ROSTER

2008-2009

GUAM Law declares it unlawful for any person to practice, or to offer to practice engineering, architecture or land surveying in Guam as defined in the provisions of 5 GCA Title 22, or to use in connection with his name or otherwise assume, or advertise any title or description tending to convey the impression that he is an engineer, an architect or land surveyor, unless such person has been duly registered or exempted under the provisions of Title 22 of the Government Code of Guam.

For information concerning registration, send inquiries or call:

The Guam Board of Registration for
Professional Engineers, Architects and Land Surveyors
Government of Guam
East-West Business Center, Unit D-Suite 208
718 N. Marine Corps Drive
Upper Tumon, GU 96913

Website: <http://www.guam-peals.org>

GENERAL INFORMATION

Corrections

Licensees/Registrants should notify the PEALS Board in writing of any incorrect addresses contained in the Roster. All addresses are listed as contained in the current records of the Board which may be business or residence.

Renewals

All registrations for Professional Engineers, Architects and Land Surveyors expire on September 30 of each year. After six (6) months of failure to renew, a registrant shall be required to submit an application for a "Reinstatement of Registration" and pay all required fees. (5 GCA §32117).

About this Roster

This booklet contains the Rules of Professional Conduct for engineers, architects and land surveyors, and selected provision of 5 GCA Title 22, "*The Professional Engineers, Architects and Land Surveyors Law*" as a convenient reference for individual registrants regarding Guam laws and rules.

The information provided in this Roster includes those individuals and business firms who, at that time of publication, were in good standing with the PEALS Board and have renewed or were granted registration as of December 31, 2008. All registrations are valid until September 30, 2009 and should be renewed on or before this date.

RULES OF PROFESSIONAL CONDUCT FOR PROFESSIONAL ENGINEERS, ARCHITECTS AND LAND SURVEYORS

PREAMBLE

In order to establish and maintain a high standard of integrity, skills and practice in the professions of engineering, architecture and land surveying, to safeguard the life, health, property and welfare of the public and to serve and to promote the public interest in the effort to improve human environment, the following "*Rules of Professional Conduct*" are promulgated in accordance with Title 32, Government of Guam Code, relative to Professional Engineers, Architects and Land Surveyors and shall be binding upon every person holding a certificate of registration as an Engineer, Architect or Land Surveyor and on all partnerships or corporations or other legal entities authorized to offer or perform engineering, architecture and land surveying services in the Territory of Guam.

The *Rules of Professional Conduct* as herewith promulgated in accordance with those powers vested in the Territorial Board of Registration for Professional Engineers, Architects and Land Surveyors, by virtue of 5 GCA, Title 32.

All persons registered under Title 32, Government of Guam Code, relative to the Professional Engineers, Architects and Land Surveyors are charged with having knowledge of the existence of the Rules of Professional Conduct, and shall be deemed to be familiar with their several provisions and to understand them. Such knowledge shall encompass the understanding that the practice of engineering, architecture and land surveying is governed by a statute, as opposed to a right, and the registrant shall be forthright and candid in his statements or written response to Territorial Board of Registration for Professional Engineers, Architects, and Land Surveyor, Government of Guam, or its representatives on matters pertaining to professional conduct.

1. RESPONSIBILITY TO THE PUBLIC

The Architect, Engineer and Land Surveyor shall at all times recognize his primary obligations to protect the safety, health and welfare of the public in the performance of his professional duties.

2. COMPETENCY FOR ASSIGNMENTS

- A.** The Engineer, Architect or Land Surveyor shall undertake to perform assignments only when qualified by registration by the Guam Board and competency in the specific technical field of engineering, architecture and land surveying.
- B.** The Engineer, Architect or Land Surveyor or other certified legal entities may accept an assignment requiring registration outside of their own field of competency, but only to the extent that the major portion of the assignment and their services are restricted to those phases of the project in which they are qualified and competent.
- C.** The Engineer, Architect or Land Surveyor shall only affix his signature and seal to any engineering, architecture and land surveying plan or document dealing with subject matter for which he has competence by virtue of registration by the Guam Board and to any such plan or document prepared by him or under his direct supervisory control.
- D.** In the event a question arises as to the competence of an Engineer, Architect or Land Surveyor or other legal entity to perform an engineering, architecture or land surveying assignment in a specific technical field of engineering, architecture and land surveying which cannot be otherwise resolved to the Board's satisfaction, the Board, either upon request of the Engineer, Architect or Land Surveyor or by its own volition, may appoint a panel of experts to determine such competency.

3. PUBLIC STATEMENTS

- A.** The Engineer, Architect or Land Surveyor shall be completely objective and truthful in all professional reports, statements or testimony. He shall not withhold any relevant and pertinent information in such reports, statements or testimony.
- B.** The Engineer, Architect or Land Surveyor, when serving as an expert or technical witness before any court, commission or other tribunal, shall express an opinion only when it is founded upon adequate knowledge of the facts in issue, upon a background of technical competence in the matter, and upon honest conviction of the accuracy and propriety of his testimony.

- C. The Engineer, Architect or Land Surveyor shall not attempt to injure, maliciously or falsely, directly or indirectly, the professional reputation, prospects, practice or employment of another Engineer, Architect or Land Surveyor nor shall he indiscriminately criticize another professional engineer's, architect's, or land surveyor's work in public. If he believes that another Engineer, Architect, or Land Surveyor is guilty of unethical or illegal practice, he shall present such information to the Territorial Board of Registration for Professional Engineers, Architects and Land Surveyors, Government of Guam, for appropriate action.

4. CONFLICT OF INTEREST

- A. The Engineer, Architect or Land Surveyor shall avoid all known conflicts of interest with his employer or client and shall promptly inform his employer or client of any business association, interests, or circumstances which could influence his professional judgment or the quality of his services.
- B. The Engineer, Architect or Land Surveyor shall not accept compensation, financial or otherwise, from more than one party for services on the same project, or for services pertaining to the same project, unless the circumstances are fully disclosed to, and agreed to, by all directly involved parties.
- C. The Engineer, Architect or Land Surveyor shall not solicit or accept financial or other valuable considerations from material or equipment suppliers for specifying their products.
- D. The Engineer, Architect or Land Surveyor shall not solicit or accept gratuities, directly or indirectly, from contractors, their agents or other parties dealing with his client or employer in connection with work for which he is responsible.
- E. When in public service as a member, advisor or employee of a governmental body or department, the Engineer, Architect or Land Surveyor shall not participate in considerations or actions with respect to services provided by him or his organization in private engineering, architecture and land surveying practices.

5. SOLICITATION OF WORK

- A. The Engineer, Architect or Land Surveyor shall not offer to pay, either directly or indirectly, any commission, political contribution, gifts, or any other consideration in order to secure work, exclusive of securing salaried positions through employment agencies.
- B. The Engineer, Architect or Land Surveyor shall seek professional employment on the basis of qualification and competence for proper accomplishment of the work (and shall charge a professional fee for all professional services rendered). He shall not solicit or submit proposals for professional services on the basis of competitive bidding.

Competitive bidding is defined as the formal or informal submission or receipt, of verbal or written estimates of costs of proposals in terms of dollars, man days of work required, percentage of construction cost, or any other measure of compensation whereby the prospective client may compare engineering, architecture and land surveying services on a price basis prior to the time that one Engineer, Architect or Land Surveyor or one engineering, architecture and land surveying organization has been elected for negotiation.

- C. The Engineer, Architect or Land Surveyor shall not falsify or permit misrepresentation of his, or his associates' academic or professional qualifications. He shall not misrepresent or exaggerate his degree of responsibility in or for the subject matter of prior assignments. Brochures or other presentations incident to the solicitation of employment shall not misrepresent pertinent facts concerning employers, employees, associates, joint-ventures, or his or their past accomplishments with the intent and purpose of enhancing his qualifications and his work.

6. ADVERTISING

- A. The Engineer, Architect and Land Surveyor shall not advertise his professional services but may utilize the following means of identification:

- (1) **Business Cards.** The information displayed must be restricted to name of individual, firm name, address, telephone number, appropriate symbol, name of principal participants and the fields of practice in which the firm is qualified, location map, foreign language translation of the above and professional organization.

- (2) *Sign on equipment, offices and at the site of projects* for which he renders services, limited to firm name, address, telephone number and type of services, as appropriate.
 - (3) *Brochures, letterheads and* other factual representations of experience, facilities, personnel and capacity to render service, providing the same are not misleading relative to the extent of participation in the projects cited, and provided the same are not indiscriminately distributed.
 - (4) *Listings in the classified section* of telephone directories, limited to name, address, telephone number and specialties in which the firm is qualified.
- B. The Engineer, Architect and Land Surveyor may advertise for recruitment of personnel in appropriate publications or by special distribution. The information presented must be displayed in a dignified manner, restricted to firm name, address, telephone number, appropriate symbol, the fields of practice in which the firm is qualified and factual descriptions of positions available, qualifications required and benefits available.
 - C. The Engineer, Architect and Land Surveyor may prepare articles for the lay or technical press which are factual, dignified and free from ostentations or laudatory implications. Such articles shall not imply other than his direct participation in the work described unless credit is given to others for their share of the work.
 - D. The Engineer, Architect and Land Surveyor may extend permission for his name to be used in commercial advertisements, such as may be published by manufacturers, contractors, material suppliers, etc., only by means of a modest dignified notation acknowledging his participation and the scope thereof in the project or product described. Such permission shall not include public endorsement of proprietary product.
 - E. The Engineer, Architect and Land Surveyor will not allow himself to be listed for employment using exaggerated statements of his qualifications.

7. CONSTRUCTION SERVICES

An Engineer, Architect and Land Surveyor shall provide construction contract administration when applications are made for building or construction permits involving the public safety and health. The term "construction contract administration" means making periodic visits to the site by a registered engineer, architect or land surveyor or authorized representatives as the case may require, to observe the progress and quality of the executed work and to determine, in general, if the work is proceeding in accordance with the contract documents. It is not required that they make exhaustive or continuous on-site inspections to check the quality or quantity of the work nor is it intended that the engineer, architect and land surveyor be responsible for construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the work.

8. IMPROPER CONDUCT

- A.** The Engineer, Architect and Land Surveyor shall not knowingly associate with, or permit the use of his name or firm name in a business venture by any person or firm which he knows, or has reason to believe, is engaging in business or professional practices of a fraudulent or dishonest nature.
- B.** If the Engineer, Architect or Land Surveyor has knowledge or reason to believe that another person or firm may be in violation of any of these provisions or of Title XLIII, Government of Guam Code, relative to Professional Engineer, Architect and Land Surveyors, he shall not withhold any information from the Board of Registration for Professional Engineer, Architects and Land Surveyors, Government of Guam, and shall cooperate with the Board of Registration for Professional Engineers, Architects and Land Surveyors in furnishing such further information or assistance as may be required by the Board.

9. OTHER JURISDICTION

Conviction of a felony subsequent to registration in the field by any state, territory or possession of the United States, or the revocation or suspension of a professional engineer's, architect's or land surveyor's license by another jurisdiction, if for a cause which the Territory of Guam would constitute a violation of Title 32, Government of Guam Code, relative to Professional Engineers, Architects, and Land Surveyors or of these Rules, shall be grounds for a charge of violation of these Rules.

The foregoing *Rules of Professional Conduct* for Professional Engineers, Architects and Land Surveyors for the Territory of Guam have been duly adopted by the Territorial Board of Registration for Professional Engineers, Architects and Land Surveyors, and in certification thereof, the undersigned has affixed his signature hereto this 5th day of April, 1974.

**Chairman,
Guam Board of Registration
for Professional Engineers, Architects
and Land Surveyors**

Government of Guam

Tel: 671/646-3115; 646-3113

Fax: 671/649-9533

EXCERPTS FROM 5 GCA, Title 32

§32122. VIOLATIONS AND PENALTIES.

- (a) Any person who shall practice, or offer to practice, engineering, architecture or land surveying on Guam without being registered in accordance with the provisions of this Title, or any person, firm partnership, organization, association, corporation or other entity using or employing the words, 'Engineer' or 'Engineering', 'Architect' or 'Architecture', 'Land Surveyor' or 'Land Surveying', or any modification or derivative thereof in its name or form of business or activity except as authorized in this Title, or any person presenting or attempting to use the certificate of registration or the seal of another, or any person who shall give any false or forged evidence of any kind to the Board or to any member thereof if obtaining or attempting to obtain a certificate of registration, or any person who shall falsely impersonate any other registrant of like or different name, or any person who shall attempt to use an expired or revoked or non-existent certificate of registration, or who shall practice or offer to practice when not qualified, or any person who falsely claims that he is registered under this Title, or any person who shall violate any of the provisions of this Title, shall be guilty of a petty misdemeanor.
- (b) It shall be the duty of all duly constituted officers of the territory to enforce the provisions of this Title and to prosecute any person violating same.
- (c) The Attorney General of Guam shall act as legal advisor to the Board and render such legal assistance as may be necessary in carrying out the provisions of this Act. The Board may employ counsel and necessary assistance to aid in the enforcement of this Title and the compensation and expenses therefore shall be paid from funds of the Board.
- (d) Any person who is not registered as a professional engineer under this Title and who, by verbal claim, sign, advertisement, letterhead, card or in any other way represents himself to be a professional engineer or through the use of some other title implies that he is a professional engineer or that he is registered under this Title or holds himself out as able to perform any engineering service or work or any other service designated by the practitioner which is recognized as engineering shall be guilty of a petty misdemeanor.
- (e) Any person who is not registered as a professional architect under this Title and who, by verbal claim, sign, advertisement, letterhead, card or in any other way represents himself to be a professional architect or through the use of some other title implies that he is a professional architect or that he is registered under this Title or holds himself out as able to perform any architectural service or work or any other service designated by the practitioner which is recognized as architecture shall be guilty of a petty misdemeanor.

- (f) Any person who is not registered as a professional land surveyor under this Title and who, by verbal claim, sign, advertisement, letterhead, card or in any other way represents himself to be a professional land surveyor or through the use of some other title implies that he is a professional land surveyor or that he is registered under this Title or holds himself out as able to perform any land surveying service or work or any other service designated by the practitioner which is recognized as land surveying shall be guilty of a petty misdemeanor.

§32123. CERTIFICATES OF AUTHORIZATION

- (a) The practice of or offer to practice engineering, architecture or land surveying as defined in §32103 of this Title by individual engineers, architects or land surveyors registered under this Title, or be lawfully practicing under §32124 of this Title through a corporation (including professional corporations), partnership (including registered limited liability partnership), or limited liability company is permitted, subject to the provisions of this Title.

A corporation, partnership, proprietorship or limited liability company holding itself out or performing any of the services involved in the practice of engineering, architecture or land surveying must be issued a certificate of authorization by the Board; provided that one (1) or more of the directors of a corporation; one (1) or more of the general partners of a partnership; the sole proprietor of a proprietorship; or one or more of the managers of a limited liability company are registered under this Title or the engineering, architecture or land surveying registration law of another jurisdiction within the United States, District of Columbia or its Territories; and further provided that any agreement to perform such services shall be executed on behalf of the corporation, partnership, limited liability company by the director or directors, general partner or partners, sole proprietor, or by the manager or managers who are registered on Guam and who exercises responsible control over the particular services contracted for by the corporation, partnership, proprietorship or limited liability company.

The requirements of this Title shall not prevent the employees of such corporations, partnerships, proprietorships or limited liability companies from performing engineering, architecture or land surveying services; provided that all technical submissions involving the practice of engineering, architecture or land surveying as defined in this Title when issued, or filed for public record, shall be dated, and bear the seal and signature of the professional engineer, architect, or professional land surveyor under whose responsible control it was prepared.

- (b) A corporation, partnership, proprietorship or limited liability company desiring a certificate of authorization shall furnish the Board such information about its organization and activities as the Board may require by regulation and to designate the individual or individuals duly registered to practice engineering, architecture or land surveying on Guam who shall be in responsible control of the practice as the Responsible Managing Employee (RME). A multi-discipline firm who has more than one (1) designated RME shall be required to have a minimum of one (1) RME available on a full time basis with 75% phys-

ical presence and must have full control over the particular services contracted for by the firm. In the event there shall be a change in any of these persons during the year, such change shall be reported in the form as issued by the Board within thirty (30) days after the effective date of said change.

- (c) If all of the requirements of this Section are met, the Board may issue a certificate of authorization to such corporation, partnership, proprietorship or limited liability company authorizing such organizations to contract for and to collect fees for furnishing engineering, architecture or land surveying services. All off-island firms shall be required to maintain a local office under the control of at least one (1) Responsible Managing Employee who shall be available on a full time basis with a seventy five (75%) physical presence in full control of the operations of the firm.

No such corporation, partnership, proprietorship or limited liability company shall be relieved of responsibility for the conduct or acts of its agents, employees or officers by reason of its compliance with the provisions of this Section nor shall any individual practicing engineering, architecture or land surveying services performed by reason of his employment or relationship with such corporation, partnership, proprietorship or association.

A certificate of incorporation shall not be issued to an applicant for a registration as a foreign firm to a firm which includes among the objectives for which it is established any of the words engineer, 'engineering', 'architect', 'architectural', 'surveyor', 'land surveying', or any modification or derivation thereof, unless the Board has issued for the said applicant a certificate of authorization or letter indicating the eligibility of such applicant to receive such a certificate. The firm shall supply such certificate or letter from the Board with the applicant's application for incorporation or registration.

- (d) The responsible department within Guam shall decline to register any trade name or service mark which includes such words as set forth Subsection (c) of this Section, or modification or derivatives thereof, in its firm name or logo type, except those firms holding authorization certificate under the provisions of this Section.
- (e) An engineer, architect or land surveyor who renders occasional part-time or consulting engineering, architectural or land surveying services to or for a firm may not, for the purposes of this Section, be designated as being responsible for the professional activities of the firm.
