authorized, supervised care or custody for the institutionalized population.

Growth Rate

The growth rate is a general expression of the number of people added to (or subtracted from) a population in a year due to natural increase and net migration expressed as a percentage of the population at the beginning of the time period.

_ H _

Homeless

According to the Stewart B. McKinney Act, 42 U.S.C. § 11301, et seq. (1994), a person is considered homeless who "lacks a fixed, regular, and adequate night_time residence and; and... has a primary night time residency that is: (A) a supervised publicly or privately operated shelter designed to provide temporary living accommodations... (B) an institution that provides a temporary residence for individuals intended to be institutionalized, or (C) a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings." 42 U.S.C. § 11302(a) The term "'homeless individual' does not include any individual imprisoned or otherwise detained pursuant to an Act of Congress or a state law." 42 U.S.C. § 11302(c).

Household

A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) Separate living quarters are those in which the occupants live separately from any other people in the building and that have direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

Household Income

Household income is the sum of all incomes of all members 15 years old and over of a household which are treated as a single amount.

Housing Unit

A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. See also *Tenure*.

HTSUSA

Acronym for *Harmonized Tariff Schedule for the United States Annotated*. The HTSUSA provides the applicable tariff rates and statistical categories for all merchandise imported into the United States. It is based on the international Harmonized System, the global system of nomenclature that is used to describe most world trade in goods.

_ I _

Income	Income is the wages or revenue accruing from labor, business enterprise, or investments. See also <i>Household Income</i> , <i>Family Income</i> , <i>Individual Income</i> , <i>Mean Income</i> , <i>Median Income</i> , and <i>Per Capital Income</i> .
Individual Income	Income for individuals is obtained by summing the total income for each person.
Immigration	Immigration is the process of entering one country from another to take up permanent or semi-permanent residence.
Industry	Industry relates to the kind of business conducted by a person's employing organization described by its economic product or activity.
Infant Death	An infant death is a death occurring to an individual of less than one year of age
Infant Mortality Rate	The infant mortality rate is the number of deaths of infants under one year of age per 1,000 live births in a given year.

_ L _

Labor Force	The labor force is all persons employed for pay or profit plus those who are unemployed but seeking work. See also <i>Employed</i> , <i>Unemployed</i> , and <i>Not in Labor Force</i> .
Life Expectancy	Life expectancy is the average number of additional years a person could expect to live if current mortality trends were to continue for the rest of that person's life. It is most commonly cited as life expectancy at birth.

_ M _

Marriage	A marriage is a social institution involving legal or religious sanction whereby a man and a woman are joined together for the purpose of founding a family unit (traditional).
Maternal Death	A maternal death is a death wherein the physician has designated a maternal condition as the underlying cause of death.
Mean	This measure represents an arithmetic average of a set of values. It is derived by dividing the sum (or aggregate) of a group of numerical items by the total number of items in that group.
Mean Age	The mathematical average age of all the members of a population.
Mean Income	Mean income is the amount obtained by dividing the aggregate income of a particular statistical universe by the number of units in that universe. Thus, mean household income is obtained by dividing total household income by the total number of households.

Median	The median divides a distribution into two equal parts: one_half of the cases falling below the median income and one_half above the median. This measure represents the middle value (if n is odd) or the average of the two middle values (if n is even) in an ordered list of n data values. The median divides the total frequency distribution into two equal parts: one_half of the cases falling below the median and one_half above the median.
Median Age	The age that divides a population into two numerically equal groups; that is, half the people are younger than this age and half are older.
Median Income	The median divides the income distribution into two equal parts: one_half of the cases falling below the median income and one_half above the median. For households and families, the median income is based on the distribution of the total number of households and families including those with no income.
Migration	The movement of people across a specified boundary for the purpose of establishing a new or semi-permanent residence. Divided into international migration (migration between countries) and internal migration (migration within a country).
Minor Civil Division	Minor Civil Divisions (MCD) are the primary governmental or administrative divisions of a first_order subdivision. On Guam, they are Guam's election districts (villages). The MCDs in Guam are geographic subdivisions of the first_order subdivision(s) and are not governmental units.
Mortality	Mortality is a general term for deaths as a component of population change.
_ N _	
Nativity	Nativity is a general term for births as a component of population change.
Natural Increase (Decrease)	The surplus (or deficit) of births over deaths in a population in a given time period.
Neonatal Death	A neonatal death is death occurring to an individual of less than 28 days of age.
Neonatal Mortality Rate	The neonatal mortality rate is the number of deaths of infants under 28 days of age in a given year per 1,000 live births in that year.
Net Migration	The net effect of immigration and emigration on an area's population in a given time period, expressed as an increase or decrease.

Net Migration Rate The net effect of immigration and emigration on an area's population, expressed as an increase or decrease per 1,000 population of the area in a given year.

Net Reproduction Rate The net reproduction rate (NRR) is the average number of daughters that would be born to a woman (or a group of women) if she passed through her lifetime conforming to the age_specific fertility and mortality rates of a given year. This rate is similar to the gross reproduction rate but takes into account that some women will die before completing their childbearing years. An NRR of one means that each generation of mothers is having exactly enough daughters to replace itself in the population. See also *Total Fertility Rate*.

Not in Labor Force All people 16 years old and over who are not classified as members of the labor force. This category consists mainly of students, individuals taking care of home or family, retired workers, seasonal workers enumerated in an off_season who were not looking for work, institutionalized people (all institutionalized people are placed in this category regardless of any work activities they may have done in the reference week), and people doing only incidental unpaid family work (fewer than 15 hours during the reference week). See also *Employed* and *Unemployed*.

Nuptiality Nuptiality is the general term for the frequency, characteristics, and dissolution of marriages in a population.

– O –

Occupation Occupation describes the kind of work a person does on the job or a position in the labor force..

– P –

Part I Offense Part I Offenses is the first of two main groupings of Uniform Crime Reporting Program (UCR) crime classifications consisting of eight offenses reported whether or not they involve arrests:

1. Criminal Homicide,
2. Forcible Rape
3. Robbery
4. Aggravated Assault
5. Burglary 6. Larceny_theft (except motor vehicle theft)
7. Motor Vehicle Theft
8. Arson

See also *Part II Offenses* and *Uniform Crime Report*.

Part II Offense Part II Offenses is the second of the two main Uniform Crime Reporting Program (UCR) groupings of crime classifications not already designated in Part I. Agencies are limited to reporting arrest information only for Part I offenses with the exception of simple assault.

Law enforcement agencies report to the FBI only arrest data involving the Part II crimes:

9. Other Assaults
10. Forgery and Counterfeiting
11. Fraud
12. Embezzlement
13. Stolen Property: Buying, Receiving, Possessing
14. Vandalism
15. Weapons: Carrying, Possessing, etc.
16. Prostitution and Commercialized Vice
17. Sex Offenses
18. Drug Abuse Violations
19. Gambling
20. Offenses Against the Family and Children
21. Driving Under the Influence
22. Liquor Laws
23. Drunkenness
24. Disorderly Conduct
25. Vagrancy
26. All Other Offenses
27. Suspicion
28. Curfew and Loitering Laws—(Persons under 18)
29. Runaways—(Persons under 18)

See also *Part II Offenses* and *Uniform Crime Report*.

Per Capita Income	The per capita income is the amount obtained by dividing the aggregate income of all individuals, including those without incomes, by the total number of individuals.
Percentage	This measure is calculated by taking the number of items in a group possessing a characteristic of interest and dividing by the total number of items in that group, and then multiplying by 100.
Permanent Resident	A permanent resident is any person not a citizen of the United States who is residing in the U.S. under legally recognized and lawfully recorded permanent residence as an immigrant (also known as "Permanent Resident Alien", "Lawful Permanent Resident," "Resident Alien Permit Holder," and "Green Card Holder"). See also <i>Temporary Resident</i> .
Physical Abuse	Non-accidental injury of a person (punching, beating, kicking, biting, burning, shaking, otherwise harming a person).
Physical Neglect	Purposely failure to act on behalf or to provide adequately for the person (refusal of or delay in seeking health care, abandonment, expulsion from home).
Place	Places, for the reporting of decennial census data for the Pacific Island Areas, include census designated places (CDP) and incorporated places.

Population	The total population of a country may comprise either all usual residents of the country (de jure population) or all persons present in the country (de facto population) at the time of the census. For purposes of international comparisons, the de facto definition is recommended.
Population Estimate	Population estimates are approximations of current or past population of an area at a given time, or its distribution or composition in absence of complete enumeration.
Population Density	The population density is the population per unit of land area; for example, people per square mile or people per square kilometer of arable land.
Population Projection	Population projections are the computations of future changes in population numbers, given certain assumptions about future trends in the rates of fertility, mortality, and migration. Demographers often issue low, medium, and high projections of the same population, based on different assumptions of how these rates will change in the future.
Population Pyramid	A bar chart, arranged vertically, that shows the distribution of a population by age and sex. By convention, the younger ages are at the bottom, with males on the left and females on the right.
Poverty	Poverty is an economic and social condition for an individual, family, or household whose level of living in terms of food, housing, clothing, medical needs, and so on are determined to be below the community standard. Following the Office of Management and Budget's (OMB) Statistical Policy Directive 14 (1978), the Census Bureau uses a set of money income thresholds designed in the 1960s that vary by family size and composition to determine who is poor. If a family's total income is less than that family's threshold, then that family, and every individual in it, is considered poor. The poverty thresholds do not vary geographically, but they are updated annually for inflation using the Consumer Price Index (CPI_U). The official poverty definition counts money income before taxes and does not include capital gains and noncash benefits (such as public housing, medicaid, and food stamps). Poverty is not defined for people in military barracks or institutional group quarters or for unrelated individuals under age 15 (such as foster children). They are excluded from the poverty universe — that is, they are considered neither as “poor” nor as “nonpoor.”
Poverty Status	For the 2000 Census, the poverty status of families and unrelated individuals in 1999 was determined using 48 thresholds (income cutoffs) arranged in a two dimensional matrix. The matrix consists of family size (from 1 person to 9 or more people) cross_classified by presence and number of family members under 18 years old (from no children present to 8 or more children present). Unrelated individuals and 2_person families were further differentiated by the age of the reference person (RP) (under 65 years old and 65 years old and over).

To determine a person's poverty status, one compares the person's total family income with the poverty threshold appropriate for that person's family size and composition. If the total income of that person's family is less than the threshold appropriate for that family, then the person is considered poor, together with every member of his or her family. If a person is not living with anyone related by birth, marriage, or adoption, then the person's own income is compared with his or her poverty threshold.

_ Q _

Quartile Quartile is a measure that divides a distribution into four equal parts. The first quartile (or lower quartile) is the value that defines the upper limit of the lowest one-quarter of the cases. The second quartile is the median. The third quartile (or upper quartile) is defined as the upper limit of the lowest three quarters of cases in the distribution. Quartiles are presented for certain financial characteristics, such as housing value and contract rent. The distribution used to compute quartiles is the same as that used to compute medians for that variable.

Quintile Quintile is a measure that divides a distribution into five equal parts on the basis of the ranked total incomes. Hence, the lowest quintile is the bottom 20 percent of the population or households; the highest quintile is the highest 20 percent on the same basis.

_ R _

Race The racial classification used by the Census Bureau adheres to the October 30, 1997, Federal Register Notice entitled "Revisions to the Standards for the Classification of Federal Data on Race and Ethnicity" issued by the Office of Management and Budget (OMB). These standards govern the categorization of race in census data products. The OMB identified five minimum race categories (White, Black or African American, American Indian or Alaska Native, Asian, and Native Hawaiian or Other Pacific Islander). In addition to the five race groups, the OMB also states that respondents should be offered the option of selecting one or more races. See also *Ethnic Origin*.

Rate A rate is a measure of occurrences in a given period of time divided by the possible number of occurrences during that period. Rates are sometimes presented as percentages.

**Rate of Natural Increase
(or Decrease)** The rate of natural increase (or decrease) measures the population increase (or decrease) in a given year due to a surplus (or deficit) of births over deaths, expressed as a percentage of the base population.

Ratio A ratio is a measure of the relative size of one number to a second number expressed as the quotient of the first number divided by the second. For example, the sex ratio is calculated by dividing the total number of males by the total number of females, and then multiplying by 100.

Rural See *Urban and Rural*.

_ S _

Sex Ratio The sex ratio is a measure derived by dividing the total number of males by the total number of females, and then multiplying by 100.

Survey A survey is a canvass of selected persons or households in a population usually used to infer demographic characteristics or trends for a larger segment or all of the population. See also *Census*.

_ T _

Temporary Resident A temporary resident is a nonimmigrant alien who seeks temporary entry to the United States for a specific purpose. The alien must have a permanent residence abroad (for most classes of admission) and qualify for the nonimmigrant classification sought. The nonimmigrant classifications include: foreign government officials, visitors for business and for pleasure, aliens in transit through the United States, treaty traders and investors, students, international representatives, temporary workers and trainees, representatives of foreign information media, exchange visitors, fiancé(e)s of U.S. citizens, intracompany transferees, NATO officials, religious workers, and some others. Most nonimmigrants can be accompanied or joined by spouses and unmarried minor (or dependent) children. See also *Permanent Resident*.

Tenure Tenure represents the condition or nature by which occupancy of a housing unit is held. All occupied housing units are classified as either owner occupied or renter occupied. A housing unit is owner occupied if the owner or co_owner lives in the unit even if it is mortgaged or not fully paid for. All occupied housing units that are not owner occupied, whether they are rented for cash rent or occupied without payment of cash rent, are classified as renter occupied.

Total Fertility Rate (TFR) The total fertility rate is the average number of children that would be born alive to a woman (or group of women) during her lifetime if she were to pass through her childbearing years conforming to the age_specific fertility rates of a given year. This rate is sometimes stated as the number of children women are having today. See also *Gross Reproduction Rate* and *Net Reproduction Rate*.

_ U _

Unemployed All civilians 16 years old and over were classified as unemployed if they were neither “at work” nor “with a job but not at work” during the

reference week, were looking for work during the last 4 weeks, and were available to start a job. Also included as unemployed were civilians 16 years old and over who: did not work at all during the reference week, were on temporary layoff from a job, had been informed that they would be recalled to work within the next 6 months or had been given a date to return to work, and were available to return to work during the reference week, except for temporary illness. See also *Employed* and *Not in Labor Force*.

Uniform Crime Report (UCR) Uniform crime reporting is a collective effort on the part of city, county, state, tribal, and federal law enforcement agencies to present a nationwide view of crime. Agencies throughout the country participating in the Uniform Crime Reporting (UCR) Program provide summarized reports on eight Part I offenses known to law enforcement and reports on persons arrested. They also provide information about law enforcement officers killed and assaulted and on hate crime.

The UCR Program divides offenses into two groups—Part I and Part II. The Program collects data on all Part I offenses that become known to law enforcement whether or not they involve arrests. These crime totals are essential to measuring the level and scope of crimes occurring across the country. Part II offenses are all crime classifications other than those defined as Part I. The UCR Program collects arrest data for both Part I and Part II offenses. See also *Part I Offenses* and *Part II Offenses*.

Urban and Rural The U.S. Census Bureau classifies as urban all territory, population, and housing units located within urbanized areas (UAs) and urban clusters (UCs). It delineates UA and UC boundaries to encompass densely settled territory, which generally consists of:

- A cluster of one or more block groups or census blocks each of which has a population density of at least 1,000 people per square mile at the time, and
- Surrounding block groups and census blocks each of which has a population density of at least 500 people per square mile at the time, and
- Less densely settled blocks that form enclaves or indentations, or are used to connect discontinuous areas with qualifying densities.

Rural consists of all territory, population, and housing units located outside of UAs and UCs. Geographic entities such as first_order subdivisions, minor civil divisions, and places often contain both urban and rural territory, population, and housing units.

The urban and rural classification applies to the 50 states, the District of Columbia, Puerto Rico, American Samoa, Guam, the Northern Mariana Islands, and the Virgin Islands of the United States.

There are UCs in all the Pacific Island Areas, but only the Northern Mariana Islands has a UA (Saipan).

Urban Cluster (UC)	An urban cluster (UC) consists of densely settled territory that has at least 2,500 people but fewer than 50,000 people, except in Guam. By agreement with the Government of Guam, the U.S. Census Bureau recognizes Hagåtña as a UC rather than an urbanized area.
Urbanized Area (UA)	An urbanized area (UA) consists of densely settled territory that contains 50,000 or more people, except in Guam (see below). The U.S. Census Bureau delineates UAs to provide a better separation of urban and rural territory, population, and housing in the vicinity of large places.

_ V _

Veterans Status	For Census data products, a civilian veteran is a person 18 years old and over who, at the time of the enumeration, had served on active duty in the U.S. Army, Navy, Air Force, Marine Corps, or Coast Guard in the past (even for a short time), but was not then on active duty, or who had served in the Merchant Marine during World War II. People who had served in the National Guard or Military Reserves were classified as veterans only if they had ever been called or ordered to active duty, not counting the 4 to 6 months for initial training or yearly summer camps. All other civilians 18 years old and over were classified as nonveterans.
Vital Statistics	Vital statistics is the collection of Demographic data on births, deaths, fetal deaths, marriages, divorces, and related events usually compiled through a registration system or other administrative record system.
