

REAL PROPERTY OWNED BY U.S.
GOVERNMENT IN GUAM

United States Department of the Interior

FISH AND WILDLIFE SERVICE
Division of Ecological Services
821 Mililani Street
Honolulu, Hawaii 96813

Reference: ES

March 15, 1976

Mr. Paul Souder, Director
Bureau of Planning
Coastal Zone Management
Box 2950
Agana, Guam 96910

Dear Mr. Souder:

Attached is a list of Real Property owned by the U. S. Government in the Guam area. The information was requested by your Coastal Zone Management team during my recent contact with them on Guam. The information does give the acreage, but the locations of some may be difficult, due to the coding system used.

OK.
To date, I have had no luck in obtaining a copy of the Congressional Federal Inventory Report for 1972, or a later issue of this document, if there is one. I am still attempting to obtain one for Mr. Bonvouloir and Gomez. In the interim, I have been informed that the U. S. Comptroller in Guam made the land survey. If his office is still there, you might try contacting him to obtain a copy of the document. Also, additional information on this matter may be obtained from the following-named individual: Mr. Edward Saylor, Director of Real Property Division, 525 Market Street, San Francisco, California 94105. Mr. Saylor's phone number is (415) 556-5314. If I receive additional information on this matter, I will direct it to you.

Please keep me informed of the ongoing progress in the Guam Coastal Zone Management planning.

Sincerely yours,

Maurice H. Taylor
