

**NEW COMMERCIAL
BUILDING PERMITS ISSUED BY
THE DEPARTMENT OF PUBLIC WORKS**

JANUARY 1990 TO APRIL 1995

**September 1995
Bureau of Planning**

INTRODUCTION

The attached lists were compiled from computerized files keyed by the Building Permit section of the Department of Public Works from building permit placards, using Q&A software, and cover the period January 1990 to April 1995. The listing includes permits for new construction with an estimated construction cost over \$50,000, excluding government, residential, condominium and apartment construction. However, residential construction is included if it appears to be part of a hotel/resort development. Fields include building permit number, date application was approved, use group code, location of project (village), lot, block, and track number, proposed use, estimated cost of development at the beginning of construction, owner's name, owner's address, owner's telephone number, and comments shown on the placard.

TABLE OF CONTENTS
