GUAM CHAMBER OF COMMERCE CHAIRMAN'S MESSAGE

Hafa Adai,

We are pleased to share this year's 2013 membership directory of your Guam Chamber of Commerce.

Since its founding 89 years ago, the Chamber has been an institution that has served the island community in many different ways. Its role in shaping the growth of Guam's economic, social, and political development endures even today. From its agrarian and subsistence economic base, when self government was but an aspiration, to a more robust economy and greater political autonomy today, our community has made great progress because of the Chamber's active partnership along the way.

Collectively, our membership of more than 370 companies and individuals employ more than 40,000 people, or about 65% of the island's private sector jobs, and generate over \$2 billion in annual revenues, which represent 70% of Guam's GDP.

Member companies and executives are actively engaged in various levels of public service, bringing intellectual capital into the public square, and thereby making significant community contributions far beyond the commercial goods and services they provide to improve our island quality of life.

It is my honor and privilege to serve this year as your Board Chairman, and I look forward to a productive year. With your help, we can all work together for the common good of the entire community.

Sincerely,
Gerald (Gerry) S A Perez
Chairman of the Board
Guam Chamber of Commerce

'Since joining the Guam Chamber of Commerce in May of 2012, the Guam Strategic Development Regional Center has partnered with Chamber members to help grow Guam's economy. Being a member of the Chamber has proven to be beneficial, and the camaraderie is great, especially with the warmth and professionalism of the staff. The food's not bad, either! We truly appreciate everyone's efforts. "Fellowship means coming together with the idea that everything you do will further the other person somehow. With fellowship, the world wants you to win because then we all win. As our comfort level with fellowship increases, watch for new developments in our economic systems. It may start as various exchange and barter methodologies and will progress in forms of outright sharing and philanthropy at a global level. Working with the spirit of fellowship helps you learn what's possible to achieve by focusing the group mind - the merged awareness of all members of a group." While reading Penny Peirce's book "Frequency" late last night, I found this quote to be most appropriate.'

GUAM CHAMBER OF COMMERCE

VISION AND MISSION

Vision

To be the voice and impetus for economic growth on Guam through

*• Communication • Advocacy • Creating opportunity • Upholding the Hafa Adai spirit**

**The quality of living on Guam that makes it unique.*

Mission

The Guam Chamber of Commerce exists to provide a forum to promote the economic, social, and environmental well-being of the community through its membership; the Chamber seeks to develop, encourage, promote, and protect the general business interests of Guam.

THE GUAM CHAMBER OF COMMERCE

Throughout the world people have awakened to the importance of the system of free enterprise — a system of private individuals working in the freedom of the marketplace in competition with each other, creating wealth and employment for society, and providing the basis for stability. The private sector must find solutions for society's needs. Proposals to encourage and enable more Guamanians to work, prosper, save, invest and realize their ambitions can only come from an organization that is free from bureaucracy and where every member has a say.

The Guam Chamber is such an organization. It is a voluntary organization. Strong because of an extensive membership, united in its goals of advancing the general welfare and prosperity of Guam, and guided by its Code of Ethics. With only a small staff, it has no bureaucracy to strangle proposals, but rather encourages membership input.

Businesses sometimes fail to recognize the fact that the Chamber of Commerce is their salesman and watchdog — unceasingly promoting their products and services while at the same time protecting their interests. This is particularly important in the political arena, where a single voice can go unheard, but the collective, united voice of the Chamber of Commerce has often proven effective and beneficial to business.

WHO ARE WE?

The Guam Chamber of Commerce is a nonprofit voluntary association of business and professional individuals and firms united in their desire to improve business and build a better social and economic community on Guam.

The membership of the Chamber is predominantly drawn from the business community. Membership in the Chamber enables segments of the community to accomplish collectively what they would be unable to do individually. While the activities of the Chamber may have varied over its 88 years of existence, Guam's economic development and well-being remain a constant priority.

Accordingly, the Chamber has assumed the responsibility

of strengthening the private sector by proposing solutions to communitywide problems. In recent years it has involved itself largely with the problems and possible solutions of government spending levels, the promotion of a larger U.S. military presence on Guam, providing seminars to enhance business development and management skills, Guam's inclusion in the tax treaties between the United States and foreign nations, promoting visa waiver programs to enhance tourism growth, and the removal of federal and local barriers to increase business activity and effectiveness on Guam.

The preservation of Guam's natural beauty is also important to the Chamber of Commerce. Hence, the establishment of the Na' La' Bonita Guam program in 2000, which continues to be a contributing factor to community involvement in island beautification.

The ideals of the Guam Chamber of Commerce are embodied in its Code of Ethics, to which all members adhere.

HOW DO WE WORK?

The Chamber is governed by a volunteer 20-member Board of Directors. The Board of Directors is vested with the power to establish the Chamber's public positions and policies. The membership elects members to the Board at yearly elections with two director seats guaranteed for small business representation.

The Chairman of the Board is the principal elected officer of the Chamber and its chief executive officer. The Vice Chairman and Secretary/Treasurer are other elected officers of the Chamber. Together with the Immediate Past Chairman of the Board, the member who received the most votes at the last Board election, and the President, form the executive committee that functions as a clearing house on Chamber matters.

Most Chamber work is carried out by Chamber members through a network of committees. A work plan is drafted early in the administrative year, providing the blueprint for the Chamber's work. Volunteers from the Chamber membership are assigned to committees to work toward the accomplishment of the goals in the plan.

WHAT DO WE DO?

The scope of Chamber activities is unlimited, depending on the needs of the community and the desire and ability of the Chamber to carry them out. Chambers of Commerce have traditionally been the information agency of an area or community, maintaining factual data, folders and maps to answer inquiries of all types, whether they be personal interviews, telephone or by mail, coming from residents and visitors alike. The Chamber promotes the area's economy and encourages business and industrial investment, broadening the tax base and providing employment. To business prospects and newcomers, the Chamber represents the community's "front door."

The Chamber of Commerce is becoming increasingly involved in macroeconomic issues touching on education, human environmental, cultural and governmental concerns. These problems have caused the Chamber of Commerce to become a viable force in seeking solutions to some of Guam's social problems.

HOW DO WE GET THE JOB DONE?

There are six standing committees within the Chamber whose policies and actions are governed by committee bylaws:

- Armed Forces Committee
- Guam Young Professionals
- Maritime Affairs Committee
- Retail Merchants Committee
- Small Business Focus & Development Committee
- Wholesale Merchants Committee.

The Chamber is supported entirely by its members. Membership dues are the backbone of the Chamber, with special assessments occasionally called. Administrative staff consists of the President, Vice President and Chief Operating Officer, two staff assistants, and the Dave J. Santos Scholarship Intern. The Chamber office is located at 173 Aspinall Avenue, Suite 101, Ada Plaza Center in Hagåtña which also houses most meetings held by the Board and Chamber Committees.

CODE OF ETHICS

Each member of the Guam Chamber of Commerce ascribes to a Code of Ethics, which serves as inspiration for each member to rise above minimum standards. Through the code, the Chamber proclaims and reaffirms its commitment to the highest ideals of principled free enterprise in the American democratic tradition and in the context of America's outpost in the Pacific Rim. While each member must find within his conscience his own measure of right and wrong, as a body, the Chamber adopts this code to encourage and exhort its members to the common good, within its purposes, and, when necessary, to judge that conduct which is unbecoming a member of this Chamber.

GENERAL MEMBERSHIP MEETINGS

Membership meetings are regularly held once a month (on the last Wednesday of each month) with notices of each meeting faxed or sent electronically in advance to all members of the Chamber. An annual membership meeting is held on the third Wednesday in November of each year.

The Chamber's general membership meetings are generally held on the last Wednesday of each month beginning at

11:30 a.m. Details on keynote speaker, topic, and location of meetings are announced prior to each event. Meetings provide information to the membership about recent Board actions, upcoming and current Chamber projects and activities, and provide an excellent opportunity to network with other Chamber members.

GUAM

at a glance

GUAM U.S.A.

Guam, officially the U.S. Territory of Guam, is located in the Western Pacific Ocean and is an organized unincorporated territory of the United States, a status dating to the culmination of the Spanish-American War in 1898. It is a U.S. community protected by the U.S. Constitution. The U.S. dollar is our basic currency. The Internal Revenue Code is our income tax law.

Guam possesses a strategic location in the Pacific Rim. The island is the "Gateway to Asia" and is the closest U.S. possession to the Asian theater. Its location facilitates access to and from major Asian markets by being only three to four hours flying time to Japan, Korea, Okinawa, Taiwan, Hong Kong, China and the Philippines. America's trading partners in Asia are the key markets for Guam's tourism industry, the island's economic mainstay. 'Advance Management, Inc. (AMI) has been an active member of the Guam Chamber of Commerce for over 20 years. I was personally on the Board for eight years and was the 2004 Vice Chairman and 2005 Chairman. The Chamber has allowed our company not only to interact with others in the organization but placed us up close and personal with the prestigious members of the local and federal government, including top officials of the military. AMI currently participates in Chamber programs dealing with Juvenile Drug Court, Red Ribbon Campaign, Gang Resistance Education and Training, Project Safe Neighborhood and other programs that make our island and its people safe and free of drugs. There is literally something of interest for everyone at the Chamber. I encourage everyone to not only join the Chamber but to participate in a committee that peaks their interest.'

Managing Director

Small Business Know-How

Guam Chamber Member since 2010

Help people with business planning. In doing so, I almost always recommend that new businesses join and actively participate in the Guam Chamber of Commerce. First, you will have regular access to Chamber members - who are also potential customer - and consistent, direct selling to potential customers (the primary method of marketing for many Guam businesses) works. Second, and an even better reason, Chamber members are opinion leaders ('hubs' in marketing jargon). This means that if you are persuasive, they will retain your business card, and in turn refer you to others. My recommendation: just do it - join!

"Membership in the Guam Chamber of Commerce has afforded Pay-Less Markets the opportunity to be informed and updated on important economic, political and social issues affecting our island. Likewise, the Chamber provides a forum to share concerns and suggestions related to our industry and Guam's economic landscape in general. Chamber Committee members have been influential in fact in promoting specific issues and causes. Networking is another key component of Chamber membership which is invaluable to any company."

"The warm, professional yet personal welcome afforded to me after being out of circulation shows what the Guam Chamber of Commerce is all about. As a chamber member, I can attest that it provides a forum to its members and even non-members to articulate their respective points of view on health, economy, business, government and even social issues that affect the people of Guam. The collective group of professionals can be overwhelming at times, but at the end of the day, every member of the chamber shares the same objective, and that is SERVICE in their respective capacities."
