Map Series

Version 1.1.2022

Prepared for
Bureau of Statistics and Plans
Department of Agriculture, and
Department of Land Management

Prepared by
Maria Kottermair

May 2022

Guam Forest System Map Series

The maps presented here as part of the Guam Forest System Plan were created in close collaboration with the Department of Land Management (DLM). They are for informational and planning purposes only. Therefore, any map provided is not intended to be used for description, conveyance, authoritative definition of legal boundary, or property title. The mapping is on-going and as new information is available, it will be added to the inventory.

The maps and geospatial data were created using a geographic information system (GIS). The location and shape of the geospatial data were not verified by a registered land surveyor. The parcels in the Forest System inventory were first compared with the existing geospatial database named “CLTC2015_Final_TaxMap” which are deemed to be the most up to date and complete parcel layer for Guam. If a parcel in the inventory did not exist in the GIS parcel layer, a new record was added based on registered maps provided by the Department of Land Management. The registered maps in PDF format were converted to a TIFF and then georeferenced to the existing geospatial data to ensure consistency within the geospatial data. The new parcel was then digitized based on the georeferenced map and existing GIS data. Due to this process, there might be slight inconsistencies between the boundaries of the lots presented here as part of the Forest System and a registered map or the existing 2015 parcel layer. Care was taken to provide the most accurate boundary based on the current information available.

Additional information such as municipality and size were added to the geodatabase. Municipality was based on the geospatial data from the Digital Atlas of Guam (www.hydroguam.net) and may differ from the municipality or subdivision name of the inventory which is based on the registered map. The size was calculated in the geographic information system and due to differences in boundaries might also differ from the inventory information.

For properties with known general location but not in the geospatial database or without a registered map, a point location was chosen to show the general area of the place of interest. The only properties where no information was available at this time, and therefore are not included in the map series, are listed here:

Place Name	Lot Number	Size (acres)	Location (village)
Atantano Shrine	L230-2	0.2	Barrigada
Barrigada Recreation Area (NCTAMS)	Lic. #N6276887RP000001, N5a(part)	44	Barrigada
Northwest Field	A3	1700	Dededo/Yigo
Liguan Terrace R/A #1	Tract 100	5.1	Dededo
Liguan Terrace R/A #2	Tract 100 (11, 349SF)	2.6	Dededo
Liguan Terrace R/A #3	Tract 100 (104, 895SF)	5.3	Dededo
Ulomnia Beach	Lot 1 in GLUP	21	Inalåhan
Mount Alifan	L257, L258, L259, L260, & L261	41	Hågat
