

CREATING SPACES THAT EMPOWER
COMMUNITIES THROUGH GOOD DESIGN,
SUSTAINABLE DEVELOPMENT,
ECONOMIC VIBRANCY,
AND WISE STEWARDSHIP OF OUR
NATURAL AND CULTURAL RESOURCES.

SAVE THE DATE

AUGUST 17 & 18, 2022
DUSIT THANI GUAM RESORT

Join a discussion on how to create spaces that empower communities through;

- good design
- sustainable development
- economic vibrancy
- wise stewardship of our natural and cultural resources

Learn how the design process can become a catalyst for transformative change at all levels of decision-making, from individual projects to the larger scale. Explore what tools are already in place, what resources are needed, and how to work together to improve our quality of life.

- Hear from speakers such as the **American Institute for Architects** talk about how design can make a difference in carbon reduction and understand how that can make our local communities more resilient.
- Updates from the **Bureau of Statistics and Plans**' work to create an enforceable comprehensive development plan and how this can influence development decisions and reduce land-use conflicts.
- Hear about **Environmental Justice, Smart Cities, and Underserved Communities** and how we can make this happen on Guam.
- Understand the coordinated effort in maximizing federal funds from the **Infrastructure Investment Jobs Act**.
- Hear the latest in **aquaculture opportunities** and find out the progress being made to address flooding, improve water quality, and address **Zero Waste** and illegal dumping.
- Hear from the private industry on how we can develop attractions that make sense and are sustainable.

Workshops Include:

- Guam Blue Ocean Sustainable Development Targets
- Understanding Federal Consistency
- Guam Endangered Species

Other Topics Include:

- Environmental Justice
- Smart Cities
- Underserved Communities
- Affordable Housing in Guam

The Guam Coastal Management Program presents 7TH ANNUAL ASSEMBLY OF PLANNERS SYMPOSIUM
