Lieutenant Governor

Message from the Director

Buenas yan Hafa Adai!

On behalf of the Bureau of Statistics and Plans (BSP), it is my pleasure to present the ***2024 Guam Statistical Yearbook.*** This annual sourcebook provides a wealth of historical and valuable information about our economy, our environment, and our people.

Recognizing the critical role of reliable data, the Bureau of Statistics and Plans provides this publication as a comprehensive resource for Guam's demographic trends, economic indicators, educational milestones, labor market activity, and long-term sustainability efforts. These insights enable policymakers, businesses, and the public to make informed decisions that support sustainable growth and the well-being of our island.

On behalf of BSP, I extend a Dangkulo Na Si Yu'os Ma'åse' to the many government agencies and organizations for their invaluable contributions to make this edition possible. I also applaud the BSP team for their continued dedication and hard work in data collection and dissemination.

Should you have questions or require additional information, please contact the Bureau of Statistics and Plans. We invite the public to visit the Bureau of Statistics and Plans' website at www.bsp.guam.gov to access additional resources.

Senseramente,

Lola E. Leon Guerrero

LOLA E. LEON GUERRERO
Director

2024 Guam Statistical Yearbook

Chapter Titles

		Page
Chapter 1.	Climate and Environment	29
Chapter 2.	Agriculture and Fisheries	39
Chapter 3.	Chamorros in the United States	53
Chapter 4.	Compact Impact	65

Guam Economic Outlook

Economic Outlook for Guam
Fiscal Year 2025

SUMMARY

Guam's economy is expected to continue expanding and recovering from the Pandemic downturn throughout Fiscal Years 2024 and 2025. This economic expansion and partial recovery began in 2021 and 2022, restoring Guam's growth trend. Further, increased Economic activity is anticipated due to simultaneous increases in construction including the progression of the Camp Blaz Marine Corps base construction activity nearing its planned peak, missile defense construction, private and Government construction projects, and continued recovery in the tourism sector from Korea and Japan.

The three primary sources of fund inflows to Guam are tourism, federal expenditures, and construction capital investment. Tourism has begun a partial rebound from the pandemic virtual shutdown in March 2020, continuing into 2022. There is a solid upside for an increased tourism forecast with a little downside. Federal expenditures will likely remain well above recent levels due to the Marine Corps base projects and increased non-defense appropriation levels in general and for Guam specifically. Construction is almost certain to increase substantially; that is supported by private, Government of Guam, and Federal projects already contracted, increasing appropriation levels, workload backlogs, and eased federal restrictions on imported workers to meet the demand. Guam's location in the Pacific will continue to provide a fundamental advantage for defense and support the long-term trend of tourism expansion.

As always, a myriad of uncertainties regarding global health developments, economic or political issues, military conflicts, and potential natural disasters could enhance or impair the anticipated continued growth scenario.

This outlook focuses on identifying and providing measures of the significant economic factors influencing revenues in preparation for the Government of Guam's Executive Branch annual budget.

Increased tax revenues in Guam in 2022 and 2023 were in part due to increased economic activity and, in part, a spike in price levels. Price inflation led to wage inflation, increasing payroll income tax collections, and Business Privilege Tax Collections. As inflation rates decline, growth in Government revenues will be less influenced by higher price levels. The shift in industry activity from tourism to construction will also cause a change in tax collections. There are fewer resident employees in the tourism industry and more non-resident employees in the Construction industry. The non-resident workers are subject to higher income tax rates; however, a substantial portion of their wage income is repatriated, resulting in a lower expenditure multiplier than resident employees, who spend a more significant portion of their income on Guam. The income brackets for the increasingly higher rates for higher incomes will be increased with the Federal Income tax withholding tables for 2024 resulting in reduced collections for a given wage income. The reduced withholdings will, on the other hand, provide additional disposable income.

Other factors, such as changes in tax rates and timing of the receipt of various payments, may also have measurable impacts on realized revenue during the fiscal year. The global, national, and regional economic environment is reviewed as Guam's economy functions and is influenced by myriad interrelated influences.

GLOBAL & REGIONAL ECONOMIC OUTLOOK

The International Monetary Fund's (IMF) World Economic Outlook

World Economic Outlook, October 2023: Navigating Global Divergences

October 10, 2023

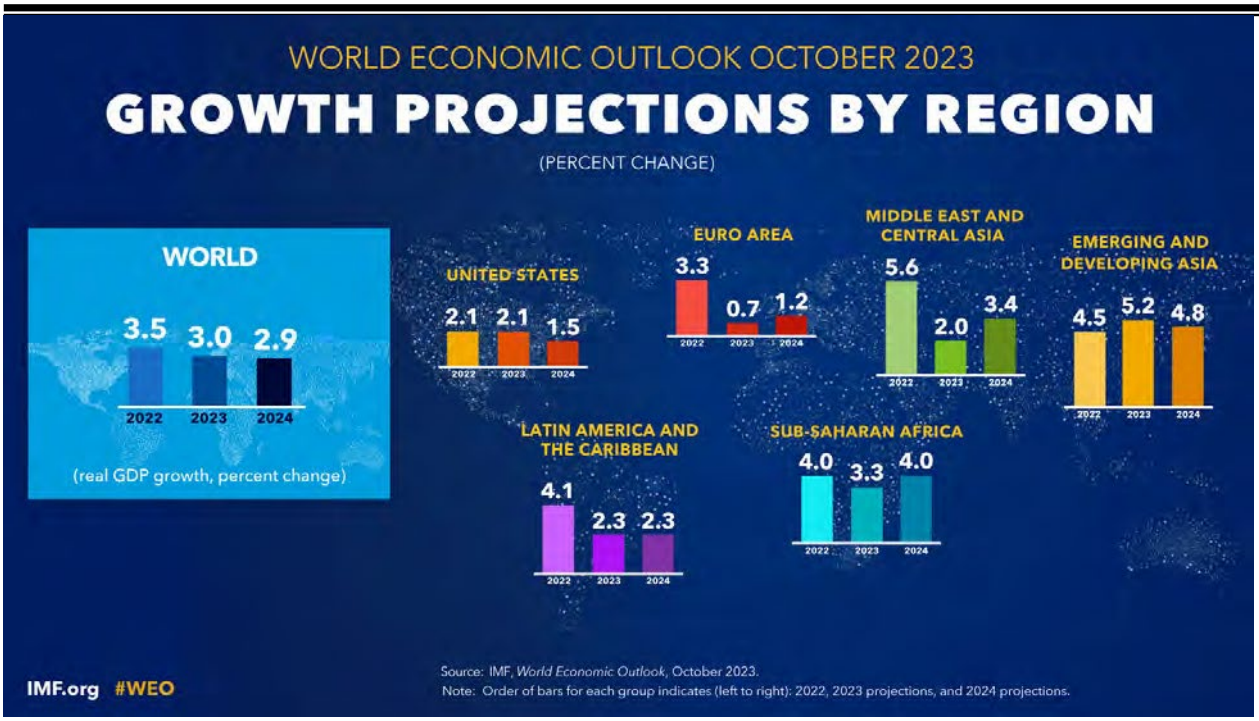
EXECUTIVE SUMMARY

The global recovery from the COVID-19 pandemic and Russia's invasion of Ukraine remains slow and uneven. Despite economic resilience earlier this year, with a reopening rebound and progress in reducing inflation from last year's peaks, it is too soon to take comfort. Economic activity still falls short of its pre-pandemic path, especially in emerging markets and developing economies, and there are widening divergences among regions. Several forces are holding back the recovery. Some reflect the long-term consequences of the pandemic, the war in Ukraine, and increasing geo-economic fragmentation. Others are more cyclical in nature, including the effects of monetary policy tightening necessary to reduce inflation, withdrawal of fiscal support amid high debt, and extreme weather events.

Global growth is forecast to slow from 3.5 percent in 2022 to 3.0 percent in 2023 and 2.9 percent in 2024. The projections remain below the historical (2000–19) average of 3.8 percent, and the forecast for 2024 is down by 0.1 percentage point from the July 2023 Update to the World Economic Outlook. For advanced economies, the expected slowdown is from 2.6 percent in 2022 to 1.5 percent in 2023 and 1.4 percent in 2024, amid stronger-than-expected US momentum but weaker-than-expected growth in the euro area. Emerging market and developing economies are projected to have growth modestly decline, from 4.1 percent in 2022 to 4.0 percent in both 2023 and 2024, with a down-ward revision of 0.1 percentage point in 2024, reflecting the property sector crisis in China. Forecasts for global growth over the medium term, at 3.1 percent, are at their lowest in decades, and prospects for countries to catch up to higher living standards are weak. Global inflation is forecast to decline steadily, from 8.7 percent in 2022 to 6.9 percent in 2023 and 5.8 percent in 2024. But the forecasts for 2023 and 2024 are revised up by 0.1 percentage point and 0.6 percentage point, respectively, and inflation is not expected to return to target until 2025 in most cases.

Risks to the outlook are more balanced than they were six months ago, on account of the resolution of US debt ceiling tensions and Swiss and US authorities' having acted decisively to contain financial turbulence. The likelihood of a hard landing has receded, but the balance of risks to global growth remains tilted to the downside. China's property sector crisis could deepen, with global spillovers, particularly for commodity exporters. Elsewhere, as Chapter 2 explains, near-term inflation expectations have risen and could contribute—along with tight labor markets—to core inflation pressures persisting and requiring higher policy rates than expected. More climate and geopolitical shocks could cause additional food and energy price spikes. As Chapter 3 explains, intensifying geo-economic fragmentation could constrain the flow of commodities across markets, causing additional price volatility and complicating the green transition. Amid rising debt-service costs, more than half of low-income developing countries are in or at high risk of debt distress.

Economic Outlook



Asia and Pacific Region

The outlook for Asian economies, which affect Guam's economy, mainly through tourism and through secondary effects on intertwined activities among various countries are provided in items extracted from the IMF World Economic Outlook, October 2023, are as follow:

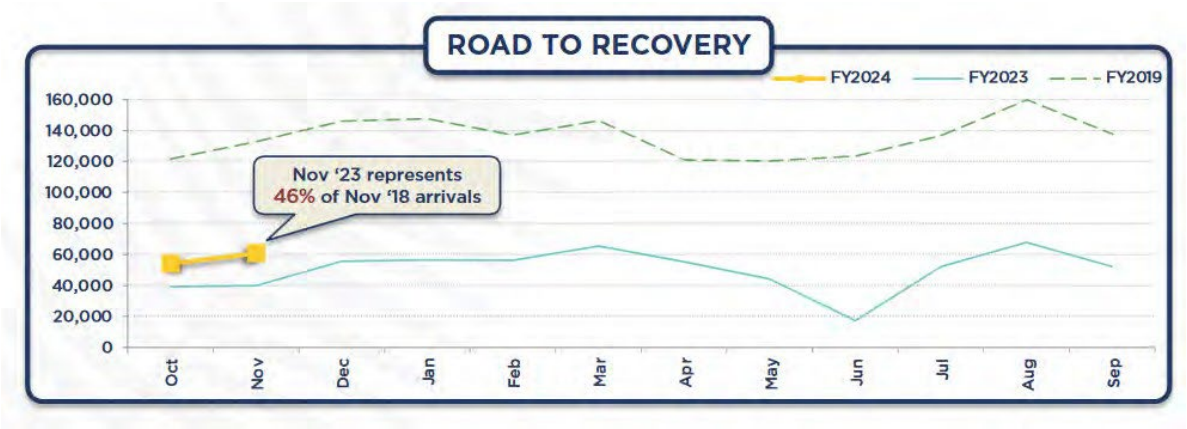
World Output – Real GDP (Annual percent change):

		Projections	
	2022	2023	2024
Advanced Economies	2.6	1.5	1.4
United States	2.1	2.1	1.5
Japan	1.0	2.0	1.0
China	3.0	5.0	4.2
South Korea	2.6	1.4	2.2

Tourism

Tourism expenditures represented the largest share of the sources of funds flowing into the Guam economy pre-pandemic. Tourism expenditures impact revenue and employment primarily in sectors that tourism supports, including transportation, services, retail trade, and indirect effects economy wide. International travel and tourism in Guam are far more greatly affected than most larger economies, as Guam has a large component of its economy related to international tourism.

Economic Outlook



% Market Mix	Origin	2019	2022	2023	% vs 2019
55.6%	Korea	71,543	36,250	40,963	**57%**
27.6%	Japan	67,794	6,039	20,338	**30%**
9.7%	US/Hawaii	7,135	7,394	7,120	**100%**
1.7%	Philippines	1,659	1,438	1,226	**74%**
0.2%	Taiwan	2,004	135	164	**8%**
0.3%	China	585	85	250	**43%**
0.1%	Hong Kong	210	69	86	**41%**

The resumption of significant international travel began with the easing of government travel and quarantine requirements in both the origin and destinations for travel. The history of Japanese tourist arrivals shows a pattern of repeated recovery after downturns due to natural or other adverse events. The pace of such a recovery has been considerable in the short time since Korea and Japan's travel restrictions were eased. Effective October 11, 2022, Japan began to allow entry of visa-free independent tourists and abolished the daily arrival cap. All travelers entering South Korea are no longer subject to quarantine, regardless of vaccination status (as of June 8, 2022). COVID-19 testing is no longer required before departure (as of September 3, 2022). Visitor arrivals from Korea were fewer than two percent of pre-pandemic levels as of March 2022; only nine months later, in December 2022, their arrivals increased dramatically and exceeded fifty percent of pre-pandemic levels for the respective months. Visitors from Japan were fewer than three percent of pre-pandemic levels in June 2022 and expanded to nearly nine percent over the six months ending in December 2022.

Continuing recovery has involved restoring flight schedules and reopening hotels, shops, restaurants, and attractions as demand further rebounds.

Economic Outlook

Chart 1 shows the total number of visitors to Guam and the Occupancy tax collections by year.

Chart 1 Tourism	CY 2019	CY 2020	CY 2021	CY 2022	CY 2023	Percent Change from 2022	Percent Change from 2019
Total Visitors	1,666,665	328,173	79,389	326,437	655,970	100.9%	-60.6%
Occupancy Tax Collected	$44,894,930	$21,105,264	$13,133,501	$19,279,849	$25,370,211	32.2%	-43.7%

The Guam Visitors Bureau's Road to Recovery chart above and the December 2023 arrivals chart show visitor arrivals continuing to increase in fiscal year 2023 and the first quarter of fiscal year 2024. The Bureau's arrival forecast for fiscal year 2024 below shows expected increases during the coming year, likely continuing through 2025 and beyond.

Construction

Construction projects proceed through several phases: planning, funding, contracting or permitting, and construction and payment. Statistics are provided for the funding, often appropriations, bond or private financing, and contracting and permitting. Funding authorizations provide an advance indicator of upcoming construction while building permits and contracts provide a more immediate leading indicator of construction that will likely commence soon. Employment reflects current construction activity. Expenditures reflect payments for construction work that has been completed. Figures on these items reflect the stages of the construction activity and are included in this report.

Economic Outlook

Construction is expected to increase substantially from FY 2023 in FY 2024 and FY 2025. The recent acceleration of construction activity was substantial in FY 2023. Construction activity has increased dramatically through FY 2023 as measured by employment, H2 workers, and gross receipts. Construction employment increased from 7,860 in September 2020 to 12,080 in September 2023. H2 workers increased from 1,527 in December 2020 to 5,065 in December 2023. As a measure of construction activity, Gross receipt taxes paid for construction increased from $48.2 million in FY 2020 to $70.7 million for FY 2023, an increase of 47% in three years.

Construction is expected to increase substantially from FY 2023 in FY 2024 and FY 2025. The recent acceleration of construction activity was substantial in FY 2023. Construction activity has increased dramatically through FY 2023 as measured by employment, H2 workers, and gross receipts. Construction employment increased from 7,860 in September 2020 to 12,080 in September 2023. H2 workers increased from 1,527 in December 2020 to 5,065 in December 2023. As a measure of construction activity, Gross receipt taxes paid for construction increased from $48.2 million in FY 2020 to $70.7 million for FY 2023, an increase of 47% in three years.

The total value of building permits for civilian projects and Department of Defense (DOD) construction contracts increased substantially in 2021 through 2022 compared to prior years (Chart 2). High levels of previously permitted and contracted projects are underway. Building permits and DOD construction contracts are solid indicators of plans backed by financial commitments to commence construction soon.

Federal appropriations for military construction projects, Government of Guam bond or other financing commitments, and announcements of private sector projects are strong indicators of future construction. Federal DOD construction appropriations have increased from $248.7 million in FY 2017 to $523.0 million in FY 2023 and just over $1.0 Billion in FY 2024. (Chart 3). The list of DOD projects currently under construction is also substantial at over $2.2 billion project cost, with over $1.1 billion in work remaining to be completed (Chart 4).

The new American Grocery store Maite location is nearing its final stages of construction.

Economic Outlook

The construction of the new Village of Donki outlet in Tamuning is nearing completion.

Several major civilian projects are ongoing. These include:

- Japanese retail store Don Quijote is planning to open a sizeable retail discount store known as Don Don Donki. The property lease was registered at the Guam Department of Land Management on March 20, 2019, at a lot near the corner of Airport Road and Marine Corps Drive, which the Triple J Auto Group occupied. As of January 2023, construction is well underway. Don Don Donki is affiliated with Don Quijote, Japan's biggest discount store. The Guam location's retail space will be about 160,000 square feet, with grocery sales and a food court with in-house restaurants. The retail store plans to open later in 2024; employee recruitment activities including a job fair have taken place in January 2024.

- Infrastructure projects for Guam's roads, drinking water system, and internet access has been provided for in the $193 million federal $1.2 trillion bipartisan infrastructure law. A release from Congressman San Nicolas indicated that "Guam can expect a permanent 2.5 times the annual increase in our highway funds to $45 million and access to billions in public transportation grants, and grants to expand and harden our broadband and water infrastructure."

- Financial Services Branch Upgrades and Additions are shown below in photos.

Bank of Guam reopens Tamuning branch in the ITC Building on August 18, 2023, unveiling its *Branch of the Future* design.

MOODY'S UPGRADES GOVERNMENT OF GUAM BONDS TO INVESTMENT GRADE

The January 26, 2024 press release states:

Moody's Investor Service to upgrade the Government of Guam's issuer rating to an investment grade rate of Baa3 from Ba1 with a Stable outlook.

This upgrade to investment grade Baa3 with a positive outlook applies to the GovGuam General Obligation (GO) bonds, Hotel Occupancy Tax (HOT) bonds, and the Business Privilege Tax (BPT) bonds. Moody's also upgraded the GovGuam Certificates of Participation (COP) rating to Ba1 from Ba2. An investment grade rating for the government means Guam will now see even lower bond financing interest rates for future issues as additional investors–who can only purchase investment grade bonds–will now be able to participate and compete for Government of Guam bonds.

"This is a tremendous accomplishment for the Government of Guam as it has been 22 years since it had been rated as an investment grade rating," said Governor Leon Guerrero.

The release by Moody's attributes the upgrade to "the significant improvement in the government's financial position bolstered by federal government support and substantial military construction activity, despite depressed tourism levels."

GOVERNMENT OF GUAM FY 2022 SSBCI FUNDING, 2023& 2024 INITIATIVES
(Provided by the Guam Economic Development Authority)

State Small Business Credit Initiative (SSBCI) - $58.2 Million allocated for Guam

The American Rescue Plan Act of 2021 reauthorizes and expands the State Small Business Credit Initiative (SSBCI) Program, which was originally established in 2010. SSBCI will provide a combined $10 billion to states, the District of Columbia, territories, and Tribal governments to expand access to capital for small businesses emerging from the pandemic, build ecosystems of opportunity and entrepreneurship, and create high-quality jobs.

Guam, approved for up to $58.6 million in December 2022, will operate three programs: a $36 million loan guarantee program, a $12.4 million collateral support program, and a $10 million venture capital program. The first two programs are designed to incentivize lenders to make loans to borrowers. The equity/venture capital program will provide seed, early and growth stage equity investment in Guam- based startups.

GEDA Venture Capital Program funded by SSBCI Grant Funds
GEDA's PFD Division has been developing the corporate documents and forms to establish the first ever venture Capital Corporation, to be named the *Destinu Guahan Fund (DG Fund).* The State Small

Business Credit Initiative (SSBCI) is a $1.5 billion federal program administered by the U.S. Department of Treasury to strengthen state programs that provide access to capital. GEDA has received initial approval of $56 million to fund various programs to assist Guam in its economic recovery. In discussions with the US Treasury, and in light that this will be our first venture capital program, initial funding for the program will start at Ten Million dollars ($10,000,000.00) to assist startups and early state businesses especially in the field of agriculture, technology, medical and shipping. Should we need additional funding, we have the ability to amend the application for additional funding.

Guam Department of Corrections Leaseback Financing

The 36th Guam Legislature passed legislation, now Public Law 36-57 that pledges Five Million Dollars ($5,000,000.00) as an annual lease payment for the construction of a new and modernized Correctional Facility for up to thirty (30) years. The law further states that the first payment in FY2022 will come from the Federal reimbursement of the Earned Income Tax Credit with the following years payments to come from the General Fund. After all preliminary architectural and engineering studies are complete; GEDA expects to issue an RFP for a developer in FY 2023.

Guam Healthcare Campus Leaseback Financing

The 36th Guam Legislature passed legislation, now Public Law 36-56 that pledges Thirty-Five Million Dollars ($35,000,000.00) as an annual lease payment for the new Healthcare Facility for up to forty (40) years. The law further states that the first payment in FY 2022 will come from the Federal reimbursement of the Earned Income Tax Credit (EITC) with the following year's payments to come from the General Fund.

- 2 yr. CAPI approximately $531,084,038 PAR - $34 million DS
- 3 yr. CAPI approximately $521,557,026 PAR - $34 million DS

Simon Sanchez High School Leaseback Financing

P.L. 31-229, 32-120, 32-121 and 36-107 authorized the financing for the rehabilitation, construction, expansion and renovation of the Simon Sanchez High School. As part of the Government of Guam FY 2023 Appropriations act, the program now includes key amendments that will move this project forward to include the following:

1. Authorizes GEDA to issue Lease Revenue Bonds in an aggregate principal amount of $166.4 million to finance the design, renovation or construction and maintenance of the SSHS facility, with a max term of thirty (30) years and at a max interest rate of 7.50%;
2. Identifies the funding source for rental payments as any lawfully available moneys of the government of Guam; and
3. Establishes a maximum $16.4 million per year to cover annual rental payments to include, but is not limited to, debt service, insurance and maintenance costs and GEDA expenses).

Department of Land Management (DLM)

P.L. 29-135 authorized the financing for a new Land Resources Public Facility and for the purchase of collateral equipment in an amount not to exceed $15.75 million. The Land Resources Building Public Facility will house the DLM, Chamorro Land Trust Commission, Guam Ancestral Lands Commission and Hagåtña Restoration and Redevelopment Authority. The subject site will be situated along West O'Brien Drive, between Father Duenas Avenue and Padre Palomo Street (vacant land across the Julale Center in Hagåtña).

Department of Public Works (DPW)

Public Law 31-233 authorizes the issuance of GARVEE bonds not to exceed the amount of $75 million for the purpose of implementing the capital improvement highway projects identified in the 2030 Guam Transportation Plan to improve Guam's highway infrastructure. DPW has been working to clear title issues.

- Second phase of the Route 17 Cross Island Road project with an estimated construction amount of $35 million
- Awaiting confirmation to include partial of Route 15 to the financing.

MARINE CORPS RELOCATION

The effect of the ongoing Marine Corps Relocation projects on Guam's economy in FY 2025 will primarily be associated with substantial increases in construction activity. Despite the acceleration in construction, delays related to labor shortages, the pandemic, and other causes, the realignment of forces to Guam was extended again to FY 2028, as noted in the Inspector General's Realignment report covering FY 2020. Those increases and impacts on the economy are interrelated and discussed in this report's construction and federal expenditures sections. This section focuses on realignment issues specifically.

The Record of Decision released in August 2015 substantially downsized and lengthened the time frame from the initial 2010 plan. The realignment cost is capped at $8.7 billion, of which about $3 billion will come from the Government of Japan. The plans were to relocate about 5,000 Marines and their dependents from Okinawa to Guam between 2020 and 2025. Delays to the plan continue. Marine Corps Base Camp Blaz will be home to approximately 5,000 Marines from III Marine Expeditionary Force who will begin relocating from Okinawa, Japan, by FY 2025, according to the December 21, 2021, Guam Realignment Report. The plan is summarized in an August 18, 2017, Pacific Daily News article. It includes "a Marine base on a military property at Naval Computer and Telecommunications Station; housing Marine families in homes to be built within the fence at Andersen; developing a live-fire training range complex on 338 acres of land at Andersen, adjacent to the wildlife refuge at Ritidian; and developing a hand-grenade training facility at Andersen South." It also includes many off-base infrastructure capital improvements. These include civilian water and wastewater projects, port projects, road improvements for Route 1, 3, and 11, and Agana bridge projects.

Public Law 111-84, "National Defense Authorization Act (NDAA) for Fiscal Year 2010," section 2835, October 28, 2009, designates the DoD Inspector General as the chairperson of the Interagency Coordination Group of Inspectors General for Guam Realignment. It requires an annual report due February 1 of each year. Sec. 2851 of the Fiscal Year 2021 NDAA changed the reporting requirement from annual to biennial, with the next report for FY2023 due February 1, 2024, and every second February 1 thereafter.

The Interagency Coordination Group of Inspectors General's Report for Guam Realignment Annual Report published January 27, 2022, contains five sections that identify the programs and operations funded with appropriated amounts or funds otherwise made available for military construction on Guam in FY 2021. These sections reported that:

1. The DoD obligated $1.4 billion and expended $448.3 million. Other Federal agencies obligated $8.8 million and expended $1.9 million. (Section 1)
2. The DoD identified 270 military construction projects and programs, totaling $447 million, with estimated completion costs of $1.9 billion. Other Federal agencies identified thirty-eight projects and programs that were directly associated with the realignment. Of the thirty-eight projects and programs, two projects and programs had incurred costs of $335,249 and three projects and programs had estimated completion costs of $9.4 million. (Section 2)
3. The Government of Japan provided revenues of $401.9 million and earned $26 million in interest associated with revenues. Also, the Government of Japan obligated $918.9 million and expended $268.6 million. (Section 3)
4. The DoD identified operating expenses of $115.2 million. Other Federal agencies identified operating expenses of $78,187. (Section 4)
5. The DoD identified a total of 222 contracts, grants, agreements, or other funding mechanisms, with obligations of $1.2 billion. Other Federal agencies identified a total of thirty-five contracts, grants, agreements, or other funding mechanisms, with obligations of $7.3 million. (Section 5)

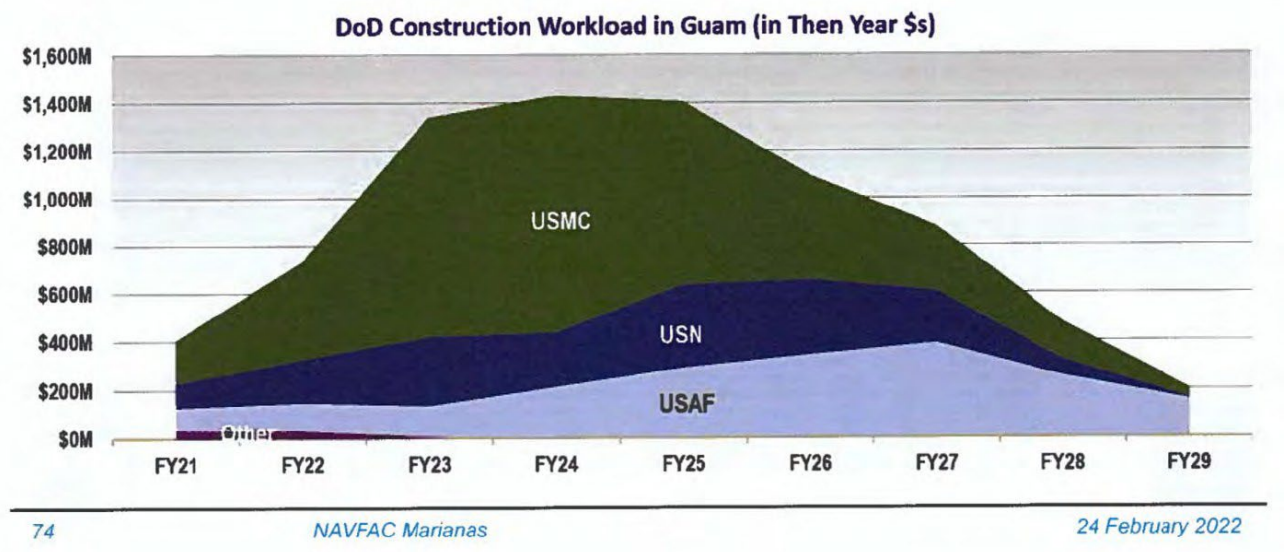
In FY 2017, DOD obligated $417.9 million and expended $152.7 million. For FY 2017 and FY 2018 combined, obligations exceeded expenditures by $452.1 million. That excess of new obligations further increased in FY 2019 as there were obligations of $309.4 million and expenditures of $210.3 million. The excess of obligations over expenditures increased again in FY 2020 by $164.2 million with obligations of $529.3 million and expenditures of $365.1 million. In FY 2021, DOD obligated $1.4 billion and expended $448.3 million, an excess of obligations over expenditures of $951.7 million. The five-year accumulation of obligated funds available to disperse as work progresses is $1.67 billion. The combined appropriations totaling over $1.3 billion for FY 2022 and FY 2023 add to the available funding. This indicates that a substantial amount of work to be contracted and in- process has accumulated and will almost certainly substantially accelerate the pace of realignment- related construction activity. The expenditures have increased from $152.7 million in FY2017 to $448.3 billion in FY2021.

The report shows the total relocation project cost from inception to September 30, 2021 including costs incurred by DOD, other federal agencies and the Government of Japan at $2.6 billion, about Thirty percent of the $8.7 billion project cost. Chart 4 details ongoing projects totaling over $1.1 billion and the value of remaining work. Chart 5 details projects that will be solicited for award in 2023 and 2024 which total $410.8 million.

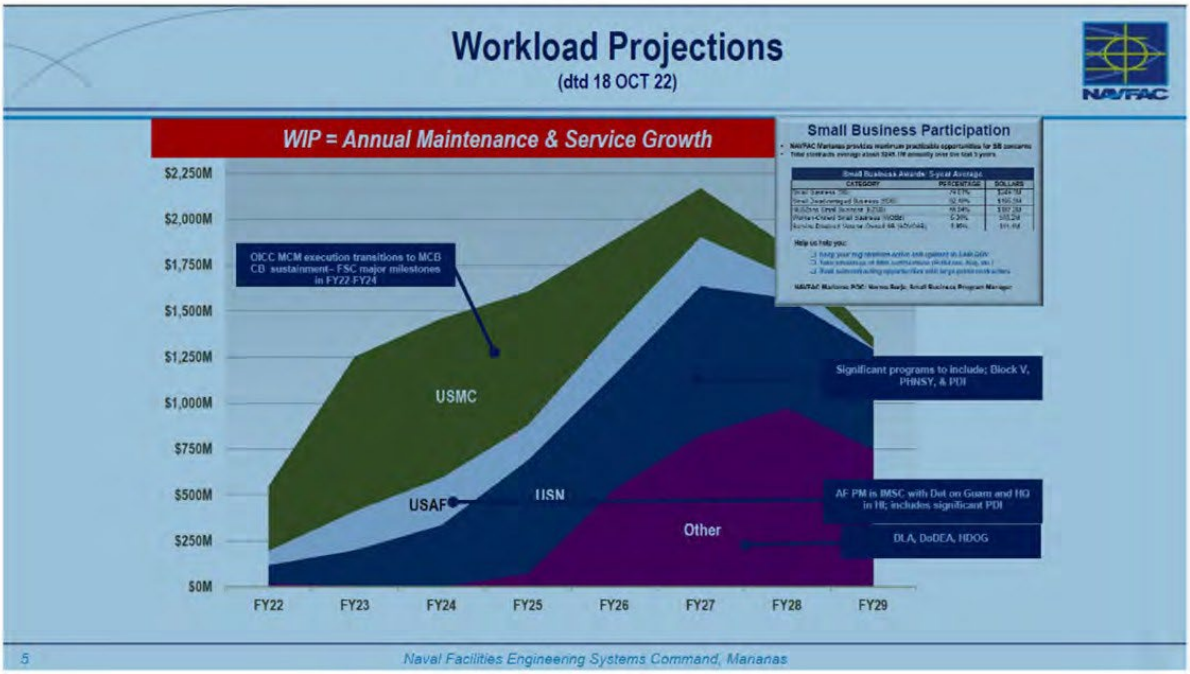
FY 2025 includes an appropriation of $238 million for military construction for the missile defense system in addition to the Marine Corps base project shown in DOD Table two.

The following two DOD workload charts show dramatically increasing construction amounts which include US Marine Corps, Navy and Air Force projects. The second chart shows increasing maintenance and service workloads.

Economic Outlook



NAVFAC Marianas 10 Nov 2022



DOD Personnel on Guam

DOD reports a total of 11,616 personnel on Guam, including active-duty servicemembers, reservists, and civilian employees (see **Table 1**).[33] The numbers do not include contractors or personnel deployed to Guam on temporary duty.

Table 1. DOD Personnel on Guam

DOD Component	Active Component	Reserve Component	Civilian	Total
Army	207	1,657	185	2,049
Air Force/Space Force	2,250	648	435	3,333
Navy	3,825	177	1,350	5,352
Marine Corps	135	0	9	144
Other DOD Components[a]	--	--	738	738
Total	**6,417**	**2,482**	**2,717**	**11,616**

Source: DOD, Defense Manpower Data Center. The table reflects data in the most recent report available, from March 2023. Updated data for the Army active component and Army reserve components were not available in the March 2023 report, so the data for those components included in this table are drawn from a prior report, September 2022. Reserve component totals reflect both National Guard and reserve component service members. Reports are available at https://dwp.dmdc.osd.mil/dwp/app/dod-data-reports/workforce-reports.

Note:

a. Other DOD Components include civilians employed by the Defense Logistics Agency, Defense Commissary Agency, Defense Health Agency, or the Defense Finance and Accounting Service.

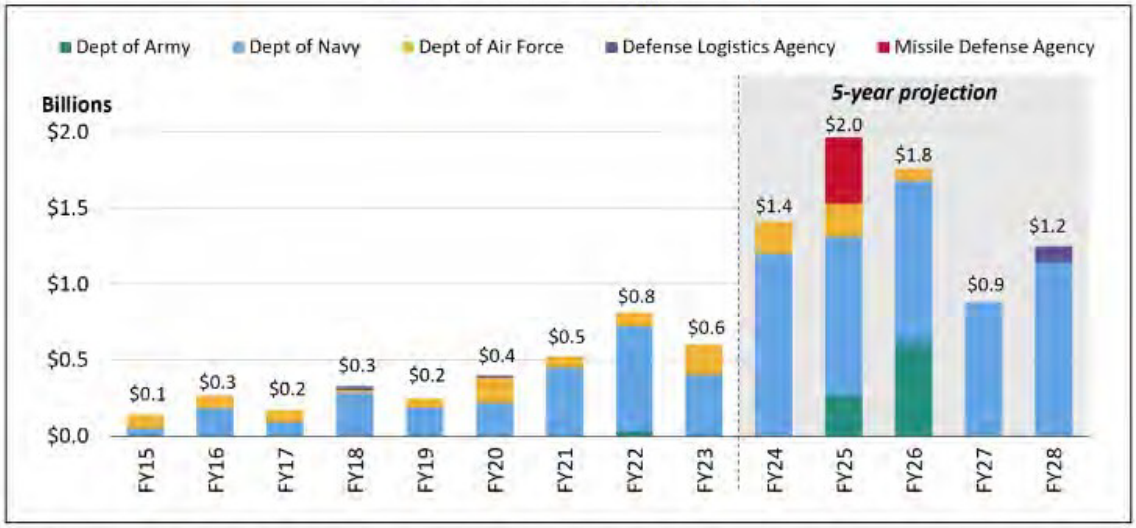
Source: Department of Defense Fiscal Year (FY) 2024 Budget Estimates, Missile Defense Agency Defense-Wide Justification Book Volume 2a of 5 Research, Development, Test & Evaluation, Defense-Wide, March 2023, see p. 2a 577. Also see Department of Defense Fiscal Year (FY) 2024 Budget Estimates, Missile Defense Agency Defense-Wide Justification Book Volume 2b of 2 Procurement, Defense-Wide, March 2023, see p. 2b 125. Military Construction (MILCON) data provided to CRS by the Under Secretary of Defense for Comptroller.

Notes: RDT&E = Research, Development, Test and Evaluation accounts; MILCON = Military Construction accounts. Budget data for FY2024 reflects the 2024 President's Budget Request. Budget data for 2025 to 2028 reflect the Future Years Defense Program (FYDP). MDA budget documents indicated that costs for RDT&E related to the Guam Missile Defense system will continue beyond FY2028.

Figure 3. Military Construction Funding for Guam and Northern Mariana Islands

FY2015 to FY2023 funding ($ billions)



Source: CRS graphic based on data from DOD Comptroller and CRS analysis.

Notes: Data for FY2015 through FY2023 reflect Military Construction (MILCON) appropriations of enacted budgets and budget execution adjustments as reported by the DOD Comptroller; FY2024 numbers reflect the President's Budget Request; FY2025 – FY2028 reflect Future Years Defense Program as reported by the DOD Comptroller; budget numbers exclude family housing construction, Government of Japan funding, and planning and design accounts.

In December 2023, Congress directed DOD to provide a report to the congressional defense committees on future construction requirements for Guam and the Northern Mariana Islands.[31]

MILCON Solicitation & Award Forecast

Updated June 1, 2023

THIS FORECAST IS FOR AWARENESS ONLY. SEE FEDBIZOPS FOR ACTUAL SOLICITATIONS.

All projects are subject to cancellation and changes to dates. Projects that have already been solicited and/or awarded do not appear on this list.

NOTE: For projects with Acquisition Method, "RFP - BVSS (Two Step)," the Forecasted Solicitation Date is for the 2nd phase. Phase 1 issue date will typically occur 2 - 3 months prior

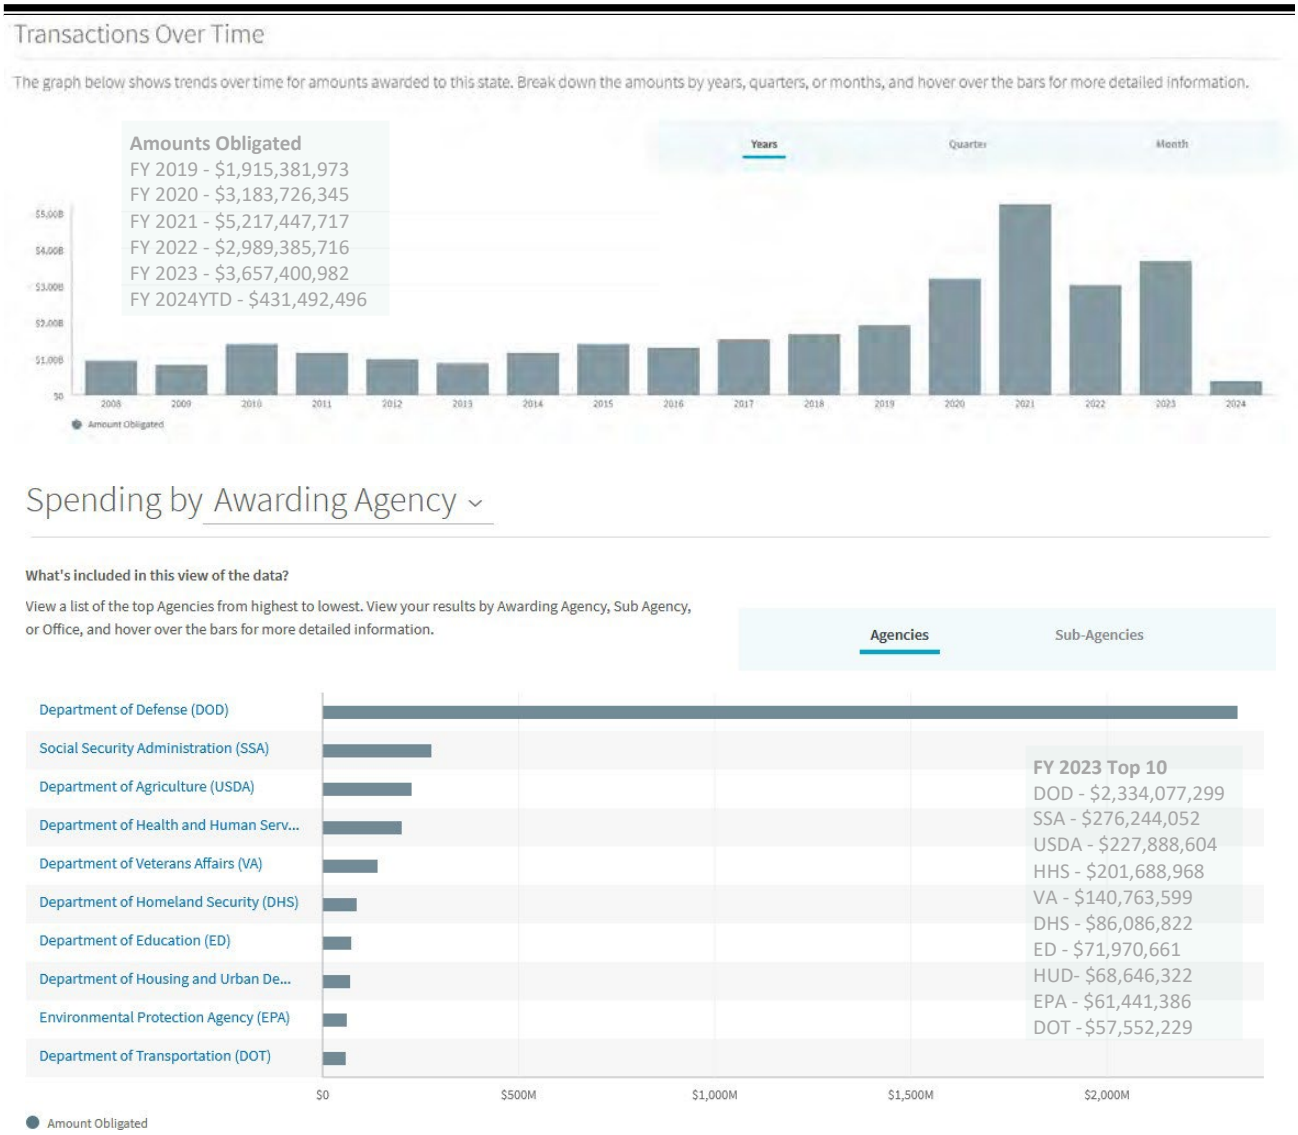
Federal Government Expenditures

Federal government expenditures now represent the largest source of funds flowing to Guam. Federal government expenditures in recent years were the second-largest source of funds, well behind tourism expenditures in recent years. The pandemic induced reduction in tourism, and an increase in Federal expenditures changed that. To provide perspective to the federal expenditures as a component of the economy, the total value of sales or revenue reported on Guam in the 2017 Economic Census was $8.47 billion. The Gross Domestic Product in 2021 was $6.1 billion.

Continuation of the full reimbursement of Government of Guam annual costs tied to the Earned Income Tax Credit and the Childcare Tax Credit, which has averaged $53 million and $28 million per year since 2017 will also provide continue to provide a boost to Government of Guam federal receipts and budgetary relief for the general fund.

Economic Outlook



The President will propose the Federal FY 2025 budget later in 2024, so the federal expenditure plan and amounts are yet to be available. The FY 2024 budget has not been passed except for the NDAA, and the federal Government is operating under a continuing resolution. This and the following items provide evidence that federal spending will continue to increase in the U.S. and Guam in 2024 and 2025.

A substantial component of federal expenditures in Guam is for non-discretionary payments, including Social Security and Federal Pensions. Those programs are committed to having increases effective January 1, 2024, which set the floor to continue these higher payment amounts in 2025 and will likely increase further with next year's adjustments. Federal General Schedule civilian employees will receive a 4.7% increase across the board plus an additional 0.5% locality pay adjustment, to total a 5.2% average increase in 2024. The latest COLA is 3.2 percent for Social Security benefits, payable in January 2024. The 2023 federal retiree cost-of-living adjustment (COLA) will be 3.2% for those under the Civil Service

Retirement System (CSRS) and 2.2 percent for those under the Federal Employees Retirement System (FERS). Military pay will increase by 5.2% in 2024. The military pay tables apply to active Navy, Marines, Army, Air Force, Coast Guard, and Space Force members. The following graph from USASpending.gov illustrates the spending by awarding agencies for fiscal year 2023. These expenditures are expected to continue and increase in the years ahead. The expenditure categories reported in USASpending.gov do not include military or civilian personnel costs, which will substantially add to the total. Defense personnel costs in Guam, including Active Duty and Civilian employment, totaled $781.5 million in FY2021.

The FY 2024 National Defense Authorization Act requires an assessment and recommendations for Guam operations. The results of this assessment could increase federal funding for Guam or other changes in operations and funding.

SEC. 1077. ASSESSMENT AND RECOMMENDATIONS RELATING TO INFRASTRUCTURE, CAPACITY, RESOURCES, AND PERSONNEL ON GUAM.
(a) ASSESSMENT.—The Secretary of Defense, in coordination with the Commander of United States Indo-Pacific Command, shall assess the infrastructure, capacity, resource, and personnel requirements for Guam during fiscal years 2024 through 2029 to meet United States strategic objectives.

(a) ASSESSMENT.—The Secretary of Defense, in coordination with the Commander of United States Indo-Pacific Command, shall assess the infrastructure, capacity, resource, and personnel requirements for Guam during fiscal years 2024 through 2029 to meet United States strategic objectives.
(b) ELEMENTS.-The assessment under subsection (a) shall include the following elements:
(1) An appraisal of the potential role Guam could play as a key logistics and operational hub for the United States military in the Indo-Pacific region.
(2) An assessment of whether current Department of Defense infrastructure, capacity, resources, and personnel in Guam are sufficient to meet the expected demands during relevant operations and contingency scenarios.
(3) An assessment of the adequacy of civilian infrastructure in Guam for supporting the requirements of United States Indo-Pacific Command, including—
(A) the resilience of such infrastructure in the event of a natural disaster; and
(B) the vulnerability of such infrastructure to cyber threats.
(4) A plan, including timelines and associated estimated costs, to improve Department of Defense infrastructure, capacity, resources, and personnel in Guam during fiscal years 2024 through 2029 to meet United States Indo-Pacific Command strategic objectives, including the need for Department of Defense civilian recruiting and retention programs, such as cost-of-living adjustments, initiatives for dealing with any shortages of civilian employees, and programs to improve quality-of-life for personnel assigned to Guam.
(5) An assessment of the implementation of Joint Task Force Micronesia.
(6) Any other matters determined relevant by the Secretary.
(c) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report including the results of the assessment required under subsection (a).

Real Estate

Guam real estate sales Volume (Mil.) increased by 17.7 percent from the fourth quarter of 2022 to the fourth quarter of 2023, while the number of transactions declined by 18.7 according to figures provided in Cornerstone Valuation Guam, Inc.'. The sales changes can be attributed to rising prices and dramatic interest rate increases making housing purchases unaffordable for most residents. While the number of sales declined, the prices continued to rise at a slower pace due to pent-up demand and limited inventory.

Resident Expenditures

Resident expenditures are about 35 percent of total direct spending in the economy, according to the 2017 Guam Economic Census, and their incomes are heavily dependent on inflows from external sources. Hence, as those flows increase or decrease, so should their expenditures. They are affected indirectly by changes in employment associated with additional business and directly as recipients of increased federal pensions and Social Security payments. Wage earnings are the primary income source for most people. Other sources of income also represent a sizeable component of disposable income. These include federal and local government pensions, social security, rental, interest, investment income, and transfer payments for food, housing, and medical services.

The U.S. Department of Agriculture (USDA) Food and Nutrition Service provided notice of benefit amounts in 2024 for the Supplemental Nutrition Assistance (SNAP) program. SNAP benefits are adjusted annually based on the rate of inflation. The announced increase in payments for 2024, which started Oct. 1, 2023, was about 3.6 percent. Maximum allotments, deductions, and income eligibility amounts also increased for 2024. As of June 2021, the number of Guam residents participating in SNAP was 39,055 in 13,938 households.

Employment and average weekly hours paid have continued their recovery from the pandemic lows. Employment numbers began a moderate rebound in December 2020, with the recovery continuing. Total employment as of September 2023 remains 1,020 jobs below the pre-pandemic employment of 67,580 in December 2019 despite an increase of 4,730 jobs in the construction industry the majority of which were foreign workers under the H-2 visa category. Preliminary Private Sector employment figures increased by 1,840 in the quarter ending September 2023 and were up by 1,980 jobs over the year. Average weekly hours paid increased from 36.8 to 38.2, and average weekly earnings increased from $621.98 to $690.56 or 11.0 percent over the year.

Unemployment rates in Guam have followed the direction of those of the U.S. and Hawaii; however, Guam unemployment rates have been more severely impacted by the pandemic than the U.S. and Hawaii as Guam has a more significant share of international tourism relative to the size of the economy. The Guam unemployment rate increased from 3.6 percent in September 2019 to 19.4 percent in December 2020. The unemployment rate has fallen in the last ten of the previous eleven quarters, dropping to 4.1 percent in September 2023. Income is the primary determinant of consumer spending, but financial and real estate asset value changes and the confidence level in the economy may also affect consumer expenditures.

[1] Re-obligation of funds from closed FY2004 grant projects ($286,657)

Table 4-02.1 . Compact Impact Capital Improvement Projects (P.L. 104-134), Guam: FY 1999 to FY 2003

Grant Year	Agency	Project	Total Grant	
FY 2003	DOE	School Repair and Equipment		700,000
	DOE	Match for FEMA Category E Projects		300,000
	DPW	School Buses		1,500,000
	GFD	Fire Trucks (project combined with 2002 funds)		638,000
	GMHA	Facility Repair and Equipment		1,355,000
	GPD	Police Vehicles		1,080,000
			Subtotal	$5,573,000
FY 2002	DPW	Elevator and Air Conditioners at DMHSA		200,000
	DPW	School Buses		1,300,000
	DPW	Agana Heights Gym Resurfacing		28,750
	DPW	Road Projects		2,749,000
	DPW	DOE Water Tanks		1,000,000
	DPW	Tumon Police Precinct Supplement		90,000
	GFD	Ambulances		781,000
	GFD	Fire Trucks		112,000
	DOC	Fire Alarm and Sprinkler System		119,250
			Subtotal	$6,380,000
FY 2001	DPW	Road Improvement		6,800,000
	DPW	Library Renovation and Repair		100,000
	GFD	Emergency Vehicle Repair		75,000
	GFD	Ambulances		219,000
	GMH	Equipment Radiology/Orthopedic		1,125,000
	GWA	Water Meters		750,000
	GWA	Waterline Replacement		500,000
			Subtotal	$9,569,000
FY 2000	DPW	Road Projects Phase 1		1,950,000
	GMH	Equipment		2,000,000
	GMH	Equipment Radiology/Orthopedic		575,000
	GWA	Vehicle and Equipment Project		1,455,000
	GWA	Water Project Tract 10432 and 10433		850,000
	GWA	Waterline Extension Capital Equipment		500,000
	GWA	Pipes and Valves		250,000
			Subtotal	$7,580,000
FY 1999	DOA	Financial Management System Phase II		2,150,000
	DOA/BOP	Y2K Compliance Project		350,000
	DPW	Windward Hills Waterline		700,000
	DPW	Road Projects		510,000
	GFD	Ambulances		750,000
	GWA	Vehicle and Equipment Project		45,000
	KGTF	Tower Project		75,000
			Subtotal	$4,580,000

Source: Catholic Education Office; Department of Defense Education Activity (DoDEA); Other Private Schools and Guam Department of Education, Government of Guam

1/ For SY2018-SY2019, Our Lady of Mount Carmel enrollment numbers were not available.
Catholic Schools includes Dominican Child Development School; Infant of Prague Nursery & Kindergarten; Maria Artero; Mercy Heights; Bishop Baumgartner; Dominican Catholic School; Our Lady of Mount Carmel; Saint Anthony; Santa Barbara; Saint Francis; San Vicente; Academy of Our Lady; Father Duenas; and Notre Dame.

2/ Department of Defense Education Activity

3/ Other Private Schools includes Asmuyao Community School, Evangelical Christian Academy, Guam Adventist Academy, Harvest Christian Academy, Saint Paul Christian School, St. John's School, Temple Baptist Christian School, and Southern Christian Academy. Southern Christian Academy renamed to Career Tech High Academy Charter School and opened in SY2020-2021.

4/ Includes Guahan Academy Charter School, SIFA Learning Academy Charter School, Career Tech High Academy, iLearn Academy Charter School, Business and Technology Academy Charter School (BTACS), Magalahen Hurao Chamoru Academy, and Mount Carmel Academy Charter School.

5/ Per pupil cost (General Fund only).

6/ Cohort Graduation Rate: Based on the capability of tracking the high school experience of each member of the ninth grade cohort. After four years of high school, each member of the ninth grade cohort is identified as either a) a graduate; b) still in school; c) a transfer d) a dropout; or e) a withdrawal due to illness or death. A four year cohort graduation rate may then be calculated by dividing the number of cohort graduates after four years of high school by the total 9th grade cohort less the number of transfers and the number of students that withdrew during the four years due to illness or death.

7/ Catholic Schools graduate totals were not available for SY2019-2020. DODEA number of graduates was not available for SY2018-2019 and SY2019-2020. Private school graduates includes Catholic Schools, DoDEA, and Other Private School graduates.

8/ Includes Guam Department of Education and Charter Schools.

Note: Guahan Charter Academy opened doors on SY 2013-2014
iLearn Academy Charter School was established in January 2015
Career Tech High Academy Charter School opened in SY 2020-2021
Does not include fall enrollment data for St. Paul Christian School for SY2020-2021

Source: Guam Bankers Association

1/ Excludes Credit Union Banking Institutions.

2/ Consumer Loans include Credit cards, personal loans, automobile loans etc.

3/ Commercial Loans include both commercial real estate loans, e., commerical mortgages, other business loans and loans to the government, which are not accounted for elsewhere. Commercial loans aalso include loans sold to third parties (in whole or in part).
Commercial mortgage lonas are for dwellings with four or more housing units, e.g., quad-plexes or larger.

4/ Real Estate Loans includes both loans retained on the institution's books and loans that are sold to third parties.

Note: "Other" loans, which are primarily the temporary loans provided to good customers when they accidently and infrequently overdraw their depository accounts, and are not reported to the Bankers Association; that data would be available in reports provided to the FDIC (for the seven insured banks) and to the Guam Banking Commission at the Department of Revenue and Taxation.

Includes mortgage loans sold to the Federal Home Loan Mortgage Corporation "Freddie Mac" or the Federal National Mortgage Association "Fannie Mae", as well as commerical loans that have been sold, in whole or in part to other banks, but are still serviced by Guam banks.

Aggregated data are provided by the following banks: Allied Banking Corp., ANZ Bank, Bank of Guam, Bank of Hawaii, BankPacific, CitiBank, First Commercial Bank, First Hawaiian Bank, Citizens Security Bank, Metro Bank & Trust Co., and Oceanic Bank.

Note: Zero means "none reported"

1 *Class I diseases requiring reporting to Department of Public Health and Social Services within four hours of clinical diagnosis.*

2 *Influenza diagnoses by age group may be found on the Guam Communicable Disease Dashboard.*

3 *Tuberculosis case reports undergo review and finalization by the Centers for Disease Control and Prevention. Data reported in this table reflect preliminary TB case counts.*

4 *Although not required by law, Department of Public Health and Social Services encourages continued reporting of these diseases and conditions of public health concern.*

5 *Syndromic surveillance identifies illness clusters early and informs the need for public health intervention before diagnoses are confirmed. On 06/23/2024, new syndromic surveillance case definitions were implemented to improve sensitivity and standardization of data reporting and analysis, therefore, counts are only available for 2024.*

Definitions:

1/ Child Abuse and Neglect: Any recent act or failure to act on the part of a parent or caretaker which results in death or serious physical or emotional sexual abuse or exploitation; or an act or failure to act which presents an imminent risk of serious harm.

2/ Physical Abuse Non-accidental injury of a child or punching, beating, kicking, biting, burning, shaking, otherwise harming a child.

3/ Emotional Abuse: Patterns of behavior that attacks a child's emotional development and sense of self worth; name calling, blaming, belittling, humiliation and rejection.

4/ Sexual Abuse: Any act or a sexual nature upon or with a child; Fondling a child's genitals, intercourse, incest, rape sodomy, adult showing his or her genital area (indecent exposure), exposure to pornographic materials and commerical exploitation through prostitution or the production or the of pornographic materials.

5/ Physical Neglect: Purposely failure to act on behalf of a child or to provide adequately for a child; refusual of or delay in seeking health care (medical attention), abandonment, expulsion from the home, inadequate supervision (lack of adult supervision); failure to enroll a child of mandatory school age school (educational neglect); or failure to attend to a special education need and chronic truancy.

6/ Emotional Neglect: Purposely not providing for a child's emotional needs; or marked inattention to the child's need for affection, refusal or failure to provide needed psychological care, spouse abuse/family violence in the child's presence, and permission of drug/alcohol use by the child.

Local Inmates are prisoners convicted locally (Superior Court of Guam) and are serving their sentence within the Department of Corrections (DOC).

Local detainees are prisoners being held in the Department of Corrections custody while they await the completion of their trial. This also includes those committed to DOC for probation and parole violations.

Federal holds are prisoners being held at the Department of Corrections at the contracted request of Immigration and the Marshals Service. They are immigrant holds, federal prisoners, and federal detainees.

Note: Data includes full-time and part-time employees who worked during or received pay for any part of the pay period which included the 12th day of the survey months. The Current Employment Survey (CES) counts any person employed by 2 or more establishments at each place of employment. Proprieters, self-employed unpaid family workers, domestic servants and military personnel are excluded.

1/ Days away from work include those that result in days away from work with or without job transfer or restriction. Excludes farms with fewer than 11 employees. Dashes indicate data not available.

2/ Median days away from work is the measure used to summarize the varying lengths of absences from work among the cases with days away from work. Half the cases involved more days and half involved less days than a specified median. Median days away from work are represented in actual values.

Note: Because of rounding, components may not add to totals. Dashes indicate data not available.

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately.
Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours;
for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported
reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error,
the more precise the estimate.

4/ Wage estimate is not available

5/ Employment estimate is not available

6/ This wage is equal to or greater than $115.00 per hour or $239,200 per year

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wage estimate is not available

5/ Employment estimate is not available

6/ This wage is equal to or greater than $115.00 per hour or $239,200 per year

Source: Occupational Employment Statistics, Bureau of Labor Statistics, Guam Department of Labor, Government of Guam

1/ Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

2/ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours for those occupations where there is not an hourly mean wage published, the annual wage has been directly reported survey data

3/ The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate.

4/ Wage estimate is not available

5/ Employment estimate is not available

6/ This wage is equal to or greater than $115.00 per hour or $239,200 per year

Commodity foods are made available by the U.S. Department of Agriculture to States under the TEAP. States provide the food to local agencies that have selected, usually food banks, which in turn, distribute the food to soup kitchens and food pantries that directly serve the public.
R=revised

Table 18-04 . Women, Infants and Children (WIC) Program, Guam: Fiscal Years 2019 to 2024

Description	FY2024	FY2023	FY2022	FY2021	FY2020	FY2019
Total Participation	6,307	5,849	5,334	4,836	6,216	6,534
Food Cost ($000)	6,648	5,837	4,887	3,570	4,876	5,574
Average Monthly Benefit per Person ($)	87.84	83.16	76.35	61.52	65.37	71.09

Source: Food and Nutrition Service, USDA. All data are subject to revision.
Note: Special Supplemental Nutrition Program for Women, Infants and Children Program (WIC)
The above costs include certifying participant eligibility, nutrition education, breastfeeding promotion, health care coordination and referral, drug abuse education, clinic operations, food delivery and warehousing, vendor monitoring, financial management program integrity, and systems development and operations.

Glossary

_A _

Age_Sex Structure

The age-sex structure is the composition of a population as determined by the number or proportion of males and females in each age category. The age_sex structure of a population is the cumulative result of past trends in fertility, mortality, and migration. Information on age_sex composition is essential for the description and analysis of many other types of demographic data. See also *Population Pyramid*.

Average

The average is the amount obtained by dividing the aggregate or total of a particular variable in the statistical universe by the number of units in that universe.

_ B _

Bankruptcy

A legal procedure for dealing with debt problems of individuals and businesses. These procedures are covered under Title 11 of the United States Code (Bankruptcy Code). Bankruptcy laws help people who can no longer pay their creditors get a fresh start by liquidating their assets to pay their debts, or be creating a repayment plan. Bankruptcy laws also protect troubled businesses and provide for orderly distributions to business creditors through reorganization or liquidation.

Birth

A birth (live birth) is the complete expulsion or extraction from is mother of a product of human conception, irrespective of the duration of the pregnancy, which, after such expulsion or extraction, breathes or shows any other evidence of life such as beating of the heart, pulsation of the umbilical cord or definite movement of the voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached.

Birth Rate

The birth rate is the number of live births per 1,000 population in a given year. It should not be confused with the growth rate. See also *Growth Rate*.

_ C _

Census

A census is the canvassing of a given area, resulting in an enumeration of the entire population and often the compilation of other demographic, social, and economic information pertaining to that population at a specific time. See also *Survey*.

Census Designated Place

Census designated places (CDP) are delineated for each decennial census to provide census data for concentrations of population, housing, and commercial structures that are identifiable by name but are not within an incorporated place. CDP boundaries usually are defined in cooperation with state, local, and tribal officials. CDP boundaries may change from one decennial census to the next with changes in the settlement pattern; a CDP with the same name as in an earlier census does not necessarily have the same boundary. All places in Guam are CDPs.

Child Abuse and Neglect	Child abuse and neglect is at a minimum any recent act or failure on the part of a parent or caretaker which results in death, serious physical or emotional harm, sexual abuse or exploitation; or an act or failure to act which presents an imminent risk of serious harm.
Childbearing Years	Childbearing years is the reproductive age span of women, assumed for statistical purposes to be 15_44 or 15_49 years of age.
Civilian	A civilian is a person who is not in the armed forces, including dependent members of the armed forces.
Civilian Labor Force	The civilian labor force is all persons 16 years and older employed for pay or profit plus those who are unemployed but seeking work. See also *Employed*, *Unemployed*, and *Not in Labor Force*.
Cohort	A group of people sharing a common temporal demographic experience who are observed through time. For example, the birth cohort of 1900 is the people born in that year.
Consumer Price Index	The Consumer Price Index (CPI) measures the rate at which the prices of consumer goods and services are changing over time. In practice, most CPIs are calculated as weighted averages of the percentage price changes for a specified set, or ‘‘basket’’, of consumer products, the weights reflecting their relative importance in household consumption in some period. A monthly or quarterly price index compiled and published by an official statistical agency that measures changes in the prices of consumption goods and services acquired or used by households.
Crude Birth Rate	See *Birth Rate*.
Crude Death Rate	See *Death Rate*.
Crude Divorce Rate	See *Divorce Rate*.

_ D _

Death	Death is the permanent loss of all evidence of life after a live birth has occurred.
Death Rate	The death rate is the number of deaths per 1,000 population in a given year.
Defined Benefit Plan	The Defined Benefit Plan provides for retirement, disability, and survivor benefits to members of the plan prior to October 1,1995 (all government employees are required to participate in the Defined Contribution Plan after October 1, 1995). Under the Defined Benefit Plan, retirement benefits are based on age and/or years of credited service and an average of the three (3) highest annual salaries received by a member during the years of credited service, or six thousand ($6,000), whichever is greater.

Defined Contribution Plan	Created by Public Law 23-42:3, this plan provides an individual account retirement system for any person who is employed by the Government of Guam. This plan is a single-employer pension and is the only plan for all new employees whose employment commences on or after October 1, 1995.
Density	Population density and housing unit density are computed by dividing the total population or number of housing units within a geographic entity by the land area of that entity measured in square kilometers or square miles. Density is expressed as both ‘‘people (or housing units) per square kilometer’’ and ‘‘people (or housing units) per square mile’’ of land area.
Dependency Ratio	The ratio of the economically dependent part of the population to the productive part; arbitrarily defined as the ratio of the elderly (ages 65 and older) plus the young (under age 15) to the population in the working ages (ages 15_64).
Disability Status	Disability status was derived from answers to two Census questionnaire items. The first asked about the existence of the following long_lasting conditions: (a) blindness, deafness, or a severe vision or hearing impairment (sensory disability) and (b) a condition that substantially limits one or more basic physical activities, such as walking, climbing stairs, reaching, lifting, or carrying (physical disability) for the population 5 years old and over. Disability status was also determined by asking if the individual had a physical, mental, or emotional condition lasting 6 months or more that made it difficult to perform activities in four categories: (a) learning, remembering, or concentrating (mental disability); (b) dressing, bathing, or getting around inside the home (self_care disability); (c) going outside the home alone to shop or visit a doctor’s office (going outside the home disability); and (d) working at a job or business (employment disability). Individuals were classified as having a disability if any of the following three conditions were true: (1) they were 5 years old and over and had a response of ‘‘yes’’ to a sensory, physical, mental or self_care disability; (2) they were 16 years old and over and had a response of ‘‘yes’’ to going outside the home disability; or (3) they were 16 to 64 years old and had a response of ‘‘yes’’ to employment disability.
Divorce	A divorce is the legal termination of a marriage.
Divorce Rate	The divorce rate is the number of divorces per 1,000 population in a given year.

_ E _

Educational Attainment	The classification of people according to the level of education attained (the highest level of school completed or the highest degree received).
Election District	An election district is the official term for what is commonly called a "village"; there are the nineteen (19) election districts or villages on Guam.
Emotional Abuse	Patterns of behavior that attacks a person's emotional development and sense of self worth (name calling, blaming, belittling, terrorizing, isolation, humiliation, and rejection).
Emotional Neglect	Purposely not providing for a person's emotional needs (marked inattention to the person's need for affection, refusal or failure to provide needed psychological care)
Employed	All civilians 16 years old and over were classified as employed if they were ''at work'' or ''with a job but not at work'' during the reference week, including temporarily absent. See also *Unemployed* and *Not in Labor Force*.
Ethnic Origin	Ethnic origin refers to an individual's origin or descent, ''roots,'' heritage, or place where the individual or his/her parents or ancestors were born. Respondents reported their ethnic group regardless of the number of generations removed from their place or origin. Responses to the ethnic origin or race question reflected the groups with which respondents identified and not necessarily the degree of attachment or association the individual had with the particular group(s). See also *Race*.
Ethnicity	The cultural practices, language, cuisine, and traditions — not biological or physical differences — used to distinguish groups of people.

_ F _

Family	A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householder's family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.
Family Income	In compiling statistics on family income, the incomes of all members 15 years old and over related to the householder are summed and treated as a single amount.

Fertility

The data on fertility (also referred to as ‘‘children ever born’’) were derived from the answers to the Census question which asked women 15 years old and over—regardless of their marital status—how many babies they have ever had. Stillbirths, stepchildren, and adopted children were excluded from the number of children ever born. Data are most frequently presented in terms of the aggregate number of children ever born to women in specified population groups and in terms of the rate per 1,000 women.

Fetal Death

A fetal death is a death prior to the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of the pregnancy; the death is indicated the fact that after such expulsion or extraction the fetus does not breathe or show any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.

Freely Associated States

The Freely Associated States (FAS) consists of the Federated States of Micronesia (FSM), Republic of the Marshall Islands (RMI), and the Republic of Palau. Formerly a part of the Trust Territory of the Pacific Islands (TTPI), they became independent nations in free association with the United States.

_ G _

General Fertility Rate

The general fertility rate (GFR) is the number of live births per 1,000 women ages 15_44 or 15_49 years in a given year.

Gross Domestic Product

The gross domestic product (GDP) is the total market value of all the goods and services produced within a country in a given period of time.

Gross Reproduction Rate

The gross reproductive rate (GRR) is the average number of daughters that would be born alive to a woman (or group of women) during her lifetime if she passed through her childbearing years conforming to the age_specific fertility rates of a given year. See also *Net Reproduction Rate* and *Total Fertility Rate*.

Group Quarters

Group quarters is used to describe places in which people reside that are not considered “housing units,” such as prisons, long-term care hospitals, military barracks, and dormitories. The group quarters population includes all people not living in households. Two general categories of people in group quarters are recognized:

(1) the institutionalized population which includes people under formally authorized, supervised care or custody in institutions at the time of enumeration. Such people are classified as ‘‘patients or inmates’’ of an institution regardless of the availability of nursing or medical care, the length of stay, or the number of people in the institution. Generally, the institutionalized population is restricted to the institutional buildings and grounds (or must have passes or escorts to leave) and thus have limited interaction with the surrounding community. Also, they are

generally under the care of trained staff who have responsibility for their safekeeping and supervision, and

(2) the noninstitutionalized population which includes people who live in group quarters other than institutions. It also includes staff residing in military and nonmilitary group quarters on institutional grounds who provide formally authorized, supervised care or custody for the institutionalized population.

Growth Rate

The growth rate is a general expression of the number of people added to (or subtracted from) a population in a year due to natural increase and net migration expressed as a percentage of the population at the beginning of the time period.

_ H _

Homeless

According to the Stewart B. McKinney Act, 42 U.S.C. § 11301, et seq. (1994), a person is considered homeless who "lacks a fixed, regular, and adequate night_time residence and; and... has a primary night time residency that is: (A) a supervised publicly or privately operated shelter designed to provide temporary living accommodations... (B) an institution that provides a temporary residence for individuals intended to be institutionalized, or (C) a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings." 42 U.S.C. § 11302(a) The term "'homeless individual' does not include any individual imprisoned or otherwise detained pursuant to an Act of Congress or a state law." 42 U.S.C. § 11302(c).

Household

A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) Separate living quarters are those in which the occupants live separately from any other people in the building and that have direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

Household Income

Household income is the sum of all incomes of all members 15 years old and over of a household which are treated as a single amount.

Housing Unit

A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. See also *Tenure*.

HTSUSA

Acronym for *Harmonized Tariff Schedule for the United States Annotated.* The HTSUSA provides the applicable tariff rates and statistical categories for all merchandise imported into the United States. It is based on the international Harmonized System, the global system of nomenclature that is used to describe most world trade in goods.

_ I _

Income	Income is the wages or revenue accruing from labor, business enterprise, or investments. See also *Household Income*, *Family Income*, *Individual Income*, *Mean Income*, *Median Income*, and *Per Capital Income*.
Individual Income	Income for individuals is obtained by summing the total income for each person.
Immigration	Immigration is the process of entering one country from another to take up permanent or semi-permanent residence.
Industry	Industry relates to the kind of business conducted by a person's employing organization described by its economic product or activity.
Infant Death	An infant death is a death occurring to an individual of less than one year of age
Infant Mortality Rate	The infant mortality rate is the number of deaths of infants under one year of age per 1,000 live births in a given year.

_ L _

Labor Force	The labor force is all persons employed for pay or profit plus those who are unemployed but seeking work. See also *Employed*, *Unemployed*, and *Not in Labor Force*.
Life Expectancy	Life expectancy is the average number of additional years a person could expect to live if current mortality trends were to continue for the rest of that person's life. It is most commonly cited as life expectancy at birth.

_ M _

Marriage	A marriage is a social institution involving legal or religious sanction whereby a man and a woman are joined together for the purpose of founding a family unit (traditional).
Maternal Death	A maternal death is a death wherein the physician has designated a maternal condition as the underlying cause of death.
Mean	This measure represents an arithmetic average of a set of values. It is derived by dividing the sum (or aggregate) of a group of numerical items by the total number of items in that group.
Mean Age	The mathematical average age of all the members of a population.
Mean Income	Mean income is the amount obtained by dividing the aggregate income of a particular statistical universe by the number of units in that universe. Thus, mean household income is obtained by dividing total household income by the total number of households.

Median	The median divides a distribution into two equal parts: one_half of the cases falling below the median income and one_half above the median. This measure represents the middle value (if n is odd) or the average of the two middle values (if n is even) in an ordered list of n data values. The median divides the total frequency distribution into two equal parts: one_half of the cases falling below the median and one_half above the median.
Median Age	The age that divides a population into two numerically equal groups; that is, half the people are younger than this age and half are older.
Median Income	The median divides the income distribution into two equal parts: one_half of the cases falling below the median income and one_half above the median. For households and families, the median income is based on the distribution of the total number of households and families including those with no income.
Migration	The movement of people across a specified boundary for the purpose of establishing a new or semi-permanent residence. Divided into international migration (migration between countries) and internal migration (migration within a country).
Minor Civil Division	Minor Civil Divisions (MCD) are the primary governmental or administrative divisions of a first_order subdivision. On Guam, they are Guam's election districts (villages). The MCDs in Guam are geographic subdivisions of the first_order subdivision(s) and are not governmental units.
Mortality	Mortality is a general term for deaths as a component of population change.

_ N _

Natality	Natality is a general term for births as a component of population change.
Natural Increase (Decrease)	The surplus (or deficit) of births over deaths in a population in a given time period.
Neonatal Death	A neonatal death is death occurring to an individual of less than 28 days of age.
Neonatal Mortality Rate	The neonatal mortality rate is the number of deaths of infants under 28 days of age in a given year per 1,000 live births in that year.
Net Migration	The net effect of immigration and emigration on an area's population in a given time period, expressed as an increase or decrease.

Net Migration Rate — The net effect of immigration and emigration on an area's population, expressed as an increase or decrease per 1,000 population of the area in a given year.

Net Reproduction Rate — The net reproduction rate (NRR) is the average number of daughters that would be born to a woman (or a group of women) if she passed through her lifetime conforming to the age_specific fertility and mortality rates of a given year. This rate is similar to the gross reproduction rate but takes into account that some women will die before completing their childbearing years. An NRR of one means that each generation of mothers is having exactly enough daughters to replace itself in the population. See also *Total Fertility Rate*.

Not in Labor Force — All people 16 years old and over who are not classified as members of the labor force. This category consists mainly of students, individuals taking care of home or family, retired workers, seasonal workers enumerated in an off_season who were not looking for work, institutionalized people (all institutionalized people are placed in this category regardless of any work activities they may have done in the reference week), and people doing only incidental unpaid family work (fewer than 15 hours during the reference week). See also *Employed* and *Unemployed*.

Nuptiality — Nuptiality is the general term for the frequency, characteristics, and dissolution of marriages in a population.

_ O _

Occupation — Occupation describes the kind of work a person does on the job or a position in the labor force..

_ P _

Part I Offense — Part I Offenses is the first of two main groupings of Uniform Crime Reporting Program (UCR) crime classifications consisting of eight offenses reported whether or not they involve arrests:

1. Criminal Homicide,
2. Forcible Rape
3. Robbery
4. Aggravated Assault
5. Burglary 6. Larceny_theft (except motor vehicle theft)
7. Motor Vehicle Theft
8. Arson

See also *Part II Offenses* and *Uniform Crime Report*.

Part II Offense — Part II Offenses is the second of the two main Uniform Crime Reporting Program (UCR) groupings of crime classifications not already designated in Part I. Agencies are limited to reporting arrest information only for Part I offenses with the exception of simple assault.

Law enforcement agencies report to the FBI only arrest data involving the Part II crimes:

9. Other Assaults
10. Forgery and Counterfeiting
11. Fraud
12. Embezzlement
13. Stolen Property: Buying, Receiving, Possessing
14. Vandalism
15. Weapons: Carrying, Possessing, etc.
16. Prostitution and Commercialized Vice
17. Sex Offenses
18. Drug Abuse Violations
19. Gambling
20. Offenses Against the Family and Children
21. Driving Under the Influence
22. Liquor Laws
23. Drunkenness
24. Disorderly Conduct
25. Vagrancy
26. All Other Offenses
27. Suspicion
28. Curfew and Loitering Laws—(Persons under 18)
29. Runaways—(Persons under 18)

See also *Part II Offenses* and *Uniform Crime Report*.

Per Capita Income — The per capita income is the amount obtained by dividing the aggregate income of all individuals, including those without incomes, by the total number of individuals.

Percentage — This measure is calculated by taking the number of items in a group possessing a characteristic of interest and dividing by the total number of items in that group, and then multiplying by 100.

Permanent Resident — A permanent resident is any person not a citizen of the United States who is residing in the U.S. under legally recognized and lawfully recorded permanent residence as an immigrant (also known as "Permanent Resident Alien", "Lawful Permanent Resident," "Resident Alien Permit Holder," and "Green Card Holder"). See also *Temporary Resident*.

Physical Abuse — Non-accidental injury of a person (punching, beating, kicking, biting, burning, shaking, otherwise harming a person).

Physical Neglect — Purposely failure to act on behalf or to provide adequately for the person (refusal of or delay in seeking health care, abandonment, expulsion from home).

Place — Places, for the reporting of decennial census data for the Pacific Island Areas, include census designated places (CDP) and incorporated places.

Population	The total population of a country may comprise either all usual residents of the country (de jure population) or all persons present in the country (de facto population) at the time of the census. For purposes of international comparisons, the de facto definition is recommended.
Population Estimate	Population estimates are approximations of current or past population of an area at a given time, or its distribution or composition in absence of complete enumeration.
Population Density	The population density is the population per unit of land area; for example, people per square mile or people per square kilometer of arable land.
Population Projection	Population projections are the computations of future changes in population numbers, given certain assumptions about future trends in the rates of fertility, mortality, and migration. Demographers often issue low, medium, and high projections of the same population, based on different assumptions of how these rates will change in the future.
Population Pyramid	A bar chart, arranged vertically, that shows the distribution of a population by age and sex. By convention, the younger ages are at the bottom, with males on the left and females on the right.
Poverty	Poverty is an economic and social condition for an individual, family, or household whose level of living in terms of food, housing, clothing, medical needs, and so on are determined to be below the community standard. Following the Office of Management and Budget's (OMB) Statistical Policy Directive 14 (1978), the Census Bureau uses a set of money income thresholds designed in the 1960s that vary by family size and composition to determine who is poor. If a family's total income is less than that family's threshold, then that family, and every individual in it, is considered poor. The poverty thresholds do not vary geographically, but they are updated annually for inflation using the Consumer Price Index (CPI_U). The official poverty definition counts money income before taxes and does not include capital gains and noncash benefits (such as public housing, medicaid, and food stamps). Poverty is not defined for people in military barracks or institutional group quarters or for unrelated individuals under age 15 (such as foster children). They are excluded from the poverty universe — that is, they are considered neither as "poor" nor as "nonpoor."
Poverty Status	For the 2010 Census, since poverty is defined at the family level and not the household level, the poverty status of the household is determined by the poverty status of the householder. Households are classified as poor when the total income of the householder's family in 2009 is below the appropriate poverty threshold. (For nonfamily householders, their own total income is compared with the appropriate threshold) The income of people living in the household who are unrelated to the householder is not considered when determining the poverty status of a household, nor

does their presence affect the family size in determining the threshold. The poverty threshold vary depending upon three criteria: size of family, number of children, and, for one- and two-person families, age of the householder.

_ Q _

Quartile

Quartile is a measure that divides a distribution into four equal parts. The first quartile (or lower quartile) is the value that defines the upper limit of the lowest one_quarter of the cases. The second quartile is the median. The third quartile (or upper quartile) is defined as the upper limit of the lowest three quarters of cases in the distribution. Quartiles are presented for certain financial characteristics, such as housing value and contract rent. The distribution used to compute quartiles is the same as that used to compute medians for that variable.

Quintile

Quintile is a measure that divides a distribution into five equal parts on the basis of the ranked total incomes. Hence, the lowest quintile is the bottom 20 percent of the population or households; the highest quintile is the highest 20 percent on the same basis.

_ R _

Race

The racial classification used by the Census Bureau adheres to the October 30, 1997, Federal Register Notice entitled ‘‘Revisions to the Standards for the Classification of Federal Data on Race and Ethnicity’’ issued by the Office of Management and Budget (OMB). These standards govern the categorization of race in census data products. The OMB identified five minimum race categories (White, Black or African American, American Indian or Alaska Native, Asian, and Native Hawaiian or Other Pacific Islander). In addition to the five race groups, the OMB also states that respondents should be offered the option of selecting one or more races. See also *Ethnic Origin*.

Rate

A rate is a measure of occurrences in a given period of time divided by the possible number of occurrences during that period. Rates are sometimes presented as percentages.

Rate of Natural Increase (or Decrease)

The rate of natural increase (or decrease) measures the population increase (or decrease) in a given year due to a surplus (or deficit) of births over deaths, expressed as a percentage of the base population.

Ratio

A ratio is a measure of the relative size of one number to a second number expressed as the quotient of the first number divided by the second. For example, the sex ratio is calculated by dividing the total number of males by the total number of females, and then multiplying by 100.

Rural — See *Urban and Rural*.

_ S _

Sex Ratio — The sex ratio is a measure derived by dividing the total number of males by the total number of females, and then multiplying by 100.

Survey — A survey is a canvass of selected persons or households in a population usually used to infer demographic characteristics or trends for a larger segment or all of the population. See also *Census*.

_ T _

Temporary Resident — A temporary resident is a nonimmigrant alien who seeks temporary entry to the United States for a specific purpose. The alien must have a permanent residence abroad (for most classes of admission) and qualify for the nonimmigrant classification sought. The nonimmigrant classifications include: foreign government officials, visitors for business and for pleasure, aliens in transit through the United States, treaty traders and investors, students, international representatives, temporary workers and trainees, representatives of foreign information media, exchange visitors, fiancé(e)s of U.S. citizens, intracompany transferees, NATO officials, religious workers, and some others. Most nonimmigrants can be accompanied or joined by spouses and unmarried minor (or dependent) children. See also *Permanent Resident*.

Tenure — Tenure represents the condition or nature by which occupancy of a housing unit is held. All occupied housing units are classified as either owner occupied or renter occupied. A housing unit is owner occupied if the owner or co_owner lives in the unit even if it is mortgaged or not fully paid for. All occupied housing units that are not owner occupied, whether they are rented for cash rent or occupied without payment of cash rent, are classified as renter occupied.

Total Fertility Rate (TFR) — The total fertility rate is the average number of children that would be born alive to a woman (or group of women) during her lifetime if she were to pass through her childbearing years conforming to the age_specific fertility rates of a given year. This rate is sometimes stated as the number of children women are having today. See also *Gross Reproduction Rate* and *Net Reproduction Rate*.

_ U _

Unemployed — All civilians 16 years old and over were classified as unemployed if they were neither ‘‘at work’’ nor ‘‘with a job but not at work’’ during the reference week, were looking for work during the last 4 weeks, and were available to start a job. Also included as unemployed were civilians 16 years old and over who: did not work at all during the reference week, were on temporary layoff from a job, had been informed that they would be recalled to work within the next 6 months or had been given a date to

return to work, and were available to return to work during the reference week, except for temporary illness. See also *Employed* and *Not in Labor Force*.

Uniform Crime Report (UCR)

Uniform crime reporting is a collective effort on the part of city, county, state, tribal, and federal law enforcement agencies to present a nationwide view of crime. Agencies throughout the country participating in the Uniform Crime Reporting (UCR) Program provide summarized reports on eight Part I offenses known to law enforcement and reports on persons arrested. They also provide information about law enforcement officers killed and assaulted and on hate crime.

The UCR Program divides offenses into two groups—Part I and Part II. The Program collects data on all Part I offenses that become known to law enforcement whether or not they involve arrests. These crime totals are essential to measuring the level and scope of crimes occurring across the country. Part II offenses are all crime classifications other than those defined as Part I. The UCR Program collects arrest data for both Part I and Part II offenses. See also *Part I Offenses* and *Part II Offenses*.

Urban and Rural

The U.S. Census Bureau classifies as urban all territory, population, and housing units located within urbanized areas (UAs) and urban clusters (UCs). It delineates UA and UC boundaries to encompass densely settled territory, which generally consists of:

- A cluster of one or more block groups or census blocks each of which has a population density of at least 1,000 people per square mile at the time, and
- Surrounding block groups and census blocks each of which has a population density of at least 500 people per square mile at the time, and
- Less densely settled blocks that form enclaves or indentations, or are used to connect discontiguous areas with qualifying densities.

Rural consists of all territory, population, and housing units located outside of UAs and UCs. Geographic entities such as first_order subdivisions, minor civil divisions, and places often contain both urban and rural territory, population, and housing units.

The urban and rural classification applies to the 50 states, the District of Columbia, Puerto Rico, American Samoa, Guam, the Northern Mariana Islands, and the Virgin Islands of the United States.

There are UCs in all the Pacific Island Areas, but only the Northern Mariana Islands has a UA (Saipan).

Urban Cluster (UC)

An urban cluster (UC) consists of densely settled territory that has at least 2,500 people but fewer than 50,000 people, except in Guam. By agreement with the Government of Guam, the U.S. Census Bureau recognizes Hagåtña as a UC rather than an urbanized area.

Urbanized Area (UA)

An urbanized area (UA) consists of densely settled territory that contains 50,000 or more people, except in Guam (see below). The U.S. Census Bureau delineates UAs to provide a better separation of urban and rural territory, population, and housing in the vicinity of large places.

_ V _

Veterans Status

For Census data products, a civilian veteran is a person 18 years old and over who, at the time of the enumeration, had served on active duty in the U.S. Army, Navy, Air Force, Marine Corps, or Coast Guard in the past (even for a short time), but was not then on active duty, or who had served in the Merchant Marine during World War II. People who had served in the National Guard or Military Reserves were classified as veterans only if they had ever been called or ordered to active duty, not counting the 4 to 6 months for initial training or yearly summer camps. All other civilians 18 years old and over were classified as nonveterans.

Vital Statistics

Vital statistics is the collection of Demographic data on births, deaths, fetal deaths, marriages, divorces, and related events usually compiled through a registration system or other administrative record system.
