FORWARD

This volume is the eleventh edition of the Annual Statistical Report prepared in a booklet printed form. It contains data compiled from certificates registered with the Office of Vital Statistics (these certificates can be found on the back). The time period for this report is based on calendar year - 1980.

NATALITY - The year ended with 53 more live births than there were in 1979 with a 1.8 percent increase. There were 3003 births with a rate of 28.4 per 1,000 population as compared to 2950 for 1979 and annual rate of 28.1.

Illegitimacy is still on the uprising with a total of 609 and the rate of 202.8 per 1,000 live births.

99.6 percent of 1980 births occurred in hospital. There were 13 home deliveries as compared to two for the previous year.

Forty six (46) birth defects were recorded for the year out of the 3003 births. The rate of 15.3 per 1,000 live births represents an increase from 1979 when the rate was 9.2. The highest figure of 25 cases was mentioned among mothers between the ages of 20-29 years. Out of 5 births among mothers aged 45-49, two (2) were indicated as having congenital malformation.

During 1980, 1620 or 53.9 percent of the 3003 mothers reported that they had visited a physician for prenatal care within the first three months of pregnancy. Only 60 mothers or 2 percent of the births were to mothers who had no prenatal care indicating a slight decrease from previous year of 2.5 percent.

Low birth babies, those weighing 5 pounds, 8 ounces or less, totaled 256 or 8.5 percent of the 3003 births recorded for the year. The comparable figure was 8.3 percent for 1979.

MORTALITY - There were 45 more deaths recorded in 1980 than in 1979. The rate was 4.0 per 1,000 population. The ten leading causes of death accounted for 69.2 percent of all deaths.

Heart disease again ranked as the number one cause of death accounting for 92 deaths or 21.8 percent of all deaths. Cancer has remained on the second place with 63 deaths or 14.9 percent.

Homicide has jumped one step higher from the 7th place in 1979 to the sixth place for 1980 with 15 deaths.

Of the 422 deaths, 49 deaths occurred to individuals under one year of age. The frequency of infant deaths has increased from 33 in 1979 to 49 in 1980 with a rate of 16.3 per 1,000 live births.

The neonatal death rate (death under 28 days) was 11.7 per 1,000 live births for 1980 as compared with 6.4 for 1979.

MARRIAGES - There were 1636 marriages performed in 1980, 130 less than reported in 1979 the rate being 15.5 per 1,000 population.

Among brides, 86.6 percent were never married previously, 11.2 percent were divorced, and 1.3 percent were widows, and among grooms, 85.4 percent were never married previously, 12.6 percent were divorced, 1.1 percent were widowers. Again the month of June had the highest number of marriages with 200 followed by the months of February and May with 146 marriages each.

DIVORCES - The trend in divorces was upward for the year with a total of 489 as compared to 340 for 1979. The rate for 1980 was 4.6 per 1,000 population. Of the 521 divorces and annulments, 35.1 percent or 183 cases were without children under 18 years of age. About 14 percent or 69 divorces were obtained by couples married for 20 years and over. The age group between 30-34 both for men and women had the highest number of divorces.

DEFINITIONS

Since this report utilizes various terms and technical connotations, it is necessary to define them to aid reader in the correct interpretation of the data. The following terms and notes are listed to achieve that objective.

BIRTH WEIGHT - Weight of fetus or infant at time of delivery.

LIVE BIRTH - The complete expulsion or extraction from its mother of product of human conception, irrespective of the duration of pregnancy, which, after such expulsion or extraction, breathes, or shows any other evidence of life such as beating of the heart, pulsation of the umbilical cord or definite movement of the voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached.

GESTATIONAL PERIOD - Number of weeks elapsed between the first day of the last menstrual period and date of delivery.

LIVE-BIRTH ORDER - Order number is equal to number of previous live births plus current birth.

LOW-WEIGHT - Birth wherein the weight is equivalent to 2,500 grams or less (5lbs., 8ozs.)

FETAL DEATHS - Death prior to the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of pregnancy; the death is indicated by the fact that after such expulsion or extraction the fetus does not breathe or show any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.

INFANT DEATH - Death occurring to an individual of less than one year of age.

MATERNAL DEATH - Death wherein the physician has designated a maternal condition as the underlying cause of death.

NEONATAL DEATH - Death occurring to an infant less than 28 days of age.

PERINATAL DEATH - The total of fetal deaths and deaths to infants within the first six days of life.

OCCURRENCE - Place where the event actually occurred.

UNDERLYING CAUSE OF DEATH - That condition giving rise to the chain of events leading to death.

NATURAL INCREASE - The excess of births over deaths.

TECHNICAL NOTES

Crude Birth Rate:

$$\frac{\text{Total Live Births} \times 1,000}{\text{Total Population}}$$

Illegitimacy Rate:

$$\frac{\text{Total Illegitimate Births} \times 1,000}{\text{Total Live Births}}$$

Crude Death Rate:

$$\frac{\text{Total Deaths} \times 1,000}{\text{Total Population}}$$

Crude Rate of Natural Increase:

$$\frac{\text{Live Births} - \text{Deaths} \times 1,000}{\text{Total Population}}$$

Divorce and Annulment Rate:

$$\frac{\text{Total Divorces and Annulments} \times 1,000}{\text{Total Population}}$$

Fetal Death Rate:

$$\frac{\text{Total Fetal Deaths} \times 1,000}{\text{Total Live Births}}$$

Infant Death Rate:

$$\frac{\text{Death under one year of age} \times 1,000}{\text{Total Live Births}}$$

Perinatal Death Rate:

$$\frac{\text{Number of Perinatal Deaths} \times 1,000}{\text{Total Live Births plus Fetal Deaths}}$$

Marriage Rate:

$$\frac{\text{Total Marriages} \times 1,000}{\text{Total Population}}$$

Neonatal Death Rate:

$$\frac{\text{Deaths less than 28 days} \times 1,000}{\text{Total Live Births}}$$

Fertility Rate:

$$\frac{\text{Total Live Births} \times 1,000}{\text{Total Female Population (age 15-44)}}$$

Low-Weight Birth Rate:

$$\frac{\text{Total Low-Weight Births} \times 1,000}{\text{Total Live Births}}$$

OTHER ACTIVITIES

CRIPPLED CHILDREN'S SERVICES
ANNUAL REPORT
October 1, 1979 to September 30, 1980

I. Description of Program

A. Goals and Objectives of the CCS Program

1. To detect handicapped or potentially handicapped children under 21 years of age residing on Guam; to provide a diagnostic evaluation and then the appropriate medical or surgical treatment, hospitalization if necessary, and continuing care in order to promote maximal physical and mental health ability of each child to function in a society. Criteria for eligibility for CCS coverage are geared toward providing maximal service within the bounds of available resources.

B. Programs

1. CCS Rescreening
2. CCS Pediatric-Neurological
3. Cardiac
4. ENT (Ear, Nose and Throat)
5. Eye
6. Orthopedic
7. Plastic

II. Accomplishment

A. Services Rendered by the Program

1. Out-patient Services

CDC 4.318
Rev. 12/88

* U.S. acquired cotton
** Cotton imported from outside United States

Information and Material Changes will be obtained for each State from the respective Division in the Bureau of Epidemiology and Bureau of State Services, CDC. It is in part authorized by 42 USC (Public Health Service Act), 42 USC 2613 and is also reproduced by the University of Idaho and is derived from the work of the American Association of Public Health Officials and is the property of the American Association of Public Health Officials.

DEPARTMENT OF HEALTH AND HUMAN SERVICES
PUBLIC HEALTH SERVICE
Centers for Disease Control
Atlanta, Georgia 30333

This report is authorized by the Public Health Service Act, 42 USC 2411 and is also recommended by the Conference of State and Territorial Epidemiologists. While your response is voluntary, your cooperation is necessary for the understanding and control of the disease.
