

Message from the OFFICE OF THE GOVERNOR

EDDIE BAZA CALVOGovernor of Guam

RAY TENORIO Lt. Governor of Guam

Ensuring Reliable, Safe Water Services

Yesterday, today, and for generations to come

Hafa Adai! For years, the men and women of the Guam Waterworks Authority have worked hard to provide our island with clean water provided through reliable service. As public servants, it's easy to say that's all part of the job. But the work they do is so much more than just a job. The hardworking men and women of GWA understand that the work they do is critical to the island. It's a responsibility that is not taken lightly.

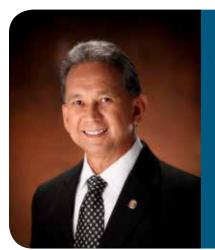

GWA is undertaking a huge endeavor in upgrading and hardening its systems. Recently, the design phase of the Agat/Santa Rita Wastewater Plant was started. The project, which costs between \$50 million and \$60 million, will be completed next year. GWA also will be replacing aging water lines, and building water tanks in Latte Heights, Agana Heights, and other locations.

Over the years, GWA has invested millions to bring Guam's water service up to standard. Now, they're preparing to ensure that services last for years to come. We thank GWA and the employees who continually strive to do more for our island.

Un Dangkulo na Si Yu'us Ma'ase,

EDDIE BAZA CALVO
Governor of Guam

RAY TENORIO
Lt. Governor of Guam

Message from the Chairman, COMMITTEE ON UTILITIES, TRANSPORTATION, PUBLIC WORKS AND VETERANS AFFAIRS

SEN. THOMAS C. ADAChairman, Committee on Utilities

Hafa Adai,

As the Guam Waterworks Authority continues to provide safe and reliable water and wastewater services into 2015 and the future, the Annual Report affords us an opportunity to reflect upon the many achievements of the past year.

2014 was a strong year for GWA. The Gloria B. Nelson Public Service Building opened in Fadian, providing our island with efficient centralized operations and state-of-the-art customer service. Significant improvements continue to be made to water and wastewater infrastructure, all while meeting and surpassing the requirements of the Stipulated Order. And the Authority demonstrated steady leadership in its continued push for a single island-wide system, to include Fena Reservoir.

I commend the leadership at GWA and the CCU, whose shared dedication and vision continues to guide the Authority to new heights. Most importantly, I applaud the tireless work of all employees of GWA; day-in and day-out, your commitment and expertise enables the Authority to provide our community with the best possible water and wastewater services.

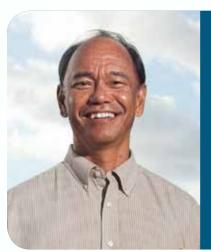

I am proud of the legacy being created at GWA, and am honored to serve as Chairman of the Committee on Infrastructure.

On behalf of all of us who depend on your hard work, Si Yu'os Ma'ase.

THOMAS C. ADA

L C PL

Senator, 33rd Guam Legislature Chairman, Committee on Infrastructure

Message from the Chairman, CONSOLIDATED COMMISSION ON UTILITIES

SIMON A. SANCHEZ II CCU Chairman

To our ratepayers,

2014 continued to be another year of progress for your Guam Waterworks Authority (GWA). We continue to rebuild your system.

We near the complete replacement of all our old meters with new meters that more accurately measure usage so that everyone pays for all the water they need and use.

We launched the \$60 million Agat wastewater treatment plant project. This project will protect our southern waters from untreated sewage and provide development opportunities from Talofofo to Agat and Malesso.

We are preparing over \$50m in improvements to our water system to replace badly leaking lines, upgrade our pump stations, retire old wells and build new wells and to improve our system monitoring so we can respond faster to problems.

We continue to build new water storage tanks from Barrigada Heights to Sinajana and Agana Heights. And we will upgrade or repair all our existing tanks island wide to improve pressure and insure good water quality always.

All of this progress would not be possible without the hard work of our dedicated water and wastewater professionals at GWA. They are your neighbors, family and friends, committed to insuring we will have "good water always". Your GWA family works 24-7 for you.

2014 also was the last year of service for CCU commissioners Benigno Palomo and Eloy Hara. Ben had been elected 3 times and Eloy twice, representing their island well and providing invaluable contributions to the progress that we have made. They will be missed.

Former Senators Francis Santos and George Bamba were elected to the CCU in November 2014 and began their service this past January. Their experience and knowledge will further improve our progress as they join Commissioners Joey Duenas (now Chairman) Pete Guerrero and me to tackle the work ahead.

But we give our greatest thanks to you the people of Guam. You are the owners of our precious water system and the protectors of our island water resources. Each month, you make the sacrifice of paying your GWA bill so we can continue our progress on your behalf. It is our collective honor to serve you.

May God continue to bless GWA's employees and families and all the people of Guam

Senseramente,

Simon a. Landy I

SIMON A. SANCHEZ IIChairman, Consolidated Commission on Utilities

PROGRESSIVE

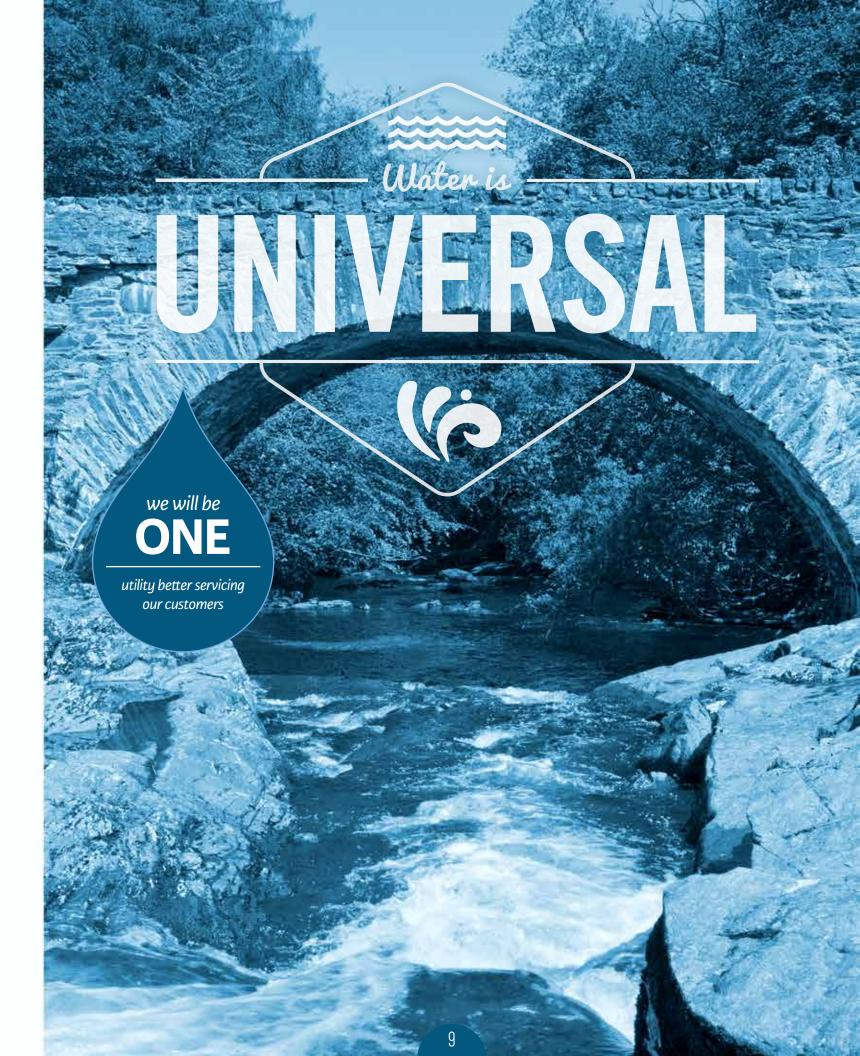

Message from the GM, CONSOLIDATED UTILITY SERVICES

JOHN BENAVENTEGeneral Manager of the Consolidated Utility Services

2014 was a momentous year for GWA as it moved into its new home with its sister utility GPA in the Gloria B. Nelson Public Service building in Fidian Mangilao. Coming together under one roof makes for great efficiencies of service and shared resources for our employees and our customers.

GWA can benefit from the resources that GPA has to offer and visa versa GPA can benefit from GWA resources. GWA will be able to utilize the strengths of GPA to better position itself as an organization as it continues to meet the needs of its customers into compliance in the 21st century. GWA must continue to meet the growing expectations of its customers who now pay more for water than they did over 10 years ago.

Merging GWA and GPA together in the new utility building means greater cooperation between the two agencies, where customers can meet with managers and employees from both agencies simultaneously and get services met. Conversely utility employees from the divisions can share ideas, resources and even meeting rooms. I see a future where there will be no more separation between the two utilities but we will be one utility better servicing our customers. Together these synergies with GPA and the proposed \$400 Million dollar in capital improvements for GWA in the coming years will mean better water better lives for our island for generations to come.

Message from the GENERAL MANAGER

THOMAS CRUZ, P.E., MBA, CPM Interim General Manager

My message to you comes with great pride that Guam Waterworks Authority (GWA) continues to provide as best as possible excellent water and wastewater services to our customers in a safe, reliable, cost effective and responsible manner.

GWA today delivers potable water to approximately 41,000 account holders or potentially 123,000 persons on the island and collects wastewater from approximately 25,000 account holders or 75,000 civilian persons on island as well as U.S. Defense Installations in the Northern and Central regions of Guam and up to 136,000 international visitors during peak months.

During the past several years, GWA has been able to overcome several hurdles to restoring consumer trust, implementing capital improvement projects, improving the utility's financial outlook as well as regaining US Environmental Protection Agency confidence by complying with court order deadlines. The major contributors to this positive change are directly related to GWA management's commitment to:

- Developing management capacity and increasing staff development to establish a core foundation of personnel to achieve Mission Statement of the utility.
 GWA continues to emphasize development of employees at all staff levels by providing training in operations, engineering, customer services and procurement. GWA Human Resources has been given the charge of assisting Program Managers with evaluating individual staff competencies and capabilities from which a development path is prepared.
- Continuing sound asset management and capital planning processes.

Over the last year, GWA has been populating its asset registry data base with all assets that have been surveyed and assessed by engineering consultants. This data is then converted into the Asset Management platform

"Plant and Equipment Module" found in the JDE Edwards operating system. Along with this Asset Management implementation GWA is also evaluating with USEPA the opportunities of using a Computerized Maintenance and Management System (CMMS) to supplement the tools in the asset management program. The asset management program will allow GWA operation and maintenance divisions to extend the life of all assets by scheduling maintenance when required and/or planned replacement if necessary.

Consumers feedback to understand required levels of service

GWA continues to welcome through any means possible criticism or compliments from our customers on all areas of the utility to better understand our weaknesses and strengths. GWA will be conducting a comprehensive customer survey that is intended to establish the baseline of the level of service GWA provides and from which to improve upon.

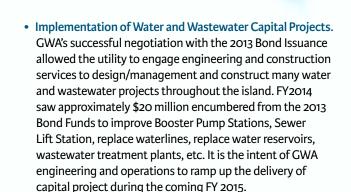

Planning long-term resource sustainability.

CNA along with the Covernment of Cov

GWA, along with the Government of Guam, UOG, USEPA, GEPA and DoD have been working collaboratively over the last few years to better understand the Northern Guam Lens Aquifer (NGLA) in an effort to better manage how much raw water is pumped out of the aquifer as well as impacts to recharging the NGLA as it relates to development on the northern part of the island.

 Technical Assistance from Program Management Office and USEPA Consultant.

The Program Management Office (PMO) of Brown and Caldwell continues to provide GWA with necessary technical and subject matter expertise required to carry out a Capital Improvements Program estimated to cost \$400 million over the next 3-5 years. In addition, USEPA consultant CDM Smith, assists GWA with subject matter expertise, water and wastewater systems survey/ assessments and SOP processes that improved asset management initiatives and business functionality.

Water is

My term as the Interim General Manager for the fourth Quarter of FY 2014 was very memorable due to the enormous support of the GWA family. There were many challenges during this period and with the help of my professional coworkers we turned the challenges into opportunities.

I am very confident that Guam Waterworks Authority is continuing the path to being an outstanding utility service provided expected of the rate payers.

Si Yu'us Ma'ase,

THOMAS CRUZ, P.E., MBA, CPM Interim General Manager

Engineering DIVISION REPORT

THOMAS CRUZ, P.E., MBA, CPM Chief Engineer

FY 2014 saw the engineering department in full project management and execution mode on several water and wastewater design project that lead straight into construction.

A key component of this was the 2013 Bond Funds made available for use in February 2014. There were also a couple of 2011 Court Order (CO) related projects that required initiation to ensure construction start and completion would meet the CO deadline. Much effort was made to plan out the coming year's CIP project schedules given all engineering staff workloads were reaching maximum capacity. To help with this issue the engineering department sought project management assistance from the Program Management office to handle some of the more technically challenging Court Order Projects. A positive outlook with engineering in FY2014 was that the 2010 Bonds reached a 90% expenditure milestone within FY2014 and full expenditure is expected in one year time. Finally a positive note to the engineering staffing level was the filling of the senior engineering supervisor position to manage the new area development sand permits section.

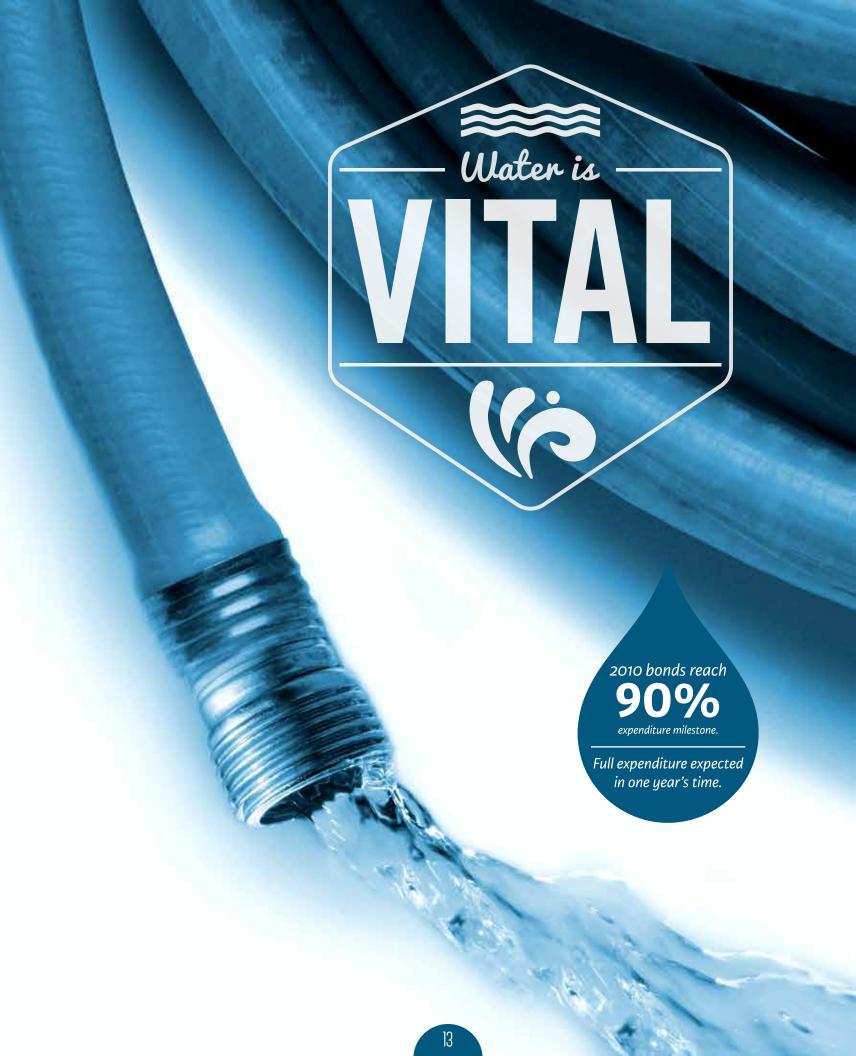

Major Accomplishments 2014

- Construction for the second Barrigada 2MG Tank Project was started
- Construction activities for the Waterline Replacement Project Phase II installed nearly 8,000 linear feet of 6" diameter pipe around the island
- Completed bid packaging for the Southern Sewer Collection System Improvements project.
- New high resolution areal for the GIS program was installed giving GIS users better pictorial views of the island
- Design services for the Umatac/Merizo Wastewater Treatment Plant Interim improvements reach 90% completion
- Design services for the Yigo/Astumbo Reservoir Replacement Project reach 90% completion
- Completed the survey work related to the Infiltration & Inflow for Central Wastewater Basin

- Completed several Project Implementation Plans for the 2011-2012 State Revolving Fund Grant projects issued by the USEPA
- Initiated design services RFP for the Ugum, Palantat, Hyundai, Santa Rita, Santa Rosa, Tumon #1/#2 and Piti water storage tanks that required replacement or major repair
- Worked collaboratively with DoD consultants in preparing the Final Guam Water and Wastewater Assessment Report in Support of the Economic Adjustment Committee Implementation Plan
- Completed Capital Improvements Plan for 2014-2019 which includes a 2013 Bond Fund reallocation which funded many CO projects
- Completed construction activities for the Hagåtña Wastewater Treatment Plant Interim Improvements.

Goals for 2015

- Initiate construction activities related to the Ugum, Palantat, Hyundai, Santa Rita, Santa Rosa, Tumon #1/#2 and Piti water storage tanks.
- Complete the construction of the 0.5MG Chaot, 0.5MG Agana Heights and 2.0MG Barrigada #2 water storage tanks
- Update the wastewater hydraulic model to allow GWA to provide better customer services for new development
- Initiate construction activities for the three new water production wells in the north
- Continue to work towards completing as-build information input into the GIS
- Execute multi-million dollar contracts for the waterline replacement projects to replace leaking and old waterline.
- Initiate Sanitary Sewer Evaluation Survey (SSES) based improvements for the Northern, Central and Southern sewer collection systems.
- Complete the Clearing and Grading construction for the new Agat/Santa Rita Wastewater Treatment Facility.
- Execute the contract for the vertical construction works for the new Agat/Santa Wastewater Treatment Facility.
- Initiate design services for the Baza Garden Improvements project as part of the 2011 CO.

Human Resources DIVISION REPORT

ZINA PANGELINAN-CHARFAUROSPersonal Administrator

The Human Resources Division is a comprehensive human resources operation. The Guam Waterworks Authority's (GWA) Human Resources Division (HRD) consists of the following:

- Recruitment
- Records (Database) and Benefits
- Employee Management Relations
- Position Classification and Compensation

The GWA Human Resources Division is under the leadership of the Personnel Services Administrator, Zina Pangelinan-Charfauros and consists of 3 Personnel Specialists (Julie C. Adams, Josephfa C. Evangelista and Julius G. Bermudez).

The Human Resources Division has primary responsibility for handling, dealing and assisting with all employee related matters. It provides services and support to our employees in ways that embrace the GWA's mission of innovation and tradition of excellence.

Human Resources Division will take a leadership role and provide service in support of GWA's vision by promoting the concept that our employees are our most valuable resource and will be treated as such. Human Resources Division will act as catalyst enabling all GWA employees to contribute at optimum levels towards the success of the GWA.

Human Resources Division assists management in a number of employment related issues, including but not limited to: hiring, termination, discipline, compensation, benefits and other employee management relation matters.

Guam Waterworks Authority's over 300 employees have opportunities to identify and expand their skills through training and development programs.

An ongoing GWA Apprenticeship Program is anticipated to be completed within a couple of years. Apprentices are completing all requirements with Journeyman Certificates as Pump Services, and Plant Instrument Technicians. The Apprentices Program requires 3 (three) to 4 (four) years of on-the-job training and is

offered through the partnership with U.S. Department of Labor, The Agency for Human Resources Development and the Guam Community College.

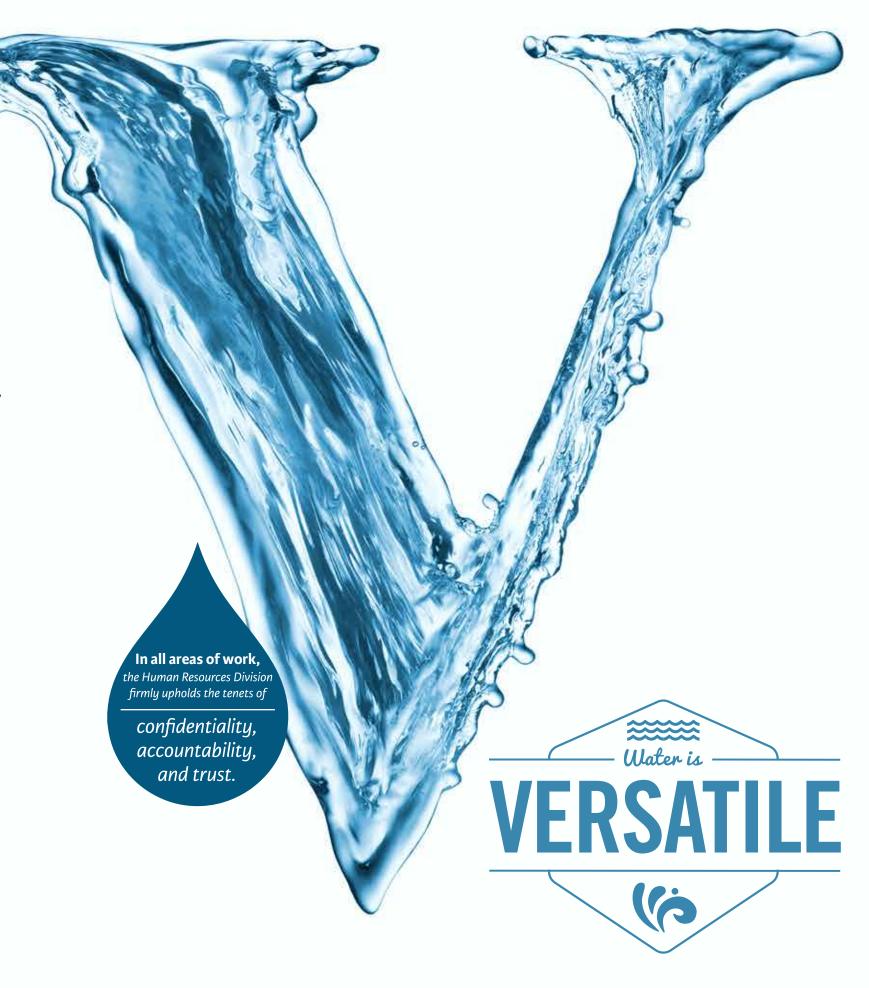

Numerous employees have obtained new certifications or higher levels from the Guam Environmental Protection Agency (GEPA) ranging from Level 1 through Level 4 proving our commitment to enhancing optimal performance from our employees to efficiently and effectively serve our community.

- 1. HRD will promote and recruit the most qualified people through providing the most competitive salaries and benefits packages.
- 2. HRD will continue to nurture and develop full potential of our work force through training, development and career enhancements.
- 3. HRD will continue to provide a clean, safe and healthy workplace with long term family and community goals.
- 4. HRD continues to establish, administer and effectively communicate sound policies, rules and practices, while maintaining the utmost level of professionalism treating our employees with dignity and equality while maintaining company compliance with employment rules and regulations.
- HRD will continue to foster employee orientation and professional development, foster the value of inclusiveness, camaraderie, long term employee engagement and lifelong learning.

In all areas of work, the Human Resources Division firmly upholds the tenets of confidentiality, accountability and trust.

GWA's Human Resources Division continues to improve the level of customer service to our internal and external customers increasing communications with accessible information.

The Guam Waterworks Authority's Human Resources Division staff recognizes that without the support and assistance of the management and staff, HR Division would not be able to successfully carry out their duties.

]4

Compliance & SAFETY REPORT

PAUL J. KEMPAssistant General Manager

Accomplishments in 2014:

GWA continues to successfully manage the 11/10/2011 Court Order to EPA's Satisfaction. Both the Northern District and the Hagåtña WWTP operate in Court Order Compliance.

GWA's Northern and Central Water systems (well water) are now completing upgrades to meet the Safe Drinking Water Act (SDWA) Ground Water Rule (GWR).

GWA Compliance Laboratory has maintained Certification for EPA Compliance Monitoring.

GWA safety training with Water M&O and Utilities Services and has added Advanced Safety (Specialized) Training.

Ugum Surface Water Treatment Plant Continuous Membrane Filtration (Submerged) process water quality continues to exceed all required standards.

GWA has completed the a draft Wellhead Assessment with a proposed Wellhead Protection Plan.

GWA has planned a Back-Flow/Cross-Connection control program is pending final review by GWA's PMO and USEPA.

GWA has implemented its waste water Source Control program and USEPA has approved the operation.

The GWA Sewer Hook-Up Revolving Loan Fund program continues to be available.

For details see:

http://guamwaterworks.org/documents/SewerFactSheet05192010.pdf http://guamwaterworks.org/documents/SewerFactSheet05192010.pdf

The design for the replacement of the GWA Dededo Compliance Laboratory has been bid out and contractorto whom the design was awarded was Architects Laguaña, LLC.

Goals for 2015:

Complete the design for the replacement of the GWA Dededo Compliance Laboratory and start construction.

Continue to manage compliance with the 2011 Court Order and the EPA Significant Findings on the Water Systems (CO and SF).

Continue to manage compliance with all other SDWA, CAA, CWA and OSHA compliance requirements in a timely manner.

Expand the planned a waste water Source Control program with USEPA support, and the addition of Inspectors

Expand the Advanced Safety (Specialized) Training Program.

Implement the planned Back-Flow/Cross-Connection control program, including the creation of the needed staffing positions.

Utility Services DIVISION REPORT

ELIZABETH "LISA" SAN AGUSTINUtility Services Administrator

GWA's Utility Services Division is made up of front line service deliverers from the Collections Unit, Customer Services Unit, Disconnect/Reconnect Unit, Dispute Resolution and Document Control, Customer Call Center, Meter Reading Unit, Revenue Protection and Recovery Unit and the Administrative Support Staff.

With over 40 total employees, this division serves the community of Guam from three customer service delivery points. In December 2014, the division made the move into the newly constructed Gloria B. Nelson Public Service Building in Fadian Mangilao offering our island ratepayers an additional choice of three total customer service delivery points island wide. Our new main office in Mangilao along with the GPWA Customer Service Satellite offices in Julale Shopping Center, Hagatna and Upper Tumon, extend to island ratepayers both power and water utility services from any of these three locations

Calendar year 2014 was extremely busy and exciting for GWA and the Utility Services Division. With the completion of the court ordered Meter Replacement Project in June 2014, ongoing data cleansing of our customer information system, and user acceptance testing for the new Customer Information System Implementation Project (March 2015), the Utility Services Division team worked tirelessly and diligently towards support of the GWA mission statement and overall service improvements.

Our Customer Service Unit assisted a total of 47,372 ratepayers who opted to walk in for services at any of our three service delivery points. This number is up 3% from fiscal year 2013. Our nine total GWA Customer Service Representatives from all locations continue to work hard every day to deliver friendly and efficient service to our ratepayers. In addition to walk-in visits, our Customer Service Representatives answered a total of 3,088 emails in 2014.

Our GWA Call Center is comprised of three Customer Service Representatives answering a total of 34,625 telephone calls about GWA water accounts, up 38% from 2013. These calls include billing complaints, balance inquiries, and other GWA account related inquiries alone.

In our continued effort to improve our accounts receivables, our hard working Collections Unit of just three personnel processed a total of 5,104 delinquent GWA accounts in 2014 in an effort to improve receivables. This activity is up 14% compared to last year. We continue to work alongside our sister utility GPA in sending our outbound payment reminders and automated calls to our ratepayers electronically notifying them of outstanding balances. Improvements on outbound notification are planned for 2015 and 2016.

Our Disconnect/Reconnect Unit received and field completed 23,195 work orders in calendar year 2014. This unit of six field personnel investigate and complete all requests for reconnection, name changes, disconnection, meter related verifications, meter leaks, meter change outs, and other meter complaints islandwide. The Meter Reading Unit was reassigned to Water Operations Division in January 2014.

GWA's Revenue Protection & Recovery Unit processed and investigated 59 reports of illegal connections and unauthorized use of water services in calendar year 2014. As the administrative arm of the court ordered Meter Replacement Project, RPU prepared, processed, and posted meter change out work orders through June 2014. By the end of 2014, RPU continued to identify and correct over 20 account misclassifications resulting in a recovery of revenue.

The overall division improvements in calendar year 2014 include:

- Improved ability for front line service deliverers to explain and support billing charges through more reliable metering and data access
- A new Oracle Customer Care & Billing software application implementation expected to improve GWA's service quality for island ratepayers.

- Data log record availability for island ratepayers and improved service through timely notices of private side leak data.
- Improved customer experience from the three island wide customer service delivery points.
- Improved efficiencies and collaborative work processes with all stakeholders now in the same building.
- Successful completion and graduation of 4 USD Supervisor and leaders in Certified Public Manager/Supervisory Academy training cycle – October 2014.

Goals for 2015

It is the goal of the Utility Services Division to remain committed to service excellence and continual improvement of our service quality. This commitment supports the following goals in 2015 to bring GWA to an improved level of service:

- Implementation of a new Customer Information System scheduled for March 2015.
- Implementation of a new automated sign in process for all three service points to facilitate ease and efficiency March 2015.
- To update, refine, and improve unit performance measurements for service quality improvements and efficiency.
- To have the resources necessary to improve collections and more aggressively collect delinquent revenues.
- To have the resources necessary to improve the turnover days for work order requests.
- To more aggressively and efficiently identify, resolve, and recover lost revenues and to educate our community on the consequences of water theft.
- To heed the call of today's tech savvy ratepayer for more automated methods of communication through the use of SMS messaging, self service web portal, etc.
- To aggressively prosecute theft of utility cases by working more closely with Guam Police Department and the Office of the Attorney General of Guam.
- To properly structure the division to address account dispute resolution and "back of office" functions (Dispute Resolution and Document Control).
- To continue to promptly and efficiently make available resources in support of the division and the GWA mission.
- To have the resources necessary to support all the administrative demands of division functions.
- To increase training and development opportunities divisionwide
- To maintain the March 2013 1st Annual USD Team Building Program in FY2015.
- To realize progress on the GWA Reorganization and Restructuring process as a means of improving service quality.
- To continue to foster a culture of professional respect and to create an environment that facilitates positivity, creativity, respect, productivity, and efficiency.

Water Maintenance & Operations DIVISION REPORT

Two Thousand Fourteen was a year of selfexamination for GWA Operation for both employees and management. There were numerous historic changes in the manner that Operations conducts business was instituted in the year for both Water and Wastewater.

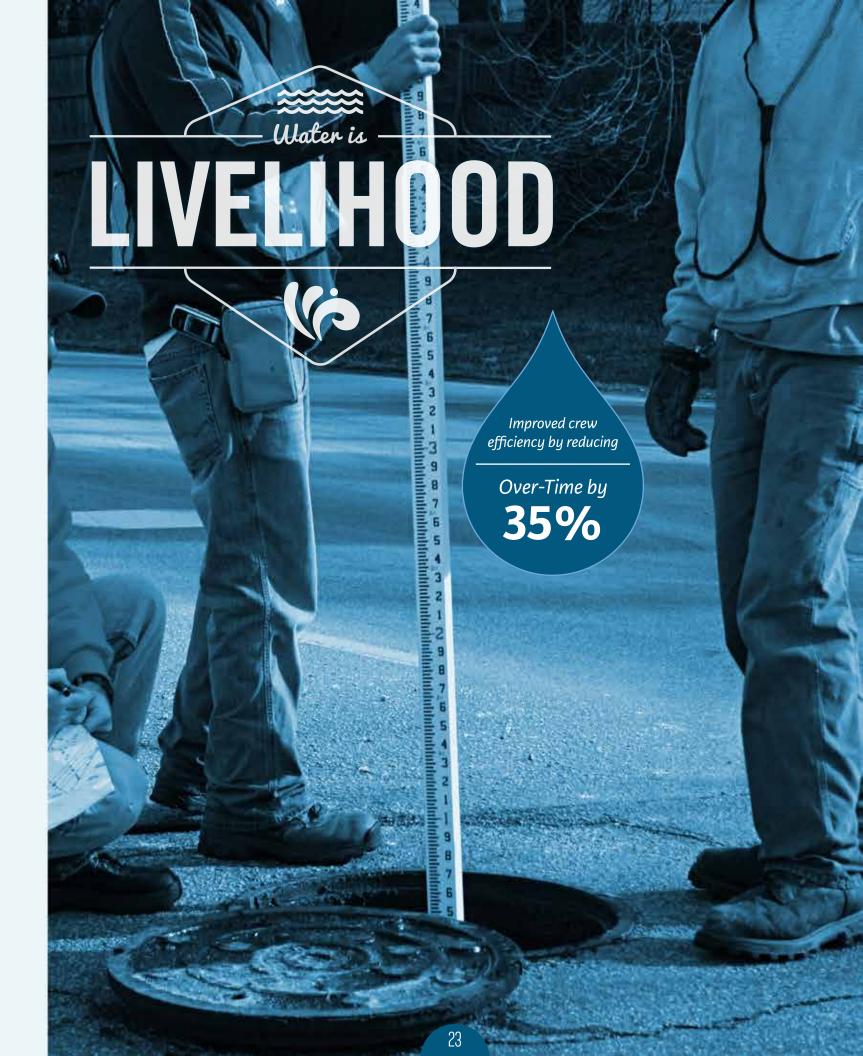

Higher expectations from our elected leaders and appointed gave way to a direction unmatched by other agencies. It is through their leadership that we are proud to report to our island that GWA has reduced the amount of overtime spent on operations, improved fleet efficiencies, further reduced our dependency on Navy Water Purchases, instituted a leak detection program and are on our way towards maintaining our assets better.

We are utilizing millions of dollars in capital improvement funds and grants funds more intelligently by directing it to our facilities and expecting more from our contractors; we believe that more value to our island and ratepayers will result.

We are serious about being good stewards of our island and are keeping our promise by reducing the number of sewerage spills by preventing blockages and keeping them cleaner than ever before and also have begun the design for the Agat Sewer Treatment Plant.

Major Highlights:

- 1. \$35,000,000 in grants funds to rehabilitate the water & wastewater system programmed
- 2. \$4,100,000 in Bond funds programmed for facilities to improve pump redundancy and electrical system performed mostly internally by GWA personnel completed
- 3. Reduced fleet vehicle fuel consumption by 50%
- 4. Improved crew efficiency by reducing Over-Time by 35%
- Improved preventive maintenance on Deepwells and Sewer Collection System engaging Jde's computerized maintenance management system
- 6. Completed the Hagatna Sewer Treatment Plant upgrade to advanced primary treatment process \$10M enabling the plant to consistently meet permitting requirements.

GUAM WATERWORKS AUTHORITY (A COMPONENT UNIT OF THE GOVERNMENT OF GUAM)

FINANCIAL STATEMENTS, ADDITIONAL INFORMATION AND INDEPENDENT AUDITORS' REPORT

YEARS ENDED SEPTEMBER 30, 2014 AND 2013

Deloitte.

Deloitte & Touche LLP 361 South Marine Corps Drive Tamuning, GU 96913-3911 USA

Tel: (671) 646-3884 Fax: (671) 649-4932 www.deloitte.com

INDEPENDENT AUDITORS' REPORT

Commissioners
Consolidated Commission on Utilities:

Report on the Financial Statements

We have audited the accompanying financial statements of Guam Waterworks Authority (GWA), a component unit of the Government of Guam, which comprise the statements of net position as of September 30, 2014 and 2013, and the related statements of revenues, expenses, and changes in net position and of cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Guam Waterworks Authority as of September 30, 2014 and 2013, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 11 as well as the Schedule of Funding Progress on page 41 be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Financial Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of certain operating and maintenance expenses, schedule of construction work in progress, schedule of net position, revenue, expenses and changes in net position for the system development charge fund, and schedule of operating revenues on pages 42 through 45 are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such additional information is fairly stated, in all material respects, in relation to the financial statements as a whole.

The schedule of employee and other data on page 46 has not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 26, 2015, on our consideration of GWA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering GWA's internal control over financial reporting and compliance.

Management's Discussion and Analysis September 30, 2014 and 2013

As management of the Guam Waterworks Authority (GWA), we offer readers of GWA's financial statements this narrative overview and analysis for the fiscal year ended September 30, 2014. We encourage readers to consider the information presented here and in our basic financial statements, which begin on page 12.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the GWA's basic financial statements. GWA's basic financial statements are for a single proprietary fund and include the financial statements, notes to those financial statements and other supplementary and statistical information.

Proprietary Fund Financial Statements

GWA's operations are accounted for as a single proprietary fund using the full accrual basis of accounting. In this regard, GWA operations are accounted for in a manner similar to a private enterprise. Within this one proprietary fund, GWA segregates revenues and expenses for various purposes such as operations, debt service and capital improvements, but that segregation does not create separate proprietary funds.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes to the financial statements can be found beginning on page 17 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents supplementary and statistical information. Supplementary and statistical information can be found beginning on page 41 of this report.

Financial Condition and Results

The Authority's total net position decreased by \$7.9 million during the fiscal year (see table below) due to decreases in other non-current assets.

The net increase in current assets of about \$5.5 million is due to increases in restricted cash, trade, and other receivables.

The net increase in property, plant and equipment of \$13.86 million is due primarily to on-going inprogress for field's construction of wastewater treatment plant, upgrades pump station improvements, transmission lines, meter replacement program, ground water chlorination project, and acquisition of mechanical and electrical equipment.

The Authority's net investment in capital assets represents 98% of total net position. The net amount invested in capital assets decreased by \$4.3 million compared to prior year.

GUAM WATERWORKS AUTHORITY (A Component Unit of the Government of Guam)

| Unrestricted | (9,814,647) | | | | 95.71% |
| Total net position | 183,775,474 | 191,642,338 | 197,148,976 | (7,866,864) | <u>-4.10%</u> |
| Total liabilities and net position | <u>\$ 603,260,150</u> | <u>\$ 446,519,004</u> | <u>\$ 454,212,723</u> | <u>\$ 148,874,282</u> | |

Operating income increased 201% from the previous year, from \$5.19 million to \$15.6 million in FY2014. A combination of factors, as illustrated on page 14, contributed to the significant improvement but growth was derived primarily from increases in demand sales from commercial accounts and savings achieved in operations and maintenance costs.

Much like in the previous fiscal years, operating revenues outpaced operating expenses in terms of the proportion of growth from the preceding year. GWA saw operating revenues improve from \$74.8 million to \$82.7 million in FY2014, or approximately 11%, while on the other hand, operating costs decreased from \$69.6 million to \$67.1 million in FY2014, or a 4% decrease from the previous year. The table below illustrates past trends dating back to FY2012.

The total operating revenues of \$82.7 million increased by \$7.9 million or 10.6% and operating expenses of \$67.1 million decreased by \$2.5 million or 3.7% for the current year resulting in net operating income of \$15.7 million or 201% increase when compared to the prior year (see table below).

- Water revenues (total) increased by \$5.2 million over the prior fiscal year due in part to a 15% increase in water rates. There were revenue dollar increases in agricultural, commercial 1, commercial 2, commercial 3, hotel, and residential customer classes.
- Wastewater revenues (total) increased by \$2.2 million or 8.28% over the prior fiscal year. A 15% rate increase in sewer charges was approved for the current year. There were revenue dollar increase in commercial 1, commercial 2, commercial 3, government, hotel, and residential customer classes.

Management's Discussion and Analysis September 30, 2014 and 2013

- Operating expenses decreases by \$2.5 million or 3.7% over the prior fiscal year. The contributing factors were decreases in power purchases, contractual, depreciation, and salaries and wages.
- Net non-operating expenses increased \$11.9 million due primarily to bond issuance costs, interest expense and loss on disposal of certain assets. Capital contributions were grants from the U.S. Government.
- Of the total water and wastewater revenue of \$53.2 million and \$28.9 million, system development charges (SDC) represented \$0.792 million and \$0.719 million, respectively. Thus, the total SDC for the current fiscal year total is \$1.63 million. Please see Schedule 4 on page 44

GUAM WATERWORKS AUTHORITY (A Component Unit of the Government of Guam)

Management's Discussion and Analysis September 30, 2014 and 2013

Revenue improvements in FY2014 are largely attributable to the private customer class as noted below. In FY2014 these sectors consists primarily of residential, commercial, and hotel customers accounted for over 50% of the increase. The tables below illustrates the distribution of revenues among major customer classes:

Annual Water Revenues (Exluding System Development Charges)

Operating expenses are generally driven by power, water purchases and salaries expenses. Historically these cost account for almost 2/3rd of O&M expenses. In FY2014, O&M expenses decreased in FY2014, going from \$69.6 million in FY2013 to \$67.0 million in FY2014. The table below illustrates the changes among major cost components.

Management's Discussion and Analysis September 30, 2014 and 2013

| TOTAL | \$ <u>67,061,603</u> | \$ <u>69,605,394</u> | \$ <u>64,243,965</u> | \$ <u>(2,543,791)</u> | -3.65% |

As reported on the Statements of Net Positon, the Authority's total net position decreased by \$7.9 million during the fiscal year due to decrease in unrestricted assets.

Capital Assets

The Authority had \$336 million (net of accumulated depreciation) invested in a broad range of utility capital assets as of September 30, 2014. The investment in capital assets includes buildings, improvements, water treatment plants, filter plants, water transmission and distribution mains, water storage facilities, pump stations, wastewater treatment facilities, machinery and equipment, see Table below.

In the current fiscal year 2014, capital assets increased by \$13.9 million (net) or 4.3% over the prior fiscal year. The increase is consistent with the Authority's implementation of a five-year (FY 14 to FY 18) capital improvement program.

The Authority's revenue, long-term debt, and grant-in-aid are used to finance capital investments. This year's major capital additions included:

| | | | | | |

For additional information concerning capital assets, please refer to Note 4 to the financial statements.

Debt

As of September 30, 2014, the Authority had total long-term debt outstanding of \$396.6 million, net of unamortized costs, which is an increase of \$168 million or 71.2% over the prior year. The reason for the increase in long-term debt is because of the new issued 2013 series bonds and 2014 series bonds in the aggregate amount of \$258.2 million. The 2014 series bonds of \$85.6 million were used to refund in full the 2005 series bonds.

The Authority is required by bond covenants to maintain principal, interest, and reserve funds for the bond issue outstanding. In addition, the Authority is required to set rates and charges to yield revenues equal to at least 125% of the current annual debt service requirements of the outstanding 2010, 2013 and 2014 refunding revenue bond series. The Public Utilities Commission set the requirement at 175%.

Moody's Investor Services, Fitch Rating and Standard & Poor's assigned a rating of Ba1, BB and Arespectively to GWA's Water and Wastewater Revenue Bonds Series 2013. The ratings are important benchmarks of issuer's ability to meet its financial obligation. Each rating agency incorporates a rating scale indicating credit quality of the issuer. The scales are comprised of alphabetical symbols such as "AAA", "AA", "A", "BBB", "BB", "B" etc. For example, categorical ratings in the "AAA", "AA" and "A" range denote high credit quality meaning the issuer has a high capacity to meet its financial commitments whereas categorical rating in the "BBB", "BB" and "B" range denote average credit quality. The lower the number of alpha characters assigned indicates the issuer is more susceptible to adverse effects or changes in circumstances and economic conditions than those with a higher number of alpha characters.

2014 to 2013

Management's Discussion and Analysis September 30, 2014 and 2013

For more information concerning debt, please refer to note 6 to the financial statements.

Looking Forward

Outlook, Challenges, and Opportunities

Much like previous years, water supply reliability, and reduced dependence on DOD Navy water supply, water quality, leak detection, line repair, meter replacement, preventive maintenance and complying with requirements of the 2011 Federal Court Order will continue to be the focus looking forward.

The 2011 Federal Court, the meter replacement program and other priorities previously mentioned above will continue to and remain top priorities, however management also recognizes that while these priorities have taken precedence over a PM program in the past and for obvious reasons, the need for a stepped-up PM is at its highest point especially in view of challenges encountered from the recent storm.

A major emphasis in ensuing years will be made on transitioning to a preventive maintenance (PM) approach from a reactive maintenance approach hence with the objective of evolving into a more reliable and responsible utility.

O&M expenses for the most part will be influenced by an escalated PM program. These expenses includes: (1) an increased parts inventory, critical parts and preventive maintenance parts in order to sustain a viable PM program; (2) an accelerated vehicle maintenance and replacement program in response to increased demands for working vehicles; and (3) the filling of existing vacancies to allow GWA to perform the inspection, maintenance and operational procedures set forth by the PM program.

A new financing in the amount of \$161 million is planned for FY2016 in order to implement approximately \$129 million of capital projects pursuant to GWA's 2014 – 2019 Capital Improvement Plan.

Other initiatives include funding capital expenditures through internally generated revenues to help reduce future borrowing and financing costs and continued utilization of a debt service reserve which helped GWA achieve the PUC's 1.75 times debt coverage ratio.

Discussions are ongoing with USEPA relative to secondary treatment, implementation costs and scheduling. GWA had recently submitted to USEPA a financial capability assessment which is typically the first of several things leading up to a scheduling timeline for implementation. The first of a series of request for information anticipated was received by GWA in connection with the assessment.

Request for Information

This financial report is to provide interested parties with a general overview of GWA's finances. If you have any questions about this report or need additional information, you may submit a request in writing to: Chief Financial Officer, Guam Waterworks Authority, 578 N. Marine Corp Drive, Tamuning, GU 96913, or telephone (671) 300-6860.

GUAM WATERWORKS AUTHORITY (A Component Unit of the Government of Guam)

Management's Discussion and Analysis September 30, 2014 and 2013

Management's Discussion and Analysis for the years ended September 30, 2013 and 2012 is set forth in GWA's report on the audit of financial statements which is dated June 14, 2014. That Discussion and Analysis explains in more detail major factors impacting the 2013 and 2012 financial statements. A copy of that report can be obtained by contacting the CFO office at (671) 300-6860.

GUAM WATERWORKS AUTHORITY (A Component Unit of the Government of Guam)

Notes to Financial Statements September 30, 2014 and 2013

(1) Reporting Entity

The Guam Waterworks Authority (GWA) is a component unit of the Government of Guam (GovGuam). GWA is subject to the regulations of the Public Utility Commission of Guam (PUC). GWA became an autonomous agency in 1996 under Public Law 23-119 and derives its revenues mainly from its water and wastewater system. The water system is engaged in the production, treatment, and distribution of water to villages and communities of Guam. The wastewater system is engaged in the collection and treatment of wastewater from residences and industries in the villages of Guam. GWA is governed by a five-member elected Consolidated Commission on Utilities (CCU). PUC determines such matters as rates and charges for services.

(2) Summary of Significant Accounting Policies

Basis of Accounting

GWA utilizes the flow of economic resources measurement focus. The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units using the accrual basis of accounting. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Net Position

Net position represents the residual interest in GWA's assets after liabilities are deducted and consists of the following categories:

Net investment in capital assets - include capital assets, restricted and unrestricted, net of accumulated depreciation, reduced by outstanding debt, net of debt service reserve.

Restricted nonexpendable - net position subject to externally imposed stipulations that require GWA to maintain them permanently.

Restricted expendable - net position whose use is subject to externally imposed stipulations that can be fulfilled by actions of GWA pursuant to those stipulations or that expire with the passage of time.

Unrestricted - net position that is not subject to externally imposed stipulations. Unrestricted net position may be designated for specific purposes by action by management or the CCU or may otherwise be limited by contractual agreements with outside parties.

At September 30, 2014 and 2013, restricted net position consists of the following:

| | <u>2014</u> | <u>2013</u> |
|--|-------------------|--------------------------|
| Island Water and Sewer Infrastructure Development Fund | \$ 6,466,443 | \$ 4,875,998 |
| Revenue Fund | 5,575,605 | 5,341,283 |
| Meter reserve | 636,592 | 1,116,842 |
| Sewer Hook-up Revolving Fund Navy surcharge | 72,662 183,441 | 72,475 <u>305,644</u> |
| | \$ 12,934,743 | \$ <u>11,712,242</u> |

All of GWA's restricted net position is expendable.

Notes to Financial Statements September 30, 2014 and 2013

(2) Summary of Significant Accounting Policies, Continued

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risk Management

GWA is exposed to various risks of loss; theft of, damage to, and destruction of assets; operation liability; errors and omissions; employee injuries and illnesses; natural disasters and employee health, dental and accident benefits. There is commercial insurance coverage obtained to provide for claims arising from most of these matters. No material losses have been sustained as a result of GWA's risk management practices during the past three years.

Allowance for Doubtful Receivables

The allowance for doubtful accounts is stated at an amount which management believes will be adequate to absorb possible losses on accounts receivable that may become uncollectible based on evaluations of the collectibility of these accounts and prior collection experience. The allowance is established through a provision for bad debts charged to expense. Bad debts are written off against the allowance based on the specific identification method.

Materials and Supplies Inventory

Materials and supplies inventory is stated at the lower of cost or market with cost determined by the first-in, first-out method.

Property, Plant and Equipment

Plant in service of \$324,988,118 is stated at estimated historical cost as determined by an independent engineering consultant at September 30, 1998. Plant in service acquired subsequent to that date is stated at cost. Non-utility property and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the respective assets. Current policy is to capitalize items over \$5,000.

Noncurrent Restricted Cash and Cash Equivalents

The purpose of noncurrent restricted cash and cash equivalents is for long-term capital improvements and bond related activities.

GUAM WATERWORKS AUTHORITY (A Component Unit of the Government of Guam)

Notes to Financial Statements September 30, 2014 and 2013

(2) Summary of Significant Accounting Policies, Continued

Deferred Outflows of Resources

In addition to assets, the statements of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (deduction of net position) until then. GWA has determined the loss on defeasance of the 2014 series refunding bonds qualifies for reporting in this category.

Deferred Inflows of Resources

In addition to liabilities, the statements of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (additions to net position) until then. GWA has no items that qualify for reporting in this category.

Compensated Absences

Compensated absences are accrued and reported as a liability in the period earned. Annual leave expected to be paid out within the next fiscal year is accrued and is included in current liabilities. Employees are credited with vacation leave at rates of 104, 156 or 208 hours per fiscal year, depending upon their service time with GWA. Accumulation of such vacation credits is normally limited to 480 hours at fiscal year end; however, management has exercised its authority in certain conditions to allow accumulation of up to 720 hours. All such vacation credit is convertible to pay upon termination of employment.

During the year ended September 30, 2003, Public Law 27-05 was implemented, reducing the amount of leave employees can earn in a fiscal year (either 104 or 156 hours) and the maximum accumulation amount of annual leave to 320 hours. Any annual leave earned in excess of 320 hours, but not to exceed 100 hours as of February 28, 2003 shall be credited to the employees sick leave. Public Law 27-106 does not allow lump sum compensation or retirement credit for annual leave in excess of three hundred twenty (320) hours.

Revenue Recognition

Customer water meters are read on a cyclical basis throughout a monthly period based on the route schedules of GWA. Revenue is recognized in the period that meters are read. Wastewater treatment is billed at a flat rate of \$26.61 per month for residential accounts and 80% of current water consumption for commercial and government accounts. At the end of each month, unbilled revenues are accrued for each cycle based on the most recent cycle billing. Unbilled receivables at September 30, 2014 and 2013 are \$2,968,184 and \$2,189,562, respectively, and are included as receivables in the accompanying financial statements.

Notes to Financial Statements September 30, 2014 and 2013

(2) Summary of Significant Accounting Policies, Continued

Cash and Cash Equivalents

For purposes of the statements of net position and the statements of cash flows, cash and cash equivalents is defined as cash deposits in banks, time certificates of deposit, and short-term investments in U.S. Treasury obligations with initial maturities of three months or less.

For purposes of the statements of cash flows, cash and cash equivalents do not include restricted cash and cash equivalents.

<u>Investments</u>

Investments and related investment earnings are recorded at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than a forced or liquidation sale and are primarily determined based on quoted market value.

Capitalization of Interest

GWA capitalizes interest on construction in progress based on the weighted average interest rate. During the years ended September 30, 2014 and 2013, interest of \$5,555,246 and \$5,164,140, respectively, was capitalized.

Capitalized Labor Costs

GWA capitalizes related labor costs incurred on construction in progress. During the years ended September 30, 2014 and 2013, labor costs of \$1,961,373 and \$1,095,619, respectively, were capitalized.

Operating and Non-Operating Revenue and Expenses

Operating revenues and expenses generally result directly from the operation and maintenance of GWA. Non-operating revenues and expenses result from capital and financing activities, costs and related recoveries from natural disasters, and certain other non-recurring income and expenses.

Grants and Contributions

Grants and contributions consist of government mandated and voluntary nonexchange transactions as defined by GASB Statement No. 33. Approved capital grants not yet received approximated \$1,264,254 and \$322,447 at September 30, 2014 and 2013, respectively.

Income Taxes

As an instrumentality of GovGuam, GWA and all property acquired by or for GWA, and all revenues and income therefrom are exempt from taxation by GovGuam or by any political subdivision or public corporation thereof and from all taxes imposed under the authority of the Guam Legislature, or with respect to which the Guam Legislature is authorized to grant exemption.

Notes to Financial Statements September 30, 2014 and 2013

(2) Summary of Significant Accounting Policies, Continued

New Accounting Standards

During the year ended September 30, 2014, GWA implemented the following pronouncements:

- GASB Statement No. 66, *Technical Corrections 2012*, which enhances the usefulness of financial reports by resolving conflicting accounting and financial reporting guidance that could diminish the consistency of financial reporting. The implementation of this statement did not have a material effect on the accompanying financial statements.
- GASB Statement No. 67, Financial Reporting for Pension Plans, which revises existing
 guidance for the financial reports of most pension plans. The implementation of this
 statement did not have a material effect on the accompanying financial statements.
- GASB Statement No. 70, Accounting and Financial Reporting for Nonexchange Financial Guarantees, which requires a state or local government guarantor that offers a nonexchange financial guarantee to another organization or government to recognize a liability on its financial statements when it is more likely than not that the guarantor will be required to make a payment to the obligation holders under the agreement. The implementation of this statement did not have a material effect on the accompanying financial statements.

In June 2012, GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions*, which revises and establishes new financial reporting requirements for most governments that provide their employees with pension benefits. The provisions in Statement 68 are effective for fiscal years beginning after June 15, 2014. The implementation of this statement will have a material effect on the financial statements of GWA and will require restatement disclosure upon implementation. As of September 30, 2014, the net pension liability that GWA will record upon implementation of Statement 68 is \$39,302,920.

In January 2013, GASB issued Statement No. 69, *Government Combinations and Disposals of Government Operations*, which improves accounting and financial reporting for state and local governments' combinations and disposals of government operations. Government combinations include mergers, acquisitions, and transfers of operations. A disposal of government operations can occur through a transfer to another government or a sale. The provisions in Statement 69 are effective for fiscal years beginning after December 15, 2013. Management has not yet determined the effect of implementation of this statement on the financial statements of GWA

In November 2013, GASB issued Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68, which addresses an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The provisions in Statement 71 are effective for fiscal years beginning after June 15, 2014. Management does not believe that the implementation of this statement will have a material effect on the financial statements of GWA.

Notes to Financial Statements September 30, 2014 and 2013

(3) Cash and Cash Equivalents and Investments

The bond indenture agreements for the 2010, 2013 and 2014 series revenue bonds require the establishment of special funds to be held and administered by trustees and by GWA. In addition, proceeds from borrowings to fund capital improvements are maintained by GWA in construction accounts. Funds in these accounts are required by loan agreement or public law to be used to fund capital improvements.

At September 30, 2014 and 2013, investments and cash held by trustees and by GWA in these special funds and accounts are as follows:

| | | | 20 | 14 | | | |

The deposits and investment policies of GWA are governed by 15 GCA 21, *Investments and Deposits*, in conjunction with applicable bond indentures. Authorized investments include obligations issued or guaranteed by the U.S. government or agencies of the U.S. government; bonds, notes or other indebtedness rated in the highest rating by Moody's Investors Service (Moody's) or Standard & Poor's Corporation (S&P); obligations issued by the Federal National Mortgage Association or the Federal Home Loan Mortgage Corporation with remaining maturities of not more than three years; any bonds or other obligations of any state of the U.S. or any agency, instrumentality or local government unit of such state which are rated in the highest rating category of either Moody's or S&P; demand and time deposits in or certificates of deposit or bankers acceptances with U.S. domestic banks which have a rating of their short term certificates of deposit of A-1 or better by S&P and P-1 by Moody's and mature no more than 360 days after purchase; commercial paper which is rating in the highest classification by S&P and Moody's; and money market funds rated AAAm or better by S&P.

A. Cash and Cash Equivalents

Custodial credit risk is the risk that in the event of a bank failure, GWA's deposits may not be returned to it. Such deposits are not covered by depository insurance and are either uncollateralized, or collateralized with securities held by the pledging financial institution or held by the pledging financial institution but not in the depositor-government's name. GWA does not have a deposit policy for custodial credit risk.

Notes to Financial Statements September 30, 2014 and 2013

(3) Cash and Cash Equivalents and Investments, Continued

A. Cash and Cash Equivalents, Continued

As of September 30, 2014 and 2013, the carrying amount of GWA's total cash and cash equivalents was \$217,387,316 and \$90,278,717, respectively, and the corresponding bank balances were \$218,424,173 and \$92,138,195, respectively. Of the bank balance amount \$11,390,125 and \$11,469,756, respectively, is maintained in financial institutions subject to Federal Deposit Insurance Corporation (FDIC) insurance. The remaining amount or \$207,034,048 and \$80,668,439, respectively, represents short-term investments held and administered by GWA's trustees in GWA's name in accordance with various trust agreements and bond indentures. As of September 30, 2014 and 2013, bank deposits in the amount of \$686,482 and \$848,256, respectively, were FDIC insured. GWA does not require collateralization of its cash deposits; therefore, deposit levels in excess of FDIC insurance coverage are uncollateralized. At September 30, 2014 and 2013, \$14,703,643 and \$10,621,500, respectively, of cash and cash equivalents are subject to custodial credit risk.

Restricted cash and cash equivalents consists of cash received for specific capital projects and for bond indenture related accounts. The composition of current and noncurrent restricted cash and cash equivalents is as follows:

| | | <u>2014</u> | | <u>2013</u> |
|--|---------------|-------------------|-------------|--------------------|

Notes to Financial Statements September 30, 2014 and 2013

(3) Cash and Cash Equivalents and Investments, Continued

B. <u>Investments</u>

As of September 30, 2014 and 2013, GWA's investment in debt securities had the following maturities:

| | 2014 | | | | | |
|---|----------------------|----------------------------------|------------|--|--|--|
| | Inves | Investment Maturities (in years) | | | | |
| Investment Type | <u>Fair Value</u> | Less than 1 | 1-5 | | | |
| U.S. Treasury and Governmental agency obligations | \$ <u>29,587,425</u> | \$ <u>29,587,425</u> | \$ | | | |
| | | 2013 | | | | |
| | Inves | tment Maturities | (in years) | | | |
| Investment Type | <u>Fair Value</u> | Less than 1 | 1-5 | | | |
| U.S. Treasury and Governmental agency obligations | \$ <u>17,200,655</u> | \$ <u>17,200,655</u> | \$ | | | |

Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

GWA's exposure to credit risk at September 30, 2014 and 2013 is as follows:

| | - | | 2014 | |
|----------------|----|-------------------|----------------------|---------------|
| Moody's Rating | | <u>Total</u> | <u>Domestic</u> | International |
| AAA | \$ | <u>29,587,425</u> | \$ <u>29,587,425</u> | \$ |
| | - | | 2013 | |
| Moody's Rating | | <u>Total</u> | Domestic | International |
| AAA | \$ | 17,200,655 | \$ <u>17,200,655</u> | \$ |

Custodial credit risk for investments is the risk that in the event of the failure of the counterparty to the transaction, GWA will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. GWA's investments are held and administered by trustees. Accordingly, these investments are exposed to custodial credit risk. Based on negotiated trust and custody contracts, all of these investments were held in GWA's name by GWA's custodial financial institutions at September 30, 2014 and 2013.

Notes to Financial Statements September 30, 2014 and 2013

(3) Cash and Cash Equivalents and Investments, Continued

B. <u>Investments, Continued</u>

Concentration of credit risk for investments is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. GASB Statement No. 40 requires disclosure by issuer and amount of investments in any one issuer that represents five percent (5%) or more of total investments for GWA. As of September 30, 2014 and 2013, GWA has no investment representing five percent (5%) or more of total investments.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of debt instruments. GWA does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

(4) Property, Plant and Equipment

Capital asset activities for the year ended September 30, 2014 are as follows:

| | Estimated Useful Lives in Years | Beginning Balance October 1, 2013 | Transfers and Additions | Transfers and Deletions | Ending Balance September 30, 2014 |

Notes to Financial Statements September 30, 2014 and 2013

(6) Long-Term Debt, Continued

2005 Series Revenue Bonds

Proceeds of the 2005 series bonds are to be used for the purpose of funding capital improvements of water and wastewater systems, refinancing certain outstanding obligations and loans, financing new water meters, paying capitalized interest and paying related issuance costs. GWA fully paid a debt to Municipal Services Group, Inc. (MSG) with proceeds from the 2005 bond issuance.

All gross revenues, except PUC surcharge revenues, of GWA have been pledged to repay the 2005 series bond principal and interest. The debt service for the 2005 series bonds was \$7,704,294 for the year ended September 30, 2013, or approximately 10.5% of pledged gross revenues.

Total bond proceeds from the 2005 series bonds were \$104,779,522, including a bond premium of \$3,604,522 while GWA incurred closing costs totaling \$3,128,108. The bond premium was being deferred and amortized on a straight line basis over the average remaining life of the 2005 bond. On August 7, 2014, the Authority issued 2014 series bonds to refund the outstanding 2005 revenue series bonds.

2010 Series Revenue Bonds

On November 1, 2010, GWA entered into a supplemental indenture agreement for the issuance of \$118,825,000 Water and Wastewater System Revenue Bonds, Series 2010, to finance various water and wastewater capital improvement projects. The 2010 bonds are limited obligations of GWA payable solely from and secured by a pledge of revenues as defined in the indenture. The bonds are subject to mandatory, optional and special redemption prior to maturity.

Total bond proceeds were \$116,404,591, net of a bond discount of \$2,420,409 and GWA incurred closing costs of \$2,805,108. The bond discount has been deferred and amortized on a straight line basis over the average remaining life of the 2010 bonds.

Proceeds of the 2010 series bonds are to be used for the purpose of funding capital improvements of water and wastewater systems, meeting certain requirements of the U.S. Environmental Protection Agency, to paying capitalized interest, to fund a deposit to the Bond Reserve Fund, and paying related issuance costs.

All gross revenues, except System Development Charge (SDC) revenues, of GWA have been pledged to repay the 2010 series bonds principal and interest. The debt service for the 2010 series bonds was \$6,516,400 for each of the years ended September 30, 2014 and 2013 or approximately 9% and 10%, respectively, of pledged gross revenues.

2013 Series Revenue Bonds

On December 12, 2013, the Guam Waterworks Authority issued \$172,630,000 Water and Wastewater System Revenue Bonds, Series 2013, to fund capital improvement projects in connection with the financing of its 5 year Capital Improvement Plan. A portion of the bond proceeds was used to fund certain bond reserves, pay for capitalized interest and costs in connection with the issue but, for the most part, the proceeds will be used to pay for capital projects.

GUAM WATERWORKS AUTHORITY (A Component Unit of the Government of Guam)

Notes to Financial Statements September 30, 2014 and 2013

(6) Long-Term Debt, Continued

2013 Series Revenue Bonds, Continued

Total bond proceeds were \$171,097,017, net of a bond discount of \$1,492,049 and GWA incurred closing costs of \$2,961,409. The bond discount has been deferred and amortized on a straight line basis over the average remaining life of the 2013 bonds.

The 2013 Bonds are limited obligations of GWA and are payable solely from, and secured solely by a lien on and pledge of, revenues to secure the payment of principal and interest on the Bonds. Revenues consist primarily of all gross income and revenue received by GWA from the ownership or operation of the System, subject to the provisions of the Indenture and exclusive of certain surcharges.

The debt service for the 2013 series bonds was \$5,158,349 for the year ended September 30, 2014 or approximately 9% of pledged gross revenues.

2014 Series Refunding Bonds

On August 7, 2014, GWA issued the 2014 Bonds to refund all of GWA's outstanding Guam Waterworks Authority Water and Wastewater Revenue Bonds, Series 2005, and to pay costs of issuing the 2014 Bonds. The proceeds for the refunding were transferred to an escrow agent who used the proceeds to purchase U.S. Treasury Securities which are to be held by the escrow agent in an irrevocable trust to pay the redemption price of the 2005 bonds and interest thereon to become due on or prior to July 1, 2015 (redemption date). The advance refunding met the requirements of an in-substance defeasance and the 2005 bonds were removed from the accompanying financial statements. The advance refunding resulted in a loss on defeasance of \$2,468,670 representing the difference between the reacquisition price and the carrying amount of the 2005 bonds. Although the advance refunding resulted in the recognition of an accounting loss, GWA in effect reduced its aggregate debt service payments by almost \$13,873,732 over the next twenty years and obtained an economic gain (difference between the present values of the old debt and the new debt service payments) of \$8,352,503.

The Bonds are limited obligations of GWA and are payable solely from, and secured solely by a lien on and pledge of, revenues to secure the payment of principal and interest on the Bonds. Revenues consist primarily of all gross income and revenue received by GWA from the ownership or operation of the System, subject to the provisions of the Indenture and exclusive of certain surcharges.

Total bond proceeds were \$92,533,037, including net bond premium of \$5,619,665 and funds from deposit in 2005 Bond Fund and Bond Reserve Fund of \$1,284,068. GWA incurred closing costs of \$1,536,177. The net bond premium has been deferred and is being amortized on a straight line basis over the average remaining life of the 2014 bonds.

The debt service for the 2014 series bonds will commence on January 1, 2015.

Notes to Financial Statements September 30, 2014 and 2013

(6) Long-Term Debt, Continued

Bank Loans

On June 15, 2010, GWA entered into a \$30 million bank loan for the purpose of: (a) funding a portion of the cost of a moratorium project, (b) funding the Operation, Maintenance, Renewal and Replacement Reserve Fund and Operations and Maintenance Fund as defined in the bond indenture agreements for the 2005 series revenue bonds, and (c) payments of accounts payable and other purposes. The loan is guaranteed by the Government of Guam and is entitled to the full faith and credit of the Government of Guam. Pursuant to the loan, GWA pledged all revenues but subject first, to a consent decree, and second, to the prior pledge and lien and other provisions of the bond indenture agreements for the 2005 series revenue bonds refunded through 2014 series revenue bonds in 2014.

Changes in Long-Term Liabilities:

(7) Employees' Retirement Plan

Defined Benefit Plan

Plan Description:

GWA participates in the GovGuam Defined Benefit (DB) Plan, a cost-sharing multiple-employer defined benefit pension plan administered by the GovGuam Retirement Fund (GGRF). The DB Plan provides retirement, disability, and survivor benefits to plan members who enrolled in the plan prior to October 1, 1995. Cost-of-living adjustments are provided to members and beneficiaries at the discretion of the Guam Legislature. Article 1 of 4 GCA 8, Section 8105, requires that all employees of GovGuam, regardless of age or length of service, become members of the DB Plan prior to the operative date. Employees of a public corporation of GovGuam, which includes GWA, have the option of becoming members of the DB Plan prior to the operative date. All employees of GovGuam, including employees of GovGuam public corporations, whose employment commences on or after October 1, 1995, are required to participate in the Defined Contribution Retirement System (DCRS). Hence, the DB Plan became a closed group.

A single actuarial valuation is performed annually covering all plan members and the same contribution rate applies to each employer. GGRF issues a publicly available financial report that includes financial statements and required supplementary information for the DB Plan. That report may be obtained by writing to the Government of Guam Retirement Fund, 424 A Route 8, Maite, Guam 96910, or by visiting GGRF's website – www.ggrf.com.

Notes to Financial Statements September 30, 2014 and 2013

(7) Employees' Retirement Plan, Continued

Defined Benefit Plan, Continued

Funding Policy:

As a result of actuarial valuations performed as of September 30, 2012, 2011, and 2010, contribution rates required to fully fund the Retirement Fund liability, as required by Guam law, for the years ended September 30, 2014, 2013 and 2012, respectively, have been determined as follows:

| | <u>2014</u> | <u>2013</u> | <u>2012</u> |
|--|-------------------------|-------------------------|-------------------------|
| Normal costs (% of DB Plan payroll) Employee contributions (DB Plan employees) | 16.61% <u>9.50</u> % | 17.52% <u>9.50</u> % | 17.07% <u>9.50</u> % |
| Employer portion of normal costs (% of DB Plan payroll) | <u>7.11</u> % | <u>8.02</u> % | <u>7.57</u> % |
| Employer portion of normal costs (% of total payroll) Unfunded liability cost (% of total payroll) | 2.39% <u>24.01</u> % | 3.00% <u>24.33</u> % | 3.03% 23.75% |
| Government contribution as a % of total payroll | <u>26.40</u> % | <u>27.33</u> % | <u>26.78</u> % |
| Statutory contribution rates as a % of DB Plan payroll: Employer | <u>30.03</u> % | <u>30.09</u> % | <u>28.30</u> % |
| Employee | <u>9.50</u> % | <u>9.50</u> % | <u>9.50</u> % |

GWA's contributions to the DB Plan for the years ending September 30, 2014, 2013 and 2012 were \$1,191,600, \$1,274,361 and \$1,251,402, respectively, which were equal to the required contributions for the respective years then ended.

Defined Contribution Plan

Contributions into the Defined Contribution Retirement System (DCRS) plan by members are based on an automatic deduction of 5% of the member's regular base pay. The contribution is periodically deposited into an individual investment account within the DCRS. Employees are afforded the opportunity to select from different investment accounts available under the DCRS.

Statutory employer contributions into the DCRS plan for the years ended September 30, 2014 and 2013 are determined using the same rates as the DB Plan. Of the amount contributed by the employer, only 5% of the member's regular pay is deposited into the member's individual investment account. The remaining amount is contributed towards the unfunded liability of the defined benefit plan.

Members of the DCRS plan, who have completed five years of government service, have a vested balance of 100% of both member and employer contributions plus any earnings thereon.

GUAM WATERWORKS AUTHORITY (A Component Unit of the Government of Guam)

Notes to Financial Statements September 30, 2014 and 2013

(7) Employees' Retirement Plan, Continued

Defined Contribution Plan, Continued

GWA's contributions to the DCRS Plan for the years ended September 30, 2014, 2013 and 2012 were \$2,495,968, \$2,374,906 and \$2,345,226, respectively.

Public Law 26-86 allows members of the DCRS to receive a lump sum payment of one-half of their accumulated sick leave upon retirement. GWA has accrued an estimated liability of \$1,255,580 and \$1,211,126 at September 30, 2014 and 2013, respectively, for potential future sick leave payments as a result of this law. However, this amount is an estimate and the actual payout may be materially different than estimated.

GovGuam, through its substantive commitment to provide other post-employment benefits (OPEB), maintains a cost-sharing multiple employer defined benefit plan to provide certain postretirement healthcare benefits to retirees who are members of the GovGuam Retirement Fund. Under the Plan, known as the GovGuam Group Health Insurance Program, GovGuam provides medical, dental, and life insurance coverage. The retiree medical and dental plans are fully-insured products provided through insurance companies. GovGuam shares in the cost of these plans, with GovGuam's contribution amount set each year at renewal. Current statutes prohibit active and retired employees from contributing different amounts for the same coverage. As such, GovGuam contributes substantially more to the cost of retiree healthcare than to active healthcare. For the life insurance plan, GovGuam provides retirees with \$10,000 of life insurance coverage through an insurance company. Retirees do not share in the cost of this coverage. Because the Plan consists solely of GovGuam's firm commitment to provide OPEB through the payment of premiums to insurance companies on behalf of its eligible retirees, no stand-alone financial report is either available or generated.

Other Post Employment Benefits

For the years ended September 30, 2014, 2013 and 2012, GWA reimbursed GovGuam for certain supplemental benefits for retirees, including contributions for the abovementioned Plan, as follows:

| | <u>2014</u> | <u>2013</u> | <u>2012</u> |
|---|-----------------------------|-----------------------------|-----------------------------|
| Supplemental benefits Contribution to GovGuam | \$ 300,000 | \$ 455,675 | \$ 461,313 |
| (COLA payments) Medical and dental | 523,800 <u>1,695,051</u> | 320,100 <u>1,642,574</u> | 304,700 <u>1,496,570</u> |
| | \$ <u>2,518,851</u> | \$ <u>2,418,349</u> | \$ <u>2,262,583</u> |

(8) Real Estate Property Transferred by Government of Guam

The Government of Guam, pursuant to Public Law 23-119, assigned to GWA various real estate property under GWA's administration. As of September 30, 2014 and 2013, the property has not been recognized in the financial statements pending completion of formal transfer proceedings.

Notes to Financial Statements September 30, 2014 and 2013

(9) Agreements with the United States Navy

Pursuant to a Memorandum of Agreement, the U.S. Navy supplies water through its water system to GWA for distribution and resale to non-military customers. Total purchases from the U.S. Navy for the years ended September 30, 2014 and 2013 are \$5,179,240 and \$4,570,862, respectively.

(10) Commitments and Contingencies

Merit System

In 1991, Public Law 21-59 was enacted to establish a bonus system for employees of GovGuam, autonomous and semi-autonomous agencies, public corporations and other public instrumentalities of GovGuam who earn a superior performances grade. The bonus is calculated at 3.5% of the employee's base salary beginning 1991. GWA did not calculate or pay any bonuses pursuant to the law from 1991 through 2012. As of September 30, 2014, GWA has not assessed the impact of the requirements of the law for fiscal years 1991 to 2013. Therefore, no liability which may ultimately arise from this matter has been recorded in the accompanying financial statements.

Claims

Due to the nature of its operations, GWA is subject to various claims by private and governmental customers and vendors for various alleged losses. Because an estimate of the amount or range of potential loss cannot be determined at this time, no provision for any liability that may result from such claims has been made in the accompanying financial statements.

Contract Commitments

Contract commitments in connection with projects currently in construction approximate \$21,082,176 at September 30, 2014, of which \$1,264,254 will be funded by federal contracts from the U.S. Government.

Program Management Office Services

On February 6, 2012, GWA entered into a contract for Program Management Office (PMO) services to provide a wide variety of as needed program management services and general staff assistance for the development of required utility infrastructure improvements. The PMO provides GWA with additional resources to address the deadlines defined in the November 10, 2011 court order and supports GWA staff in executing 2010 and 2013 Series Bond funded projects, military buildup, and other related tasks. The PMO contract is for a five-year period with an option to extend for two two-year periods. Contract commitments for the PMO services approximate \$2,722,426 as of September 30, 2014.

Operating Lease

In January 2012, GWA entered into a three year office space lease with a monthly rental of \$13,655 expiring in January 2015. Future minimum lease payments in 2015 total \$47,792.

Rent expense under this agreement totaled \$163,860 during the years ended September 30, 2014 and 2013.

GUAM WATERWORKS AUTHORITY (A Component Unit of the Government of Guam)

Notes to Financial Statements September 30, 2014 and 2013

(10) Commitments and Contingencies, Continued

Operating Lease, Continued

In February 2015, GWA moved to a new building owned by GPA. GWA does not currently have a signed lease agreement with GPA but pays for its share of building maintenance costs. GWA may be billed for rent expense in the future upon a decision of the CCU.

Medicare

The Government of Guam and its component units, including GWA, began withholding and remitting funds to the U.S. Social Security System for the health insurance component of its salaries and wages effective October 1998. Prior to that date, the Government of Guam did not withhold or remit Medicare payments to the U.S. Social Security System. If the Government is found to be liable for Medicare payments on salaries and wages prior to October 1998, an indeterminate liability could result. It has been the practice of GWA and all other component units of the Government of Guam that payment of this health insurance component is optional prior to October 1998. Therefore, no liability for any amount which may ultimate arise from this matter has been recorded in the accompanying financial statements.

Single Audit Questioned Costs

GWA undergoes annual compliance audits to satisfy federal grantor requirements. Cumulative questioned costs of \$330,931 exist from these audits as of September 30, 2014. The questioned costs will be resolved by the applicable grantor and due to GWA's inability to predict the ultimate outcome of this matter, no provision for any liability, if any, that may result from this matter has been made in the accompanying financial statements.

Court Order

In 2002, the U.S. Government filed a complaint against GWA and the Government of Guam for alleged violations under the Federal Clean Water Act (CWA) and the Safe Drinking Water Act (SDWA). Because of GWA's non-compliance with the National Primary Drinking Water Regulations, the U.S. Government is seeking both civil penalties and injunctive relief to address such non-compliance. Both GWA and the U.S. Department of Justice, Environmental and Natural Resources Division, mutually agreed in the form of a Court Order to resolve the violation issues.

On June 5, 2003, a Court Order for Preliminary Relief was filed before the District Court of Guam. The Stipulation requires implementation of short-term projects and initial planning measures by GWA. GWA is required to submit a final financial plan in the Master Plan that generates sufficient revenue to cover the cost of all compliance activities and deliverables required by the Court Order for Preliminary Relief, as well as any other anticipated expenses, including any measures necessary to ensure compliance with the CWA and the SDWA and costs related to the infrastructure improvements identified in the Master Plan.

Notes to Financial Statements September 30, 2014 and 2013

(10) Commitments and Contingencies, Continued

Court Order, Continued

In 2006, the Court Order was amended which required GWA to perform approximately \$220 million worth of capital improvement projects and perform other actions to bring GWA's system into compliance. However, GWA was unable to meet all deadlines set out in the amended Court Order. The District Court ordered the parties to stipulate as to scope of remaining projects and project completion dates; however, the parties were unable to reach an agreement on all items. As a result, on November 10, 2011, the District Court issued an order setting new deadlines for the unfinished projects and establishing new projects that were not part of the amended Court Order. As of September 30, 2014, the financial impact of the order has not been fully known and has been estimated to cost approximately \$450 million to \$500 million, including financing costs.

Primary Treatment Permits

On November 29, 2011, the United States Environmental Protection Agency (USEPA) informed GWA that its primary treatment permits for the Hagatna and Northern District Wastewater Treatment Plants had been denied and that GWA would be required to upgrade the plants to secondary treatment. The upgrades have been estimated to cost approximately \$300 million. GWA intends to negotiate with the USEPA on the timelines for upgrading the plants, which will determine implementation schedule for secondary treatment.

(11) Other Matters

On December 31, 1989, the Government of Guam issued general obligation Water System Revenue Bonds, Series 1989, in the amount of \$49,190,000. The bonds have been issued for the purpose of expanding and improving the existing water system of the Government operated by GWA. The bond obligation liability is recognized by the Government of Guam and is not reflected as a liability of GWA.

(12) Contributions Received

Contributions received by GWA during the years ended September 30, 2014 and 2013, are as follows:

| | <u>2014</u> | <u>2013</u> |
|--|---------------------|---------------------|
| Grants from U.S. Government: | | |
| Received from the USEPA | \$ 3,130,105 | \$ 2,528,785 |
| Passed through from the Government of Guam | 429,400 | 1,951,783 |
| | \$ <u>3,559,505</u> | \$ <u>4,480,568</u> |

GUAM WATERWORKS AUTHORITY (A Component Unit of the Government of Guam)

Notes to Financial Statements September 30, 2014 and 2013

(13) Supplemental/COLA Annuities

As required by Public Law 26-49, as amended by Public Law 27-106, GWA must pay to the Government of Guam Retirement Fund certain supplemental benefits for retirees. During the years ended September 30, 2014 and 2013, GWA levied surcharges of \$2,712,221 and \$2,153,031, respectively, in accordance with this legislation. The supplemental benefits are derived from an annual appropriation by the Guam Legislature and do not relate to covered Plan benefits.

(14) PUC Surcharge

The Public Utilities Commission ordered an 11.5% regulatory surcharge effective for meters read after October 1, 2001, to enable GWA to retire its obligations to both Guam Power Authority (GPA) and the Guam Telephone Authority (GTA). The order stipulated that monthly payments be made to both GPA and GTA. Payments to GPA should be no less than \$75,000 per month, after the required \$50,000 payment to GTA, payment of the PUC's annual administrative assessments and payment of PUC invoices in excess of 60 days.

On May 9, 2002, the Guam Legislature passed Public Law 26-81, which established a one-year moratorium on the 11.5% surcharge, wherein GWA was prohibited for the moratorium period from any further billings of the surcharge. Additionally, in order for GWA to pay its debt to GPA, the law appropriated \$2.75 million to GWA from a bond re-financing. In May 2003, the one year moratorium expired and proceeds from the renewed surcharge of 9.60% have gone toward GWA's obligation to GPA and, effective October 2003, also to the obligation to the U.S. Navy. Effective October 1, 2011, the surcharge was reduced to 2%. In July 2012, the surcharge was discontinued since the obligations to GPA and the U.S. Navy were paid in full. During the years ended September 30, 2014 and 2013, revenues from the surcharge were \$0 and \$229, respectively.

In addition, proceeds from a legislative surcharge of 3.9% and 5.6% for fiscal years 2014 and 2013, respectively, are earmarked to pay benefits for GWA's supplemental annuity for retirees.

During the years ended September 30, 2014 and 2013, revenues from the legislative surcharge were \$2,712,221 and \$2,153,031, respectively.

(15) System Development Charge

On January 29, 2010, PUC approved the implementation of a water and sewer SDC which authorized GWA to charge water and wastewater SDC to applicable customers on and after March 2, 2010. SDC revenues generated and collected are to be expended for costs associated with the construction, expansion, upgrade, and repair of water and wastewater facilities for users who are for the first time connecting property into the Guam water or wastewater system or for builders if the density of the existing connection is increased. SDC revenues may also be used to pay the principal sum and interest and other finance costs on bonds, notes or other obligations issued by or on behalf of GWA to finance such capital improvements or facilities expansion or renovations. During the years ended September 30, 2014 and 2013, SDC revenues were \$1,632,755 and \$1,369,778, respectively.

Notes to Financial Statements September 30, 2014 and 2013

(16) Related Party Transactions

GWA receives electrical and administrative services from GPA, a component unit of the Government of Guam also governed by the CCU. Electricity purchases from GPA for the years ended September 30, 2014 and 2013 were \$16,426,402 and \$17,508,372, respectively, and GWA was also charged \$764,950 and \$212,731, respectively, for administrative services provided by GPA. Outstanding payables for power purchases, administrative expenses and cost reimbursements owed by GWA to GPA were \$2,987,022 and \$2,568,473 as of September 30, 2014 and 2013, respectively.

For the years ended September 30, 2014 and 2013, GWA billed GPA a total of \$1,255,765 and \$1,244,392, respectively, for water and sewer charges on the facilities transferred by the Navy to GPA. The amount due from GPA as of September 30, 2014 and 2013 were \$1,544,169 and \$1,293,557, respectively, which is included in receivables in the accompanying statements of net position.

GWA receives waste disposal services from Guam Solid Waste Authority (GSWA). Waste disposal fees for the years ended September 30, 2014 and 2013 were \$1,494,012 and \$988,876, respectively. Outstanding payables for waste disposal fees owed by GWA to GSWA were \$390,720 and \$267,742 as of September 2014 and 2013, respectively, and were included in trade accounts payable in the accompanying statements of net position.

GUAM WATERWORKS AUTHORITY (A Component Unit of the Government of Guam)

Schedule 1

Schedule of Funding Progress and Actuarial Accrued Liability - Post Employment Benefits Other than Pension

The Schedule of Funding Progress presents GASB 45 results of Other Post Employment Benefits (OPEB) valuations as of fiscal year ends September 30, 2011, 2009, and 2007 for the Guam Waterworks Authority's share of the Government of Guam Post Employment Benefits other than Pensions. The schedule provides an information trend about whether the actuarial values of Plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

| Actuarial Valuation Date | Actuarial Value of Assets | Actuarial Accrued Liability (AAL) | Unfunded AAL (UAAL) | Funded Ratio | Covered Payroll | UAAL as a % of Covered Payroll |
|-----------------------------|---------------------------------|-----------------------------------|------------------------|-----------------|--------------------|--------------------------------------|
| October 1, 2007 | \$ - | \$ 26,386,000 | \$ 26,386,000 | 0.0% | \$ 11,071,238 | 238.3% |
| October 1, 2009 | \$ - | \$ 34,026,487 | * \$ 34,026,487 * | 0.0% | \$ 13,281,521 | 256.2% |
| October 1, 2011 | \$ - | \$ 38,357,000 | \$ 38,357,000 | 0.0% | \$ 13,410,801 | 286.0% |

^{*} No formal valuation was performed. The liabilities as of October 1, 2009 represent discounted October 1, 2011 liabilities.

The actuarial accrued liability presented above is only for GWA's active employees. It does not include the actuarial accrued liability for GWA's retirees, which was not separately presented in the OPEB valuation.

See Accompanying Independent Auditors' Report.
